COVID-19 Vaccinations in the United States

Overall US COVID-19 Vaccine | Deliveries and Administration; Maps, charts, and data provided by CDC, updated daily by 8 pm ET[†]
 Represents all vaccine partners including jurisdictional partner clinics, retail pharmacies, long-term care facilities, dialysis centers, Federal Emergency Management Agency and Health Resources and Services Administration partner sites, and federal entity facilities.

Total Vaccine Doses

Delivered **219,194,215**

Administered **168,592,075**

[Learn more about the distribution of vaccines.](#)

People Vaccinated	At Least One Dose	Fully Vaccinated
Total	108,301,234	63,016,976
% of Total Population	32.6%	19%
Population ≥ 18 Years of Age	107,609,937	62,885,968
Population ≥ 65 Years of Age	41.7%	24.4%
Population ≥ 65 Years of Age	41,537,908	30,976,740
Population ≥ 65 Years of Age	75.9%	56.6%

About these data

CDC | Data as of: Apr 06 2021 6:00am ET | Posted: Apr 6 2021 1:34PM ET

View:

- Total Doses
- People

Show:

- Administered
- Delivered

Metric:

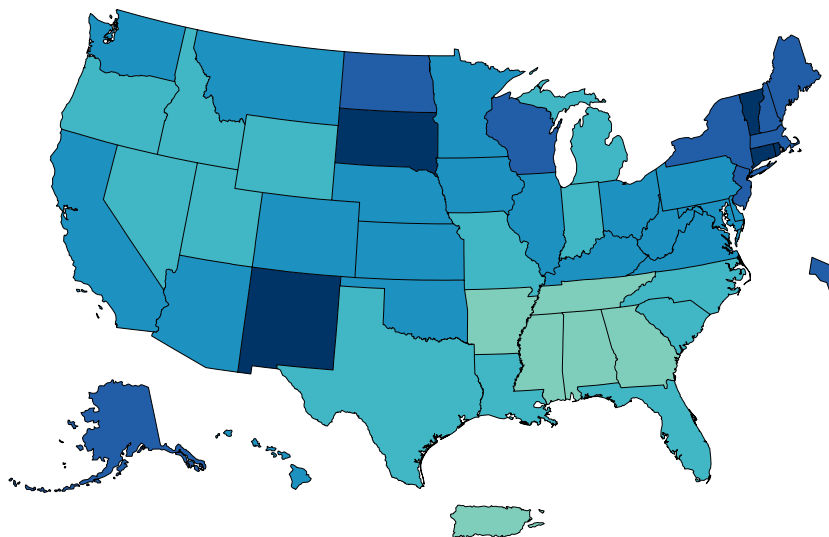

- Count
- Rate per 100,000

Population:

- Total Population
- Population ≥ 18 Years of Age
- Population ≥ 65 Years of Age

This shows the number of doses administered within the state or territory for every 100,000 people of the total population. It does not reflect the residency of the person receiving the vaccine, but where they received it.

Total Doses Administered Reported to the CDC by State/Territory and for Select Federal Entities per 100,000 of the Total Population

Territories

- GU
- AS
- RP
- FM
- MP
- MH
- VI

Federal Entities

- BoP
- DoD
- IHS
- VHA

Timing:[†] Data will be updated after review and verification, usually before 8:00 pm ET. Note: Daily updates might be delayed due to delays in reporting.

- Data on doses of vaccine distributed and administered include data received by CDC as of 6:00 am ET on the day of reporting.
- Vaccination data on CDC's COVID Data Tracker are updated daily between 1:30 pm and 8:00 pm ET.
- Updates will occur the following day when reporting coincides with a federal holiday.

Updates:

View Vaccine Channel Portfolio by Jurisdiction
(<https://www.cdc.gov/coronavirus/2019-ncov/vaccines/distributing/jurisdiction-portfolios.html>)

- For reporting on CDC COVID Data Tracker, **CDC counts people as being**

“fully vaccinated” if they received two doses on different days (regardless of time interval) of the two-dose mRNA series or received one dose of a single-dose vaccine.

- CDC determined the number of people receiving at least one dose and the number of people who are fully vaccinated based on information that state, territorial, tribal, and local public health agencies and federal entities reported to CDC on dose number, dose manufacturer, administration date, recipient ID, and date of submission. Because the method used to determine dose numbers needs to be applied across multiple jurisdictions (states, territories, tribes, or local entities) with different reporting practices, **CDC’s dose number estimates might differ from those reported by jurisdictions and federal entities. People receiving doses are attributed to the jurisdiction in which the person resides.**

- When the vaccine manufacturer is not reported, the recipient is considered fully vaccinated with two doses.

- Since **March 29, 2021**, the total number of doses delivered, and total number of doses administered by dialysis centers participating in the Federal Dialysis Center Program are reflected in national totals and in jurisdictional totals.
