## Demographic Characteristics of People Receiving COVID-19 Vaccinations in the United States

Overall US COVID-19 Vaccine Distribution and Administration; Maps, charts, and data provided by the CDC, updated daily by 8 pm ET<sup>†</sup>

The Centers for Disease Control and Prevention (CDC) is working with states to provide more information on the demographic characteristics of vaccinated people.

These demographic data only represent the geographic areas that contributed data and might differ by populations prioritized within each state or jurisdiction's vaccination phase. Every geographic area has a different racial and ethnic composition, and not all are in the same vaccination phase. These data are thus not generalizable to the entire US population.

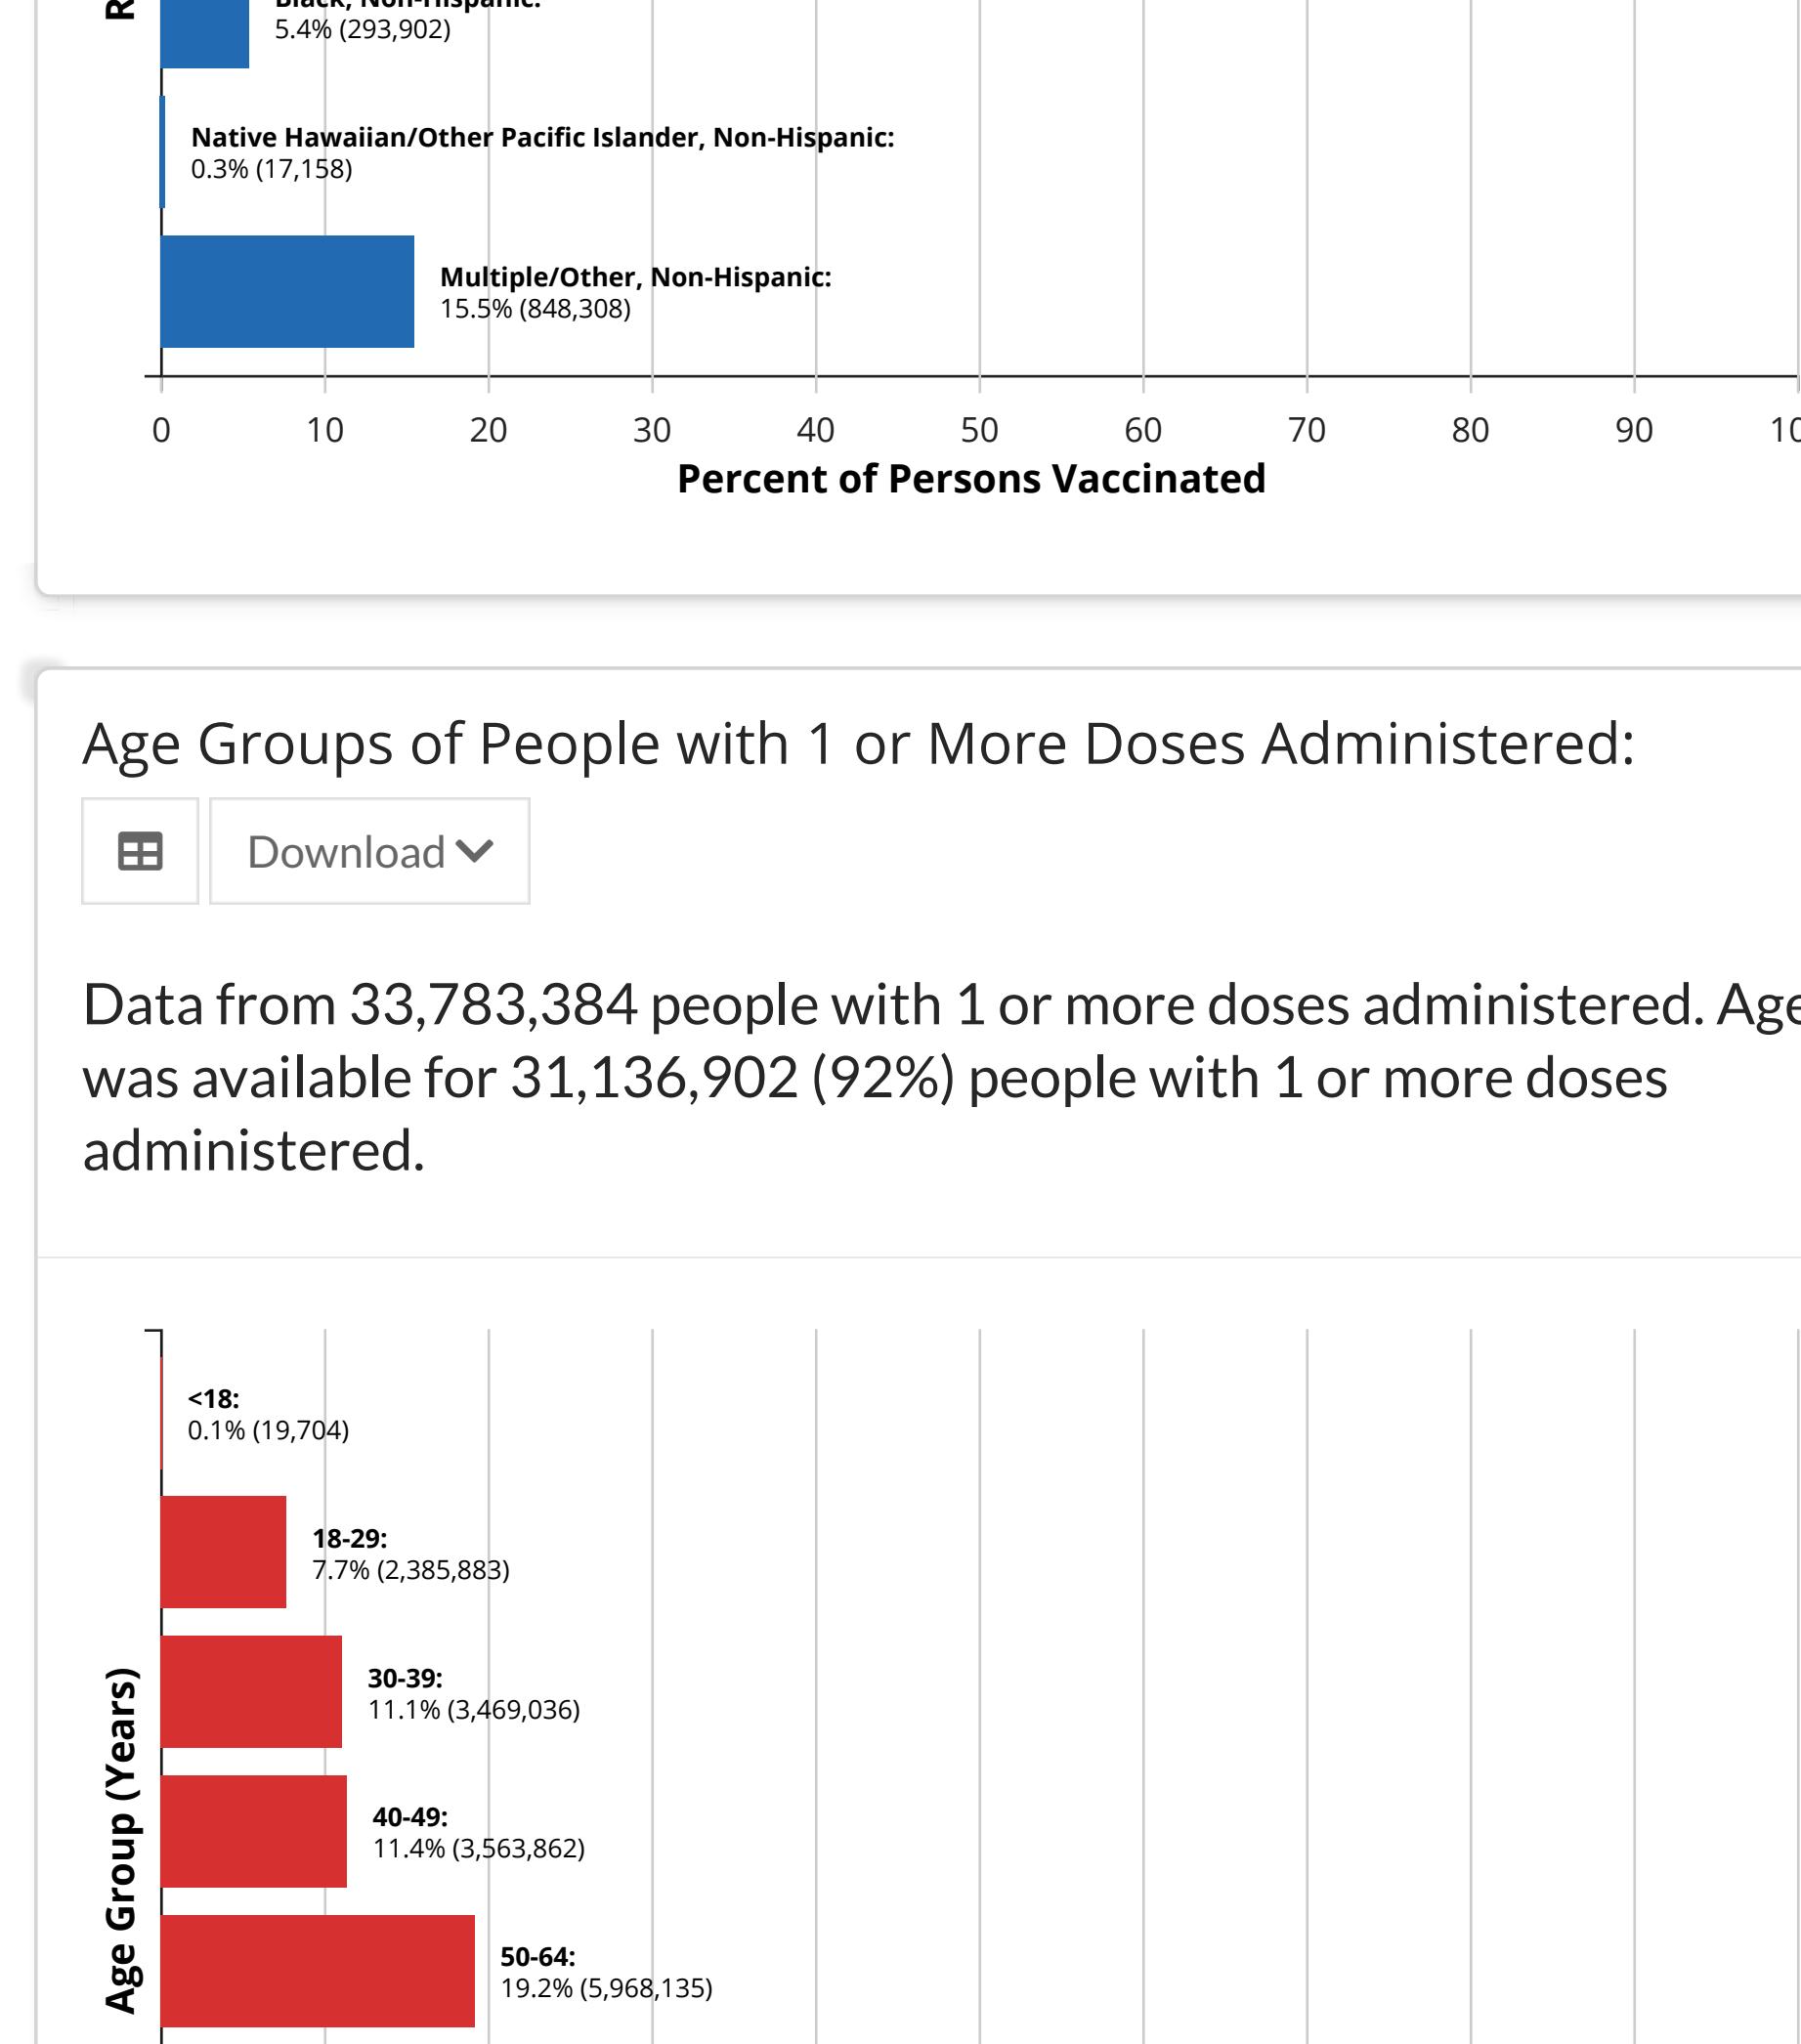

Percentages displayed in the charts below represent the percent of people vaccinated for whom the demographic variable of interest is known.

CDC | Updated: Feb 10 2021 1:26PM

### Race/Ethnicity of People with 1 or More Doses Administered:

[Download](#)

