

2007 National HIV Prevention Conference

Promoting Synergy Between Science and Program

Conference Program

December 2–5, 2007

Hyatt Regency Atlanta &
Atlanta Marriott Marquis

Atlanta, Georgia

CONFERENCE CO-SPONSORS

The Conference is being organized by numerous agencies and national programs. These groups, convened by the Centers for Disease Control and Prevention (CDC), represent public and private organizations whose interaction, cooperation, and coordination are crucial to successful efforts to prevent HIV and AIDS in the United States.

- Academy for Educational Development
- AIDS Action Council
- American Dietetic Association HIV/AIDS Dietetic Practice Group
- American Social Health Association
- amfAR, The Foundation for AIDS Research
- Association of Maternal and Child Health Programs
- Atlanta Interfaith AIDS Network
- Center for AIDS Prevention Studies, UCSF
- Centers for Disease Control and Prevention, DHHS
- Community HIV/AIDS Mobilization Project
- Council of State and Territorial Epidemiologists
- Emory Center for AIDS Research
- Food and Drug Administration, DHHS
- Fulton County Department of Health and Wellness Communicable Disease Prevention Branch
- Health Resources and Services Administration, DHHS
- Henry J. Kaiser Family Foundation
- Hepatitis C/HIV Multicultural Outreach
- Indian Health Service, DHHS
- Institute for Youth Development
- Jewish AIDS Network
- National Alliance for Hispanic Health
- National Alliance of State and Territorial AIDS Directors
- National Association of People with AIDS
- National Association of Social Workers
- National Association of State Boards of Education
- National Coalition of STD Directors
- National Latina Health Network
- National Minority AIDS Council
- National Minority Quality Forum
- Office of AIDS Research, National Institutes of Health, DHHS
- Office of Minority Health, DHHS
- Office of Women's Health, DHHS
- Substance Abuse and Mental Health Services Administration, DHHS
- The Balm in Gilead
- The Hepatitis Foundation International
- The Urban Coalition for HIV/AIDS Prevention Services

CITY OF ATLANTA

SHIRLEY FRANKLIN
MAYOR

55 TRINITY AVENUE, S.W.
ATLANTA, GEORGIA 30303-0300
TEL (404) 330-6100

December 2, 2007

Greetings:

As Mayor of Atlanta, I am pleased to welcome you to the *2007 National HIV Prevention Conference* hosted by the Centers for Disease Control and Prevention (CDC).

The CDC has diligently worked to educate and promote health and safety to the public by providing reliable healthcare information. The CDC's the *2007 National HIV Prevention Conference* will allow participants to gain increased knowledge about services and treatments that will mobilize a broader community action to fight against HIV/AIDS among African-Americans. I commend the CDC for promoting the benefits of HIV/AIDS testing and prevention to millions of African-Americans at risk. We are grateful for your programs that raise awareness of this pandemic.

While in our city, we encourage you to explore the many attractions Atlanta has to offer including: the Martin L. King Jr. Center, the Apex Museum, Underground Atlanta, the Georgia Aquarium, the World of Coca-Cola, CNN Center, Centennial Olympic Park, Woodruff Arts Center, Atlanta Botanical Garden, Children's Museum of Atlanta and many more! We invite you to share in our southern hospitality, sample cuisine at our many fine restaurants and enjoy the rich and diverse heritage of our city.

On behalf of the people of Atlanta, thank you for your humanitarian contributions and best wishes for a successful event!

Sincerely,

Shirley Franklin

Letter from Conference Co-Chairs

December 2007

Dear Conference Participants:

Welcome to the 2007 National HIV Prevention Conference. We thank you for participating and look forward to an exciting and ambitious program over the next few days.

CDC estimates that over one million persons are living with HIV in the United States and that one quarter of these people are unaware of their HIV infection. In addition, the number of people living with AIDS is increasing, as effective new drug therapies keep HIV-infected persons healthy longer and dramatically reduce the death rate.

The simple fact is that HIV and AIDS will not be defeated until we reduce the number of people who become infected. This requires strengthening collaboration between researchers, program practitioners, and affected communities particularly with regard to developing and promoting behavioral interventions for populations disproportionately affected by HIV.

To those of you who have come recently to this challenge, we welcome you and thank you for your interest, enthusiasm, and determination. Of course we also welcome those of you who are veterans of this effort, who have persevered over the long run to find and apply science-based knowledge in order to establish and promote effective prevention programs. Together, we have the next few days to renew our commitment to HIV prevention and to share, learn, and discuss the strategies and approaches that will best help us to enhance our prevention efforts.

