## Demographic Characteristics of People Receiving COVID-19 Vaccinations in the United States

Overall US COVID-19 Vaccine Distribution and Administration; Maps, charts, and data provided by CDC, updates daily by 8 pm ET†

The Centers for Disease Control and Prevention (CDC) is working with states to provide more information on the demographic characteristics of vaccinated people.

These demographic data only represent the geographic areas that contributed data and might differ by populations prioritized within each state or jurisdiction's vaccination phase. Every geographic area has a different racial and ethnic composition, and not all are in the same vaccination phase. These data are thus not generalizable to the entire US population.

Percentages displayed in the charts below represent the percent of people vaccinated for whom the demographic variable of interest is known.

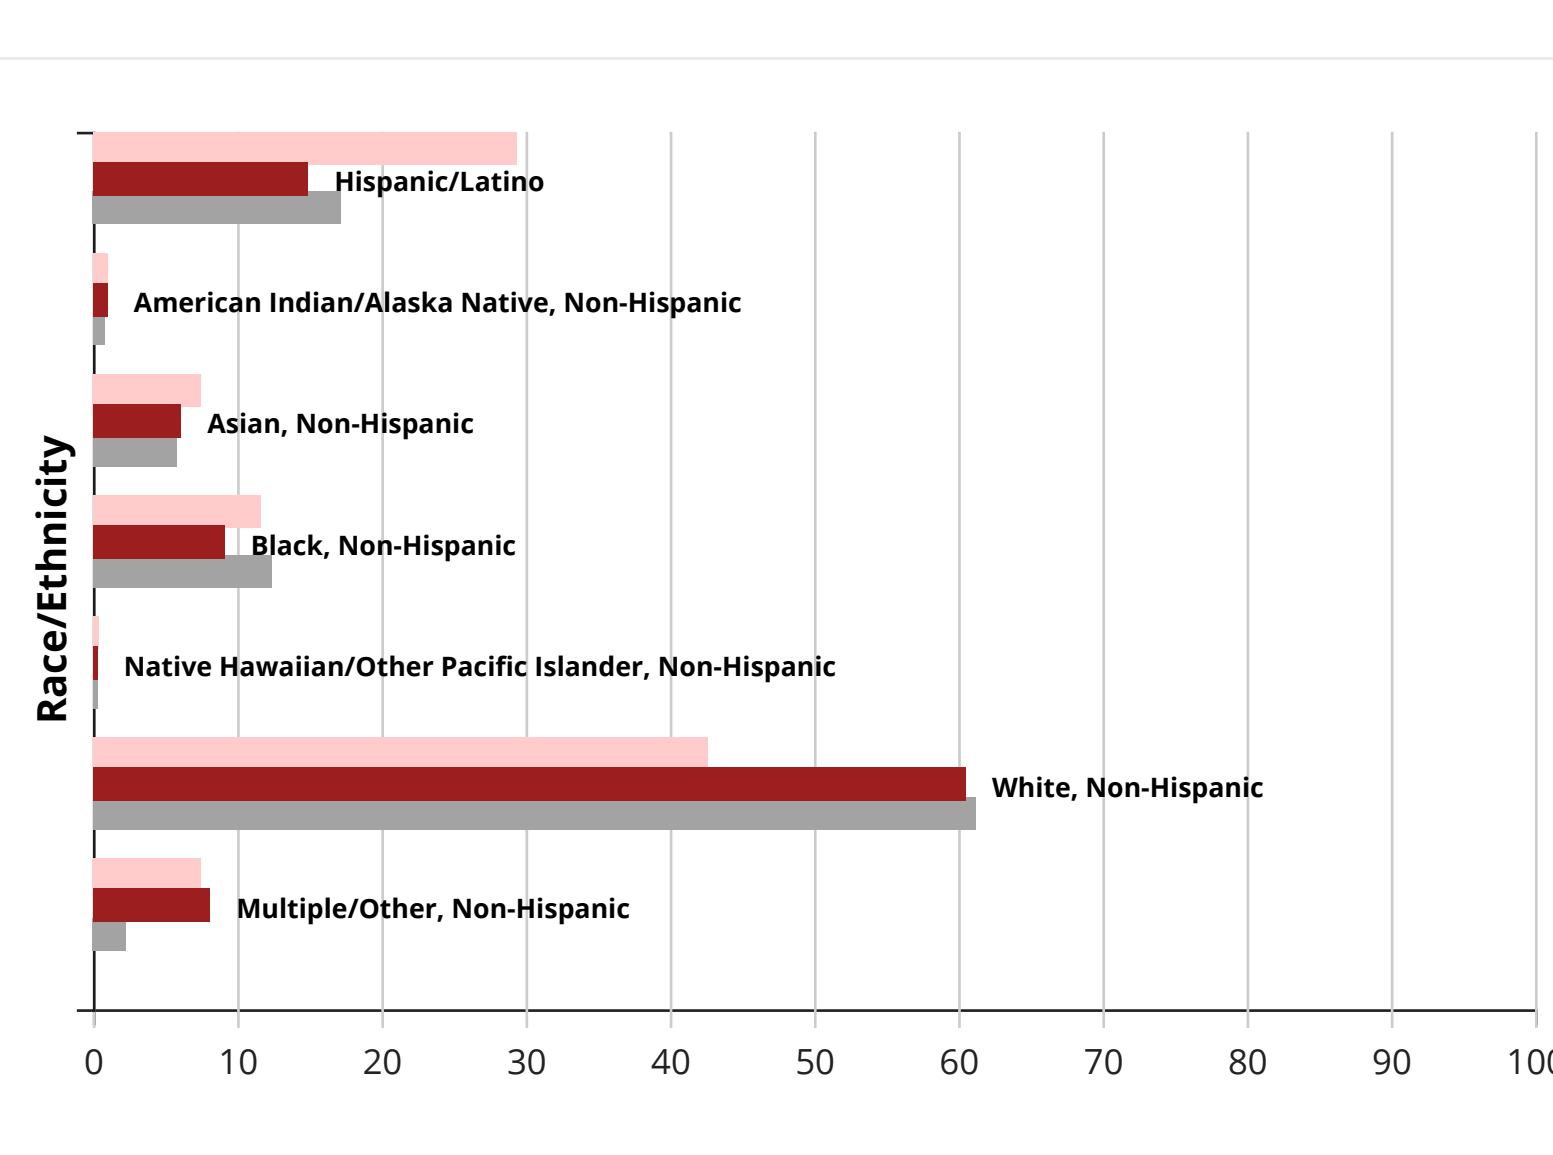

About these data ? [How Do I Find a COVID-19 Vaccine?](#)

CDC | Data as of: June 16, 2021 6:00am ET. Posted: Wednesday, June 16, 2021 2:10 PM ET

### Race/Ethnicity of People with at least One Dose Administered:

Download

Data from 175,053,401 people with at least one dose administered. Race/Ethnicity was available for 99,954,998 (57.1%) people with at least one dose administered.