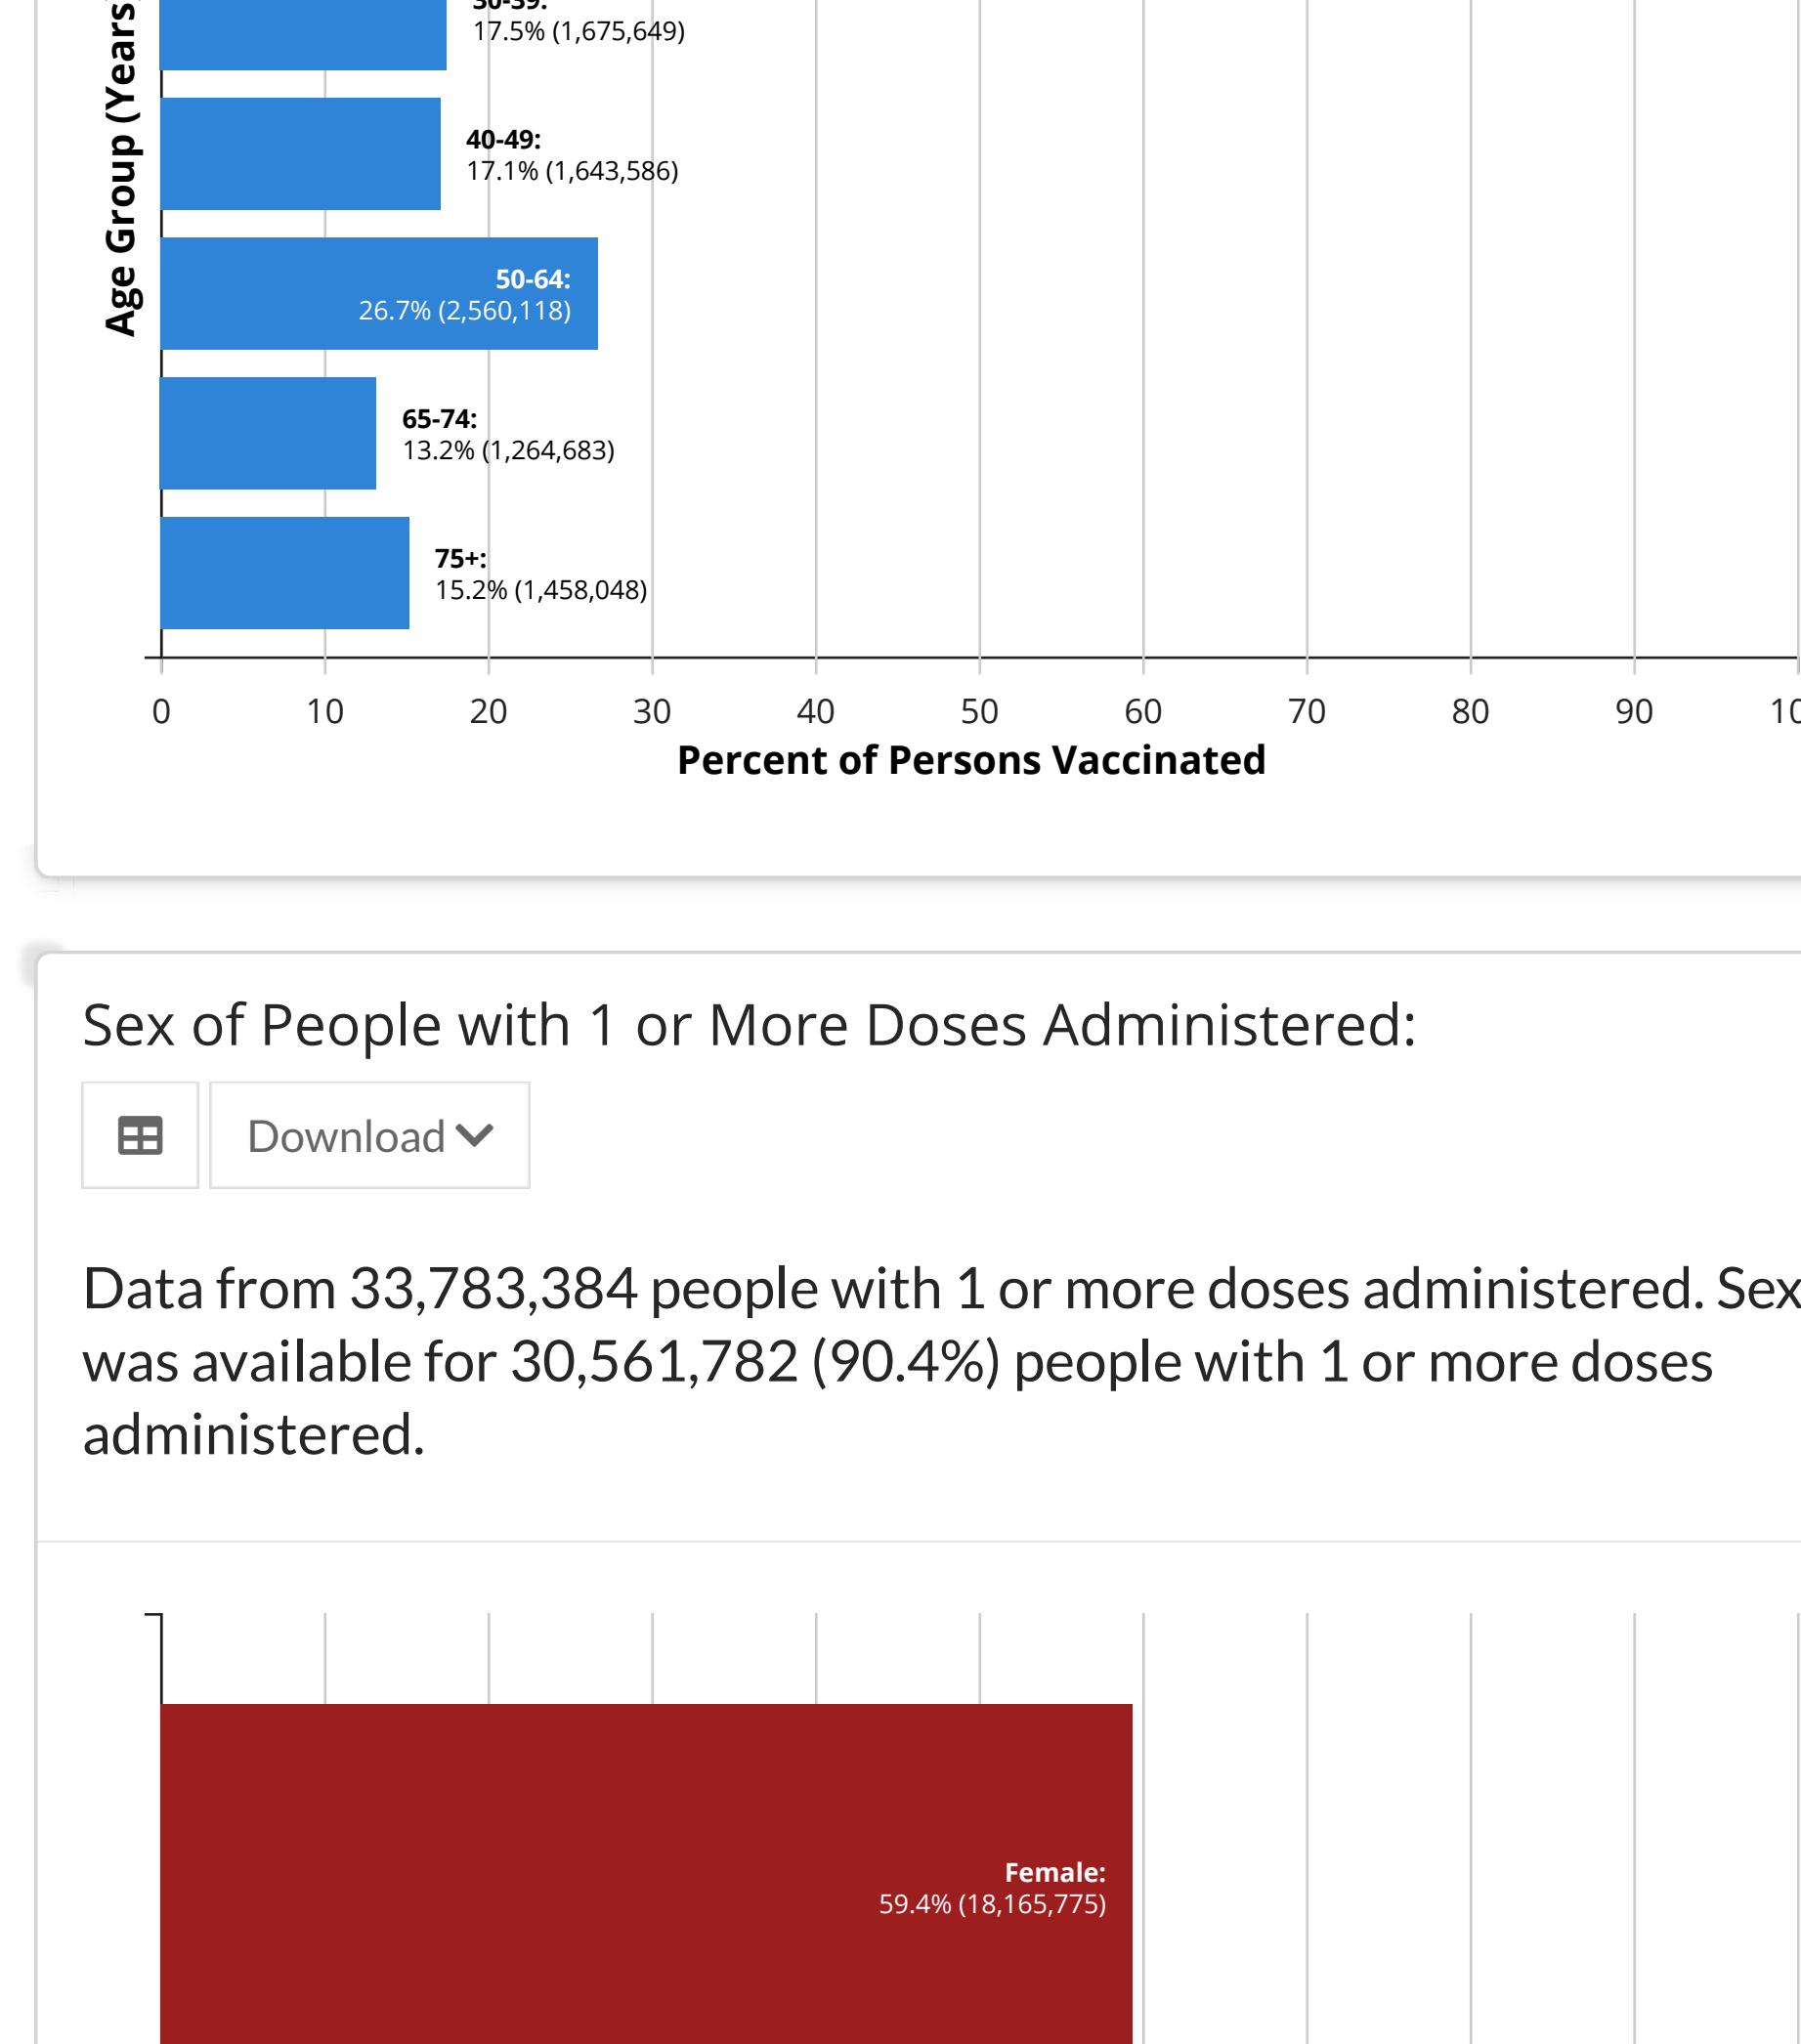

Data from 33,783,384 people with 1 or more doses administered. Race/Ethnicity was available for 18,398,606 (54.4%) people with 1 or more doses administered.

### Race/Ethnicity of People with 2 Doses Administered:

[Download](#)

