OpiSafe Integration into Epic

This survey is designed to hear your feedback about the OpiSafe application integrated into Epic for PDMP checking. Your response to these questions will help us to make a business case to Denver Health leadership for ongoing access to this integrated PDMP checker. We appreciate your time.

Sincerely,
Josh Blum and Susan Calcaterra

---

1) Are you aware of the 2016 CDC guidelines to check PDMP when starting opioids for chronic pain and then periodically thereafter ranging from every opioid prescription to every three months?

  ○ Yes
  ○ No

---