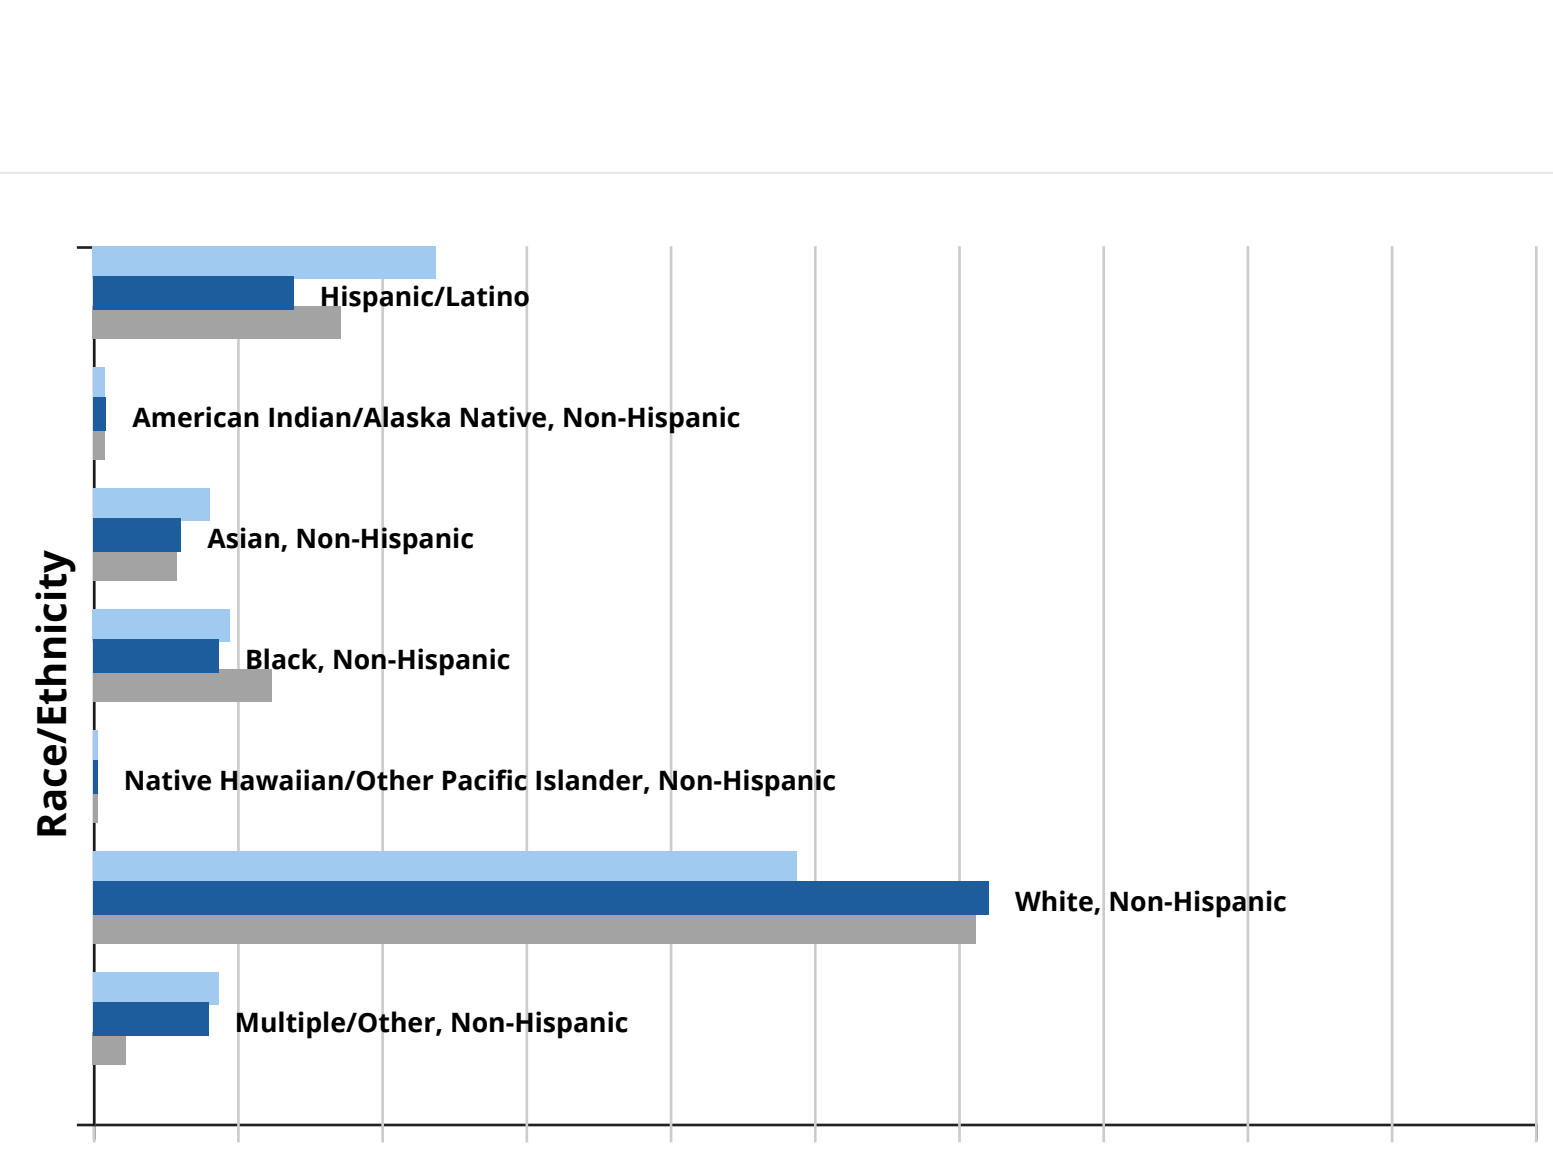

Show Percentage of the US Population that is in this demographic category

### Race/Ethnicity of People Fully Vaccinated:

Download

Data from 146,456,124 people fully vaccinated. Race/Ethnicity was available for 90,511,961 (61.8%) people fully vaccinated.

### Footnotes

**Timing:** †Data will be updated as soon as they are reviewed and verified, often before 8:00 pm ET each day. However, daily updates may take longer if there are any delays in data reporting.

- Data on doses of vaccine administered included data received by CDC as of 6:00 am ET on the day of reporting.
- Vaccination data from the CDC COVID Data Tracker are updated daily (including weekends) between 1:30 pm and 8:00 pm ET.
- Updates will occur the following day when reporting coincides with a federal holiday.

### Updates:

On April 6, 2021, improvements in reporting vaccine recipient race/ethnicity data to CDC resulted in an increase in the number of people for whom race/ethnicity data are available. These improvements will continue to allow for better race/ethnicity data reporting.