For this year's conference we want to recognize and address the unique prevention challenges that we face today, while building on the successful approaches, promising practices, and the outcomes of previous conferences. A key focus of our prevention efforts must be to more effectively address the differential impact of HIV/AIDS on people of color. Consequently, in this year's conference we have strengthened our focus on the impact and consequences of HIV/AIDS in communities of color within all conference tracks, with a particular emphasis on reaching out to the current and future leaders to learn from their perspectives, share the results of research and program experiences, and work together to plan for the future. We hope that this conference will continue to build even stronger bridges with affected communities, and help chart a clear vision for driving research, policy, and program in the months and years ahead.

Another unique focus of this meeting is our commitment to integrating science-based research into programs and advancing the science associated with the development, implementation, and evaluation of our prevention programs. The iterative relationship between science and program is reflected both in our conference theme, *Promoting Synergy Between Science and Program* and in our decision to add a new Conference Track - *Program Collaboration and Service Integration* - to reinforce this approach. We are excited about the opportunities this meeting presents to discuss and disseminate more holistic, evidence-based effective and integrated HIV prevention research, policy and interventions.

The conference is the culmination of many months of dedicated efforts by volunteers, partners, staff, and of course, the co-sponsors to create a stimulating learning environment for the conference participants. We acknowledge their support and thank them.

Welcome to Atlanta - we wish you a most rewarding conference!

Kevin A. Fenton, M.D., Ph.D., FFPH
Conference Co-Chair

Timothy D. Mastro, M.D., FACP
Conference Co-Chair

Victoria A. Cargill, M.D., M.S.C.E.
Conference Co-Chair

Welcome to the 2007 National HIV Prevention Conference

Conference Background and Purpose

More than 25 years after the first report of a handful of cases of a nameless deadly disease among gay men in Los Angeles, there are more than 1 million persons living with HIV in the United States; about one-fourth of those with HIV have not yet been diagnosed and are unaware of their infection. The "new" syndrome identified over 25 years ago has become one of the deadliest epidemics in human history, killing more than 25 million people around the world, including more than 500,000 Americans. In the last decade, major advances in prevention and treatment for HIV/AIDS have prolonged and improved the lives of many, but despite this, the epidemic is far from over.

The simple fact is this: to defeat HIV and AIDS, we need to reduce the number of people who become infected. Throughout the epidemic, prevention has remained the most effective defense against HIV/AIDS. A comprehensive approach must be used to prevent the further spread of HIV infection. Comprehensive HIV prevention strategies include monitoring the epidemic to target prevention and care activities; determining the effectiveness of prevention methods; diffusing proven effective interventions; implementing and evaluating prevention efforts in high-risk communities; encouraging early diagnosis of HIV infection; continuing basic behavioral and prevention research to identify new effective prevention interventions; and fostering linkages between prevention and treatment programs. Many governmental and non-governmental organizations at all levels collaborate to implement, evaluate, disseminate, and further develop and strengthen effective HIV prevention efforts nationwide.

This unique conference covers the entire spectrum of HIV prevention, from science to programs. It convenes HIV prevention experts and advocates from various backgrounds and communities nationwide.

Conference Purpose

Numerous governmental and non-governmental organizations have committed their support to the 2007 National HIV Prevention Conference because it offers opportunities to:

- Share effective prevention approaches and research findings among governmental, community, and academic partners in HIV prevention.
- Strengthen collaborations between program practitioners and researchers in areas including behavioral interventions, biomedical interventions, monitoring the epidemic, implementing rapid and reliable tests for early HIV diagnosis, and improving access to early treatment and prevention services for persons with HIV.

Partner Organizations

The 2007 National HIV Prevention Conference would not have been possible without tremendous support from others. The partner organizations listed below provided invaluable assistance and guidance in making this conference a reality. We wish to extend our gratitude to the following organizations:

- Centers for Disease Control and Prevention (CDC)
- National Institutes of Health (NIH)
- National Minority AIDS Council (NMAC)
- Substance Abuse and Mental Health Services Administration (SAMHSA)
- Office of Women's Health (OWH)

Corporate Sponsors, Nonprofit Sponsors and In-Kind Donations

The conference organizers are grateful for the financial and in-kind support from the following organizations:

- NAMES Project Foundation
- The Henry J. Kaiser Family Foundation
- The Kroger Co.

Conference Co-Chairs, Track Co-Chairs and Liaisons

We are fortunate to have the support and expertise of the Conference Co-Chairs, Track Co-Chairs and Liaisons who planned the program for the 2007 National HIV Prevention Conference. They sorted abstracts, defined tracks, invited speakers, and formed the final conference program.

