Healthcare Facilities in Production for COVID-19 Electronic Case Reporting

Updated May 28, 2021 [Print](#)

 [PNG - 531 KB]

Footnote: Electronic case reporting (eCR) is the automated, real-time exchange of case report information between electronic health records and public health agencies. In partnership with the Association of Public Health Laboratories (APHL) and the Council of State and Territorial Epidemiologists (CSTE), CDC is rapidly onboarding healthcare facilities to eCR during the COVID-19 pandemic. As of May 28, 2021, more than 8,800 facilities are sending COVID-19 electronic initial case reports to public health using eCR.

Footnote: In production: Healthcare facility is actively sending electronic case reports to public health agencies.
