Coronavirus Disease 2019 (COVID-19)

CDC COVID Data Tracker

Maps, charts, and data provided by the CDC

Compare Trends in COVID-19 Cases and Deaths in the United States

Reported to the CDC by State or Territory:

View: Cases, Deaths
Measure: Daily, Cumulative
Metric: Raw Totals, Rate per 100,000
Scale: Linear, Logarithmic

Select up to 6 states or territories:

California × Florida × Illinois × Ohio × Pennsylvania × Texas ×

Show full US Data (available only in logarithmic scale)

New deaths attributed to Covid-19, reported to CDC, in CA, FL, IL, OH, PA, and TX

Seven-day moving average of new deaths, by number of days since 3 average daily deaths first recorded.

Data Sources, References, Notes: Total cases are based on aggregate counts of COVID-19 cases sent by state and territorial jurisdictions to the Centers for Disease Control and Prevention (CDC) since January 21, 2020, with the exception of persons repatriated to the United States from Wuhan, China, and Japan. Case and death data are charted from date of first case/death rather than onset. The numbers are confirmed and probable COVID-19 cases as reported by U.S. states and U.S. territories. When not available to CDC, this is annotated by NA.

Case rates are calculated using U.S. Census Bureau 2019 Population Estimates. Survey 1-year estimates are used when available, otherwise 5-year estimates are used. Rates are calculated per 100,000 persons. The chart shows total cases per state, new cases in the last 7 days per state, and the rate (cases/100,000) per state. The 7-day moving average of new cases (current day + 6 preceding days / 7) was calculated to smooth expected variations in daily counts.

Case numbers reported on other websites may differ from what is posted on CDC's website because CDC's overall case numbers are validated through a confirmation process with each jurisdiction. Differences between reporting jurisdictions and CDC's website may occur due to the timing of reporting and website updates. The process used for finding and confirming cases displayed by other sites may differ. *Counts for New York City and New York state are shown separately due to New York State show total cases and deaths for the state excluding data for NYC.