Conference Co-Chairs

Dr. Kevin A. Fenton
Conference Co-Chair

Dr. Timothy D. Mastro
Conference Co-Chair

Dr. Victoria A. Cargill
Conference Co-Chair

Mr. Robert Kohmescher
Conference Coordinator

Track A: Basic Prevention Research

Co-Chair: Dr. Jacques Normand
National Institute on Drug Abuse
National Institutes of Health

Co-Chair: Dr. John L. Peterson
Department of Psychology
Georgia State University

Liaison: Ms. Susan K. Flinn
teamPSA/Professional and Scientific Associates

Track B: Surveillance and Epidemiology

Co-Chair: Dr. Lucia V. Torian
HIV Surveillance and Epidemiology Program
New York City Department of Health

Co-Chair: Dr. Linda Valleroy
Division of HIV/AIDS Prevention
Centers for Disease Control and Prevention

Liaison: Mr. George J. Ersek
teamPSA/Professional and Scientific Associates

Track C: Advances in HIV Prevention

Co-Chair: Dr. Lisa Metsch
Department of Epidemiology and Public Health
Miller School of Medicine
University of Miami

Co-Chair: Dr. Richard Wolitski
Division of HIV/AIDS Prevention
Centers for Disease Control and Prevention

Liaison: Mr. Bernard Warren
teamPSA/Professional and Scientific Associates

Track D: Program Planning, Implementation,
and Evaluation

Co-Chair: Dr. Andre W. Rawls
Chief, HIV/AIDS Section
Illinois Department of Public Health

Co-Chair: Dr. Francisco Sy
National Center on Minority Health and Health
Disparities
National Institutes of Health

Liaison: Mr. John E. Hannay
teamPSA/Professional and Scientific Associates

Track E: HIV Prevention Policy

Co-Chair: Mr. Humberto Cruz
AIDS Institute
New York State Department of Health

Co-Chair: Dr. Steven Tierney
Deputy Executive Director
San Francisco AIDS Foundation

Liaison: Mr. Lee Henderson
teamPSA/Professional and Scientific Associates

Track F: HIV Prevention and Treatment Interface

Co-Chair: Dr. Laura Cheever
Deputy Associate Administrator, HIV/AIDS Bureau
Health Resources and Services Administration

Co-Chair: Dr. Donna Futterman
Director, Adolescent AIDS Project
Montefiore Medical Center

Liaison: Ms. Anushka Andino
teamPSA/Professional and Scientific Associates

Track G: Program Collaboration and
Service Integration

Co-Chair: Ms. Evelyn Foust
HIV/STD Prevention and Care Branch
North Carolina Division of Public Health

Co-Chair: Dr. John Ward
Director, Division of Viral Hepatitis
Centers for Disease Control and Prevention

Liaison: Ms. Paula Jones
teamPSA/Professional and Scientific Associates

Conference Planning Committee

Many people worked to make the 2007 National HIV Prevention Conference a reality. The contributions of numerous individuals were essential in preparing for this year's conference. We wish to thank all of those who took part in the effort.

Planning Committee At Large

Ms. Elizabeth Amaya-Fernandez
National Latina Health Network

Ms. Frances E. Ashe-Goins
DHHS-Office on Women's Health

Mr. Cornelius Baker
National Black Gay Men's Advocacy Coalition

Mr. Christopher Bates
Office of HIV/AIDS Policy, OPHS, DHHS

Ms. Nanette Benbow
Chicago Department of Public Health

Dr. Gail Bolan
California State Department of Health Services

Dr. Loida Bonney
Brown University

Dr. Joanna Buffington
Centers for Disease Control and Prevention

Mr. Alfonso Carlon
Center for Health Training

Dr. Laura W. Cheever
HIV/AIDS Bureau, HRSA

Ms. Valerie Curry
Centers for Disease Control and Prevention

Ms. Makeba D'Abreu
Balm in Gilead

Dr. Dennis DeLeon
Latino Commission on AIDS

Dr. Don C. Des Jarlais
Edmond de Rothschild Foundation
Chem. Dependency Institute, Beth Israel
Medical Center

Ms. Kimberley A. Dobson
Georgia Department of Human Resources

Ms. Jessica Gardom
Centers for Disease Control and Prevention

Dr. Scott Giberson
Indian Health Service, DHHS

Dr. Mary Gwadz
National Development and Research Institutes, Inc.

Dr. Sharon Hudson
Health Research Association

Ms. Jennifer Kates
Kaiser Family Foundation

Mr. David Kern
National Association of State and Territorial
AIDS Directors

Ms. Circe Gray Le Compte
National Minority AIDS Council

Ms. ManChui Leung
Asian and Pacific Islander American Health Forum

Ms. Deborah Levine
National Black Leadership Commission on
AIDS, Inc.

