

**To help keep our students safe,  
our school is offering regular COVID-19 testing.**

---

**Because  
school is better  
at school.**

Now that schools are reopening, it's more important than ever that you and our students stay safe. Free, quick, and easy COVID-19 tests help protect everyone and keep school open for learning. You may get questions from our students or parents — make sure you know about our school's COVID-19 testing program.
