

TANZANIA

FIELD EPIDEMIOLOGY AND LABORATORY TRAINING PROGRAM (TFELTP)

Accessible version: <https://www.cdc.gov/globalhealth/infographics/tfeltp.html>

The three-month TFELTP Frontline course prepares public health workers to detect and respond to health threats at the local and community level. It was launched in 2015 through a partnership between the US Centers for Disease Control and Prevention, Tanzania's Ministry of Health, Community, Development, Gender, Elderly and Children, and the US Defense Threat Reduction Agency.
