WE WORK TO IMPROVE HEALTH ACROSS THE LIFE SPAN

Where People Live, Learn, Work, and Play

Infants

Reduce the leading causes of infant death and illness.

Children & Adolescents

Help support healthy communities, child care programs, and schools so children can eat well, stay active, and avoid risky behaviors.

Adults

Help adults lead healthy and active lives and increase the use of preventive services like cancer screenings.

Older Adults

Promote quality of life and independence for people as they age.

What We Do

Find out how chronic diseases affect populations in the United States.

Study interventions to find out what works best to prevent and control chronic diseases.

Fund and guide states, territories, cities, and tribes to use interventions that work.

Share information to help all Americans understand the risk factors for chronic diseases and how to reduce them.

How We Do It

MEASURE

how many Americans have chronic diseases or chronic disease risk factors.

IMPROVE

environments to make it easier for people to make healthy choices.

STRENGTHEN

health care systems to deliver prevention services that keep people well and diagnose diseases early.

CONNECT

clinical services to community programs that help people prevent and manage their chronic diseases and conditions.

MISSION AND VISION

Vision

Healthy people in healthy communities

Mission

To help people and communities prevent chronic diseases and promote health and wellness for all
