Demographic Trends of COVID-19 cases and deaths in the US reported to CDC

Maps, charts, and data provided by the CDC, updated daily by 8 pm ET.[†]

CDC is working with states to provide more information on race/ethnicity for reported cases. The percent of reported cases that include race/ethnicity data is increasing.

These data only represent the geographic areas that contributed data on race/ethnicity. Every geographic area has a different racial and ethnic composition. These data are not generalizable to the entire U.S. population.

If cases were distributed equally across racial and ethnic populations, one would expect to see more cases in those populations that are more highly represented in geographic areas that contributed data.

Percentages displayed in the charts below represent the percent of cases or deaths for which the demographic variable of interest is known.

CDC | Updated: Feb 18 2021 12:45PM

Cases by Race/Ethnicity:

Download

Data from 20,730,780 cases.

Race/Ethnicity was available for 10,719,203 (51%) cases.

All Age Groups

Deaths by Race/Ethnicity:

Download

Data from 350,626 deaths.

Race/Ethnicity was available for 261,480 (74%) deaths.

All Age Groups

Cases by Age Group:

Download

Data from 20,730,780 cases. Age group was available for 20,584,172 (99%) cases.

All Age Groups

Deaths by Age Group:

Download

Data from 350,626 deaths. Age group was available for 350,595 (99%) deaths.

All Age Groups

Cases by Sex:

Download

Data from 20,730,780 cases. Sex was available for 20,473,306 (98%) cases.

All Age Groups

Deaths by Sex:

Download

Data from 350,626 deaths. Sex was available for 349,492 (99%) deaths.

All Age Groups

Do you need to take extra precautions to reduce your risk of contracting COVID-19?

Find more [information and resources](#) for those at increased risk for COVID-19.[View and Download COVID-19 Case Surveillance Public Use Data](#)[†]Data will update as soon as they are reviewed and verified, oftentimes before 8 pm ET. However, daily updates might be delayed due to delays in reported data.Data Sources, References & Notes: The case classifications for COVID-19, a nationally notifiable disease, are described in an [updated interim COVID-19 position statement](#) issued by the Council of State and Territorial Epidemiologists on August 5, 2020. However, there is some variation in how jurisdictions implement these case classifications. More information on how CDC collects COVID-19 cases and how case surveillance can be found at [CDC's COVID-19 FAQ page](#).

Case-Level Data: Demographic and other data from territorial jurisdictions is sent to the Centers for Disease Control and Prevention (CDC) since January 21, 2020. Demographic data have varying degrees of missing data and are not generalizable to the entire population of individuals with COVID-19. All displayed counts include confirmed COVID-19 cases and deaths as reported by U.S. states, U.S. territories, New York City (NYC), and the District of Columbia from the previous day.

Counts for COVID-19 cases also include probable COVID-19 cases and deaths. The process used for finding and confirming COVID-19 cases displayed by other sites may differ.

Counts for COVID-19 cases displayed by other sites may differ.
