Coronavirus Disease 2019 (COVID-19)

CDC COVID Data Tracker

Maps, charts, and data provided by the CDC

Compare Trends in COVID-19 Cases and Deaths in the US

Reported to the CDC by State or Territory

View: Cases Deaths
Metric: Raw Totals Rate per 100,000
Scale: Linear Log
Select up to 6 states or territories:
California Florida Illinois Ohio Pennsylvania Texas
Show full US Data (available only in logarithmic scale)

Cumulative cases of Covid-19, reported to CDC, in CA, FL, IL, OH, PA, and TX

Cumulative cases (per 100K), by number of days since 3 total cases (per 100K) first recorded:

View and Download COVID-19 Case Surveillance Public Use Data

Data Sources, References & Notes: Total cases are based on aggregate counts of COVID-19 cases sent by state and territorial jurisdictions to the Centers for Disease Control and Prevention (CDC). Cases are reported to the CDC by the recipient of persons reported to the United States Public Health Surveillance System. Case and death data are provided to CDC by jurisdictions on a weekly basis and updated rather than cumulative. Cumulative case and death counts and prevalence of COVID-19 cases are reported by U.S. states and U.S. territories. When not available, CDC estimates are used.

Rates are calculated using U.S. Census Bureau, 2018 American Community Survey 1-year estimates and are shown as cases/100,000 people. The chart shows total cases per state, new cases in the last 7 days per state, and the cumulative COVID-19 cases. The 7-day moving average of new cases is calculated using the 7-preceding days / 7 (we consider this to smooth variations in daily counts.

Case numbers reported on other websites may differ from what is posted on CDC's website because CDC's overall case numbers are calculated using a combined confirmed and probable case count. Differences between reporting jurisdictions and CDC's website may occur due to the timing of reporting and website updates. The protocols used for finding and confirming cases displayed by other sites may differ. Counties for New York City and New York state are shown separately, but are included in the counts and totals for the state excluding data for NYC.