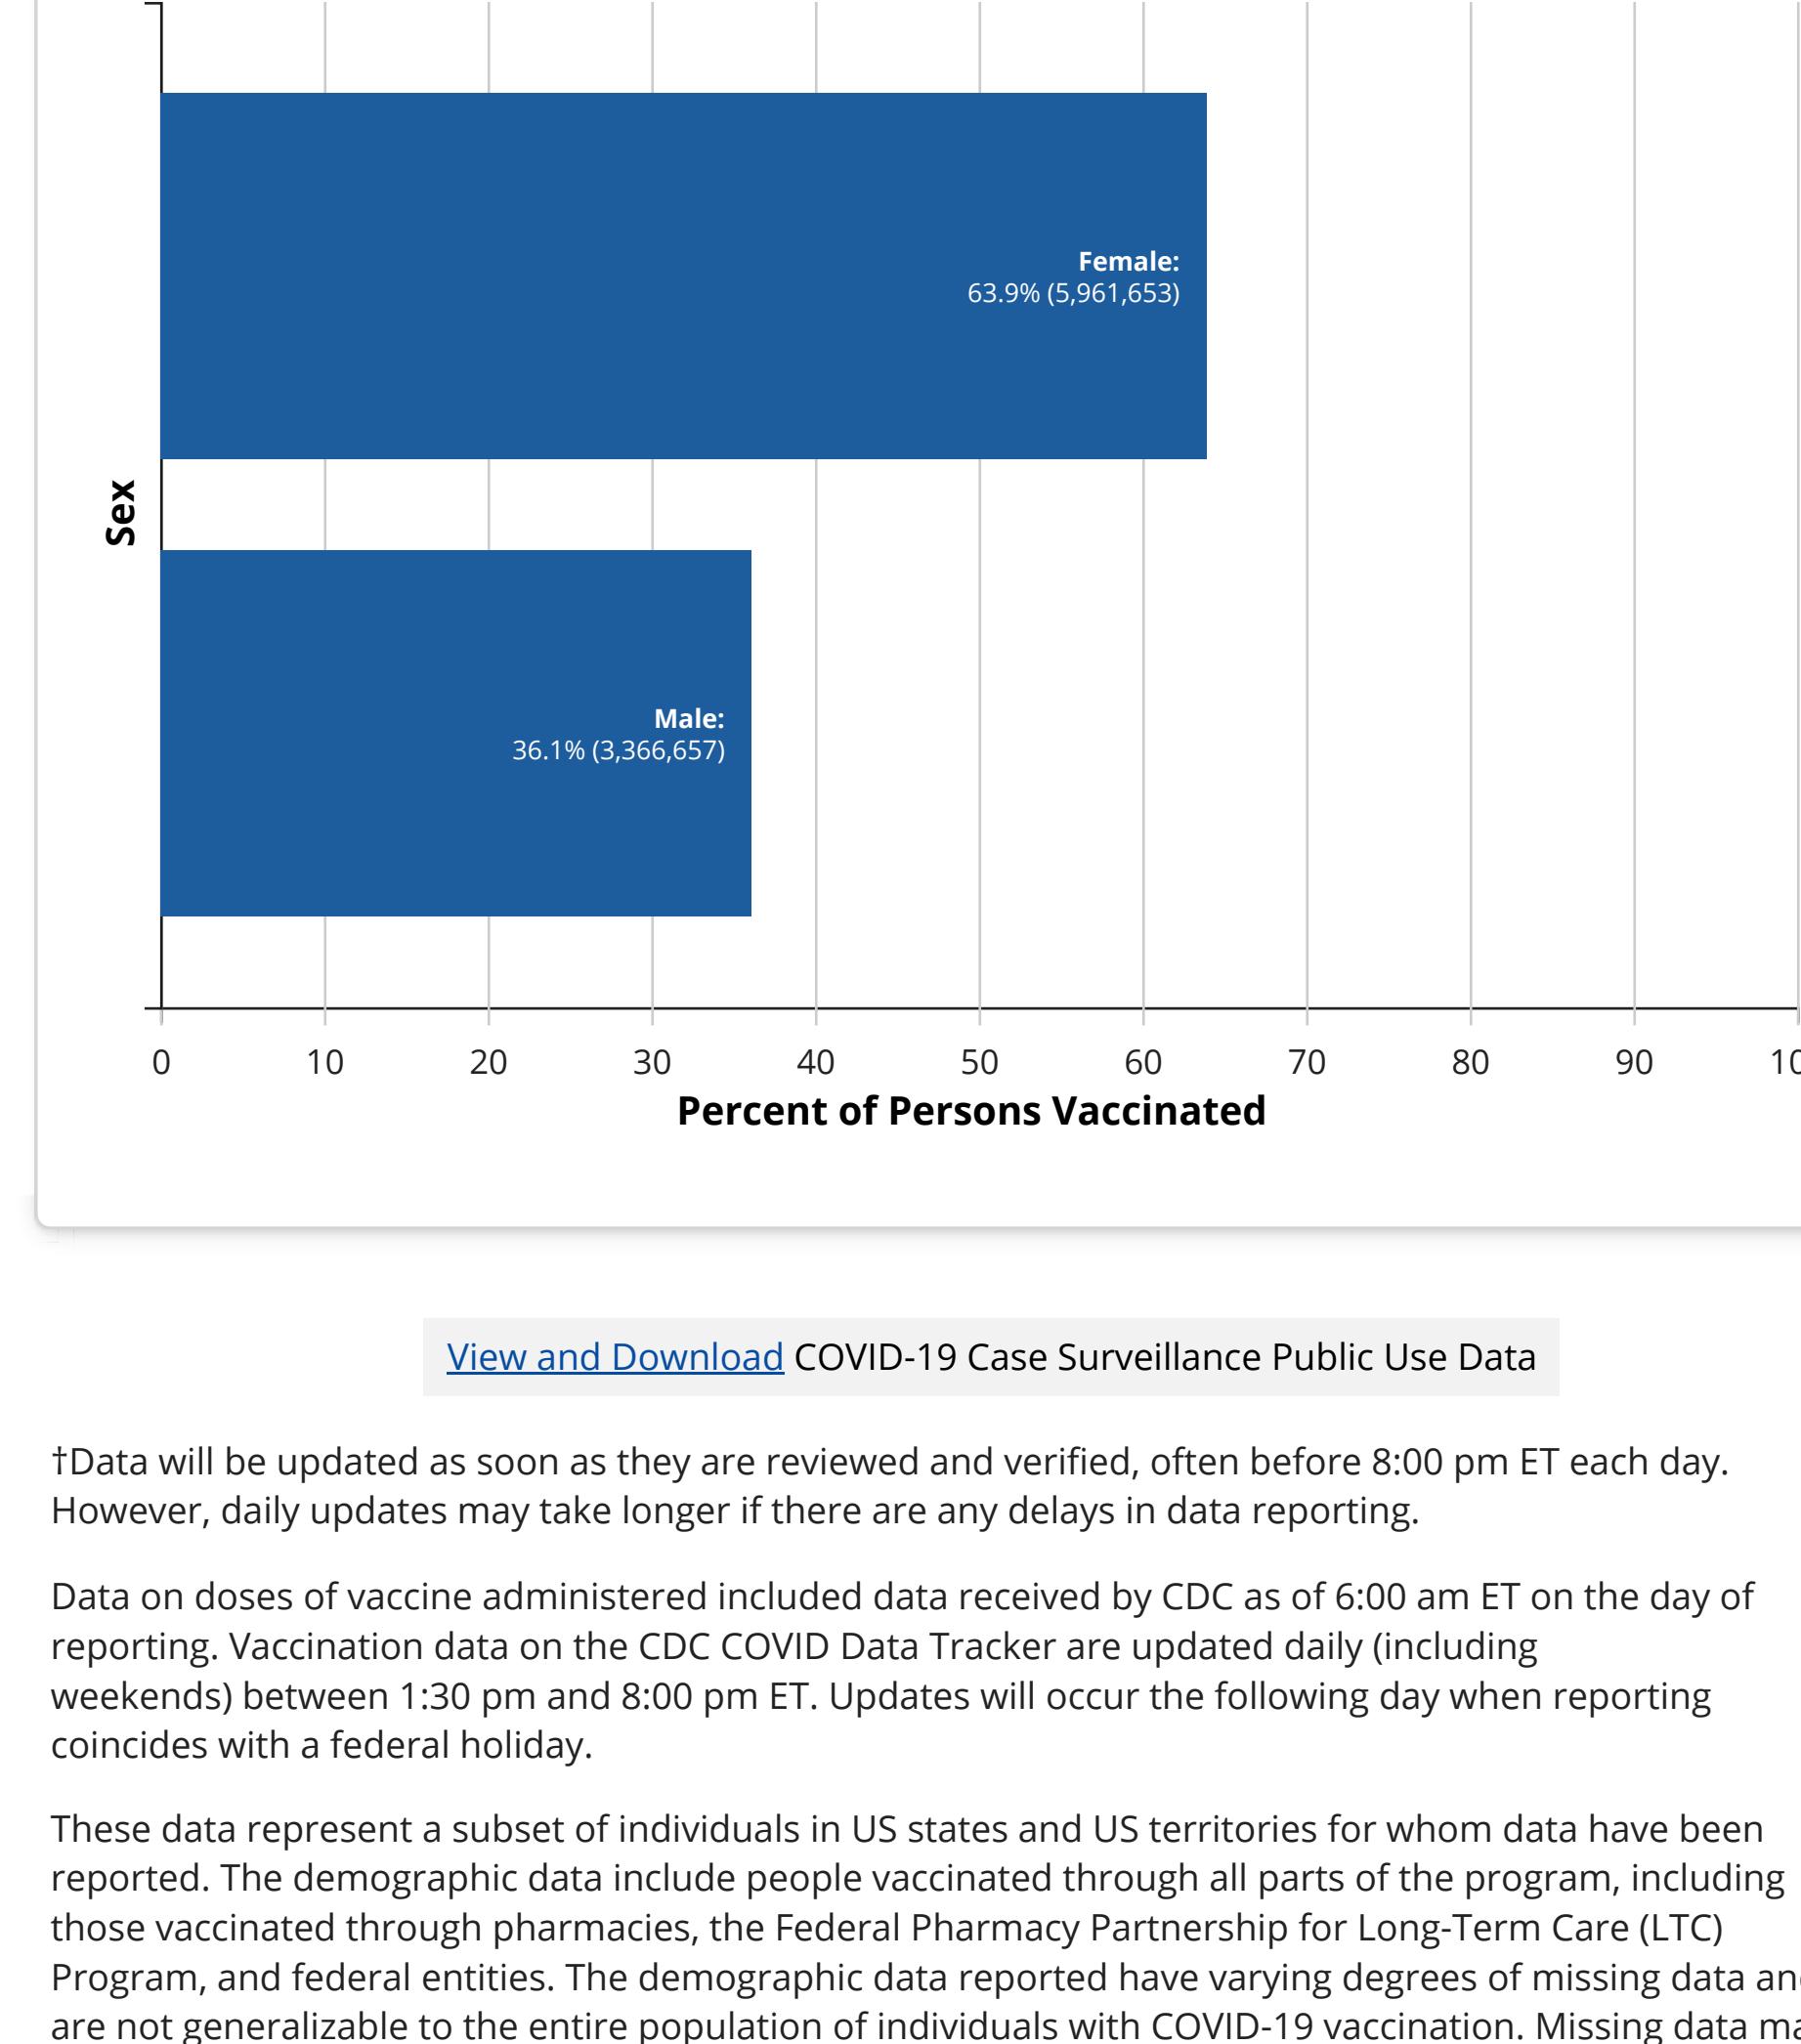

Data from 10,469,514 people with 2 doses administered. Race/Ethnicity was available for 5,458,719 (52.1%) people with 2 doses administered.

### Age Groups of People with 1 or More Doses Administered:

[Download](#)

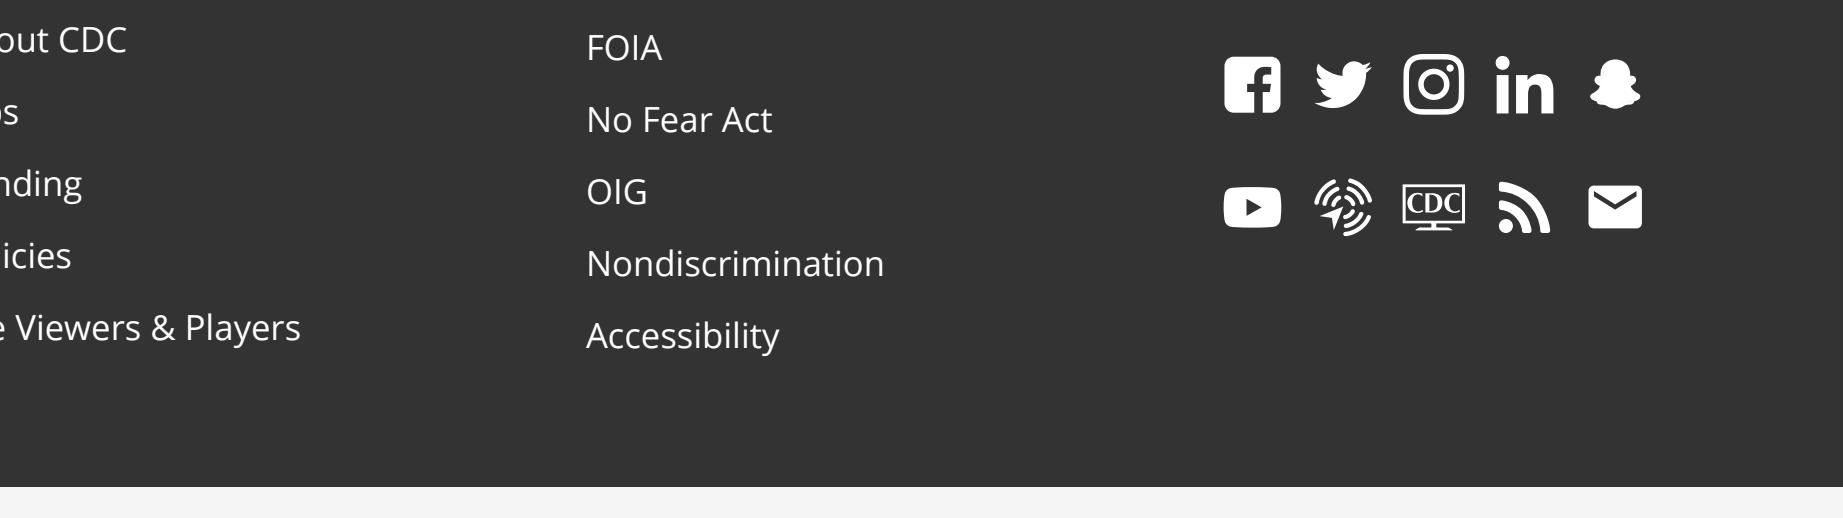

Data from 33,783,384 people with 1 or more doses administered. Age was available for 31,136,902 (92%) people with 1 or more doses administered.

### Age Groups of People with 2 Doses Administered:

[Download](#)

Data from 10,469,514 people with 2 doses administered. Age was available for 9,589,358 (91%) people with 2 doses administered.

Data will be updated as soon as they are reviewed and verified, often before 8:00 pm ET each day. However, daily updates may take longer if there are any delays in data reporting.

Data on doses of vaccine administered included data received by CDC at 6:00 am ET on the day of reporting. Vaccination data on the CDC COVID-19 Data Tracker is updated daily between 1:30 pm and 8:00 pm ET. Data updates will occur the following day when reporting coincides with a federal holiday.

These data represent a subset of individuals in US states and US territories for whom data have been reported. The data include individuals in US states and US territories, including those vaccinated through pharmacies, the Federal Pharmacy Partnership for Long-term Care (LTC) Program, and federal entities. The demographic data reported have varying degrees of missing data and may not be generalizable to the entire population of individuals with COVID-19. Data on doses of vaccine administered included data received by CDC at 6:00 am ET on the day of reporting. Vaccination data on the CDC COVID-19 Data Tracker is updated daily between 1:30 pm and 8:00 pm ET. Data updates will occur the following day when reporting coincides with a federal holiday.

Emergency Use Authorization has been granted for use of the Pfizer-BioNTech vaccine among people aged 16 and older and use of the Moderna vaccine among people aged 18 and older. Therefore, vaccine use is limited among those under age 18.

Definitions:

Least 1 dose of vaccine or More doses represent the total number of people who have received at least 1 dose of vaccine. \*\*The number of people receiving 1 or more doses and the number of people receiving 2 or more doses were determined based on information reported to CDC by state, recipient ID, and location. Data on doses of vaccine administered included data received by CDC at 6:00 am ET on the day of reporting.