Dr. Marguerita Lightfoot
David Geffen School of Medicine, UCLA

Ms. Kali Lindsey
National Association of People Living with AIDS

Dr. Judith Lipshutz
Centers for Disease Control and Prevention

Ms. Faye Malitz
HIV/AIDS Bureau, HRSA

Ms. Elaine Martin
Virginia Department of Health

Ms. Marlene McNeese-Ward
Houston Department of Health and Human Services

Dr. Jesse Milan, Jr.
Global Health Convergence, Constella Group, LLC

Mr. Israel Nieves-Rivera
San Francisco Department of Public Health

Dr. Mike Pentella
Association of Public Health Laboratories

Ms. Rebecca Ramos
U.S. Mexico Border Health Association

Dr. Monica Ruiz
American Foundation for AIDS Research, AMFAR

Mr. Alberto M. Santana
Miami-Dade County Health Department

Dr. Bhupendra Sheoran
Asian Pacific Islander Wellness Center

Dr. R.J. Simonds
Centers for Disease Control and Prevention

Ms. Phyllis Stoll
Centers for Disease Control and Prevention

Mr. Anthony Tran
Association of Public Health Laboratories

Dr. Howell Wechsler
Centers for Disease Control and Prevention

Ms. Gina Lathan Whitener
Illinois Department of Public Health

Ms. Toni Young
Community Education Group

Abstract Reviewers

More than 750 abstracts were submitted for consideration to be included in the 2007 National HIV Prevention Conference. Each abstract was reviewed by two peer reviewers. We are grateful for the time and effort that the abstract reviewers dedicated to this task.

Sponsored Participants

We are pleased to provide a sponsored participant program for the 2007 National HIV Prevention Conference. The generosity of donors and partner organizations has made this possible. Through the sponsored participant program, we are able to support the registrations, transportation, and lodging of over 218 persons who otherwise would not have been able to attend the conference. Many worked for several months to organize and fund the program, review applications and select scholarship award recipients, and provide the logistical support to those traveling to the conference. We are grateful for the support and leadership of the Sponsored Participant Program Co-Chairs.

Volunteers

We are very fortunate to have over 60 volunteers for the 2007 National HIV Prevention Conference. These are the people who have joined us to work at the conference itself. You'll know them by their nametags with gold ribbons indicating they are "volunteers". You'll find them working behind the registration desk, staffing every conference-sponsored office or lounge, attending every concurrent session, and assisting in the exhibit hall, poster sessions, and the nongovernmental organization (NGO) Village. These are the people with ready smiles asking "How can I help you?" They are talented and enthusiastic and join us here to provide services for you at the conference. From all of us on the conference staff, we extend to these volunteers our deepest appreciation for their efforts!

A Special Note...

My colleagues and I have looked forward for many months to your participation in the 2007 National HIV Prevention Conference. We believe the Conference will challenge you as well as please you with the scope and detail of its program.

Many wonderful people have worked hard and creatively to develop the topics, roundtables, sessions, and papers that have become the fabric of this conference. They also solved the myriad of coordination issues and logistical problems entailed in bringing together thousands of participants. Without their efforts the conference could not occur. You will see many of them during the week wearing a red ribbon on their name tag; they will be available to assist you if you have questions or concerns. I want to give my thanks to them and to list their names below in recognition of their great efforts.

Conference Information

Badges

Official conference badges must be worn at all times to gain and maintain access to the conference venue. Proof of registration and identity will be required to receive your conference badge. A charge may be incurred for replacement badges.

Bag Inserts

The conference organizers have provided partner organizations with the opportunity to disseminate information in the official conference bag. These materials represent only the views of the submitting organizations and are not necessarily those of the other partner organizations, co-sponsors, or donors.

Business Center

The Hyatt Regency Atlanta hotel maintains a Business Center on the Lobby level. The Business Center is open for use from 7:00 a.m. - 7:00 p.m. (Monday-Friday) and is available to conference participants on a fee-for-service basis. The Business Center is not restricted to those registered at the Hyatt Regency Atlanta Hotel. FedEx Kinkos is located inside the Atlanta Marriott Marquis hotel on the Marriott level. FedEx Kinkos is open for service from 3:00 p.m. - 11:00 p.m. (Sunday); 6:30 a.m. - 11:00 p.m. (Monday-Friday); and 9:00 a.m. - 5:00 p.m. (Saturday).

NGO Village

On Monday evening, December 3, the conference will host the NGO Village. The evening will include food, exhibits from NGOs and Community-based organizations, and music. The NGO Village will be

open from 6:00 p.m. to 8:00 p.m. in the International Hall at the Atlanta Marriott Marquis Hotel. The NGO Village section of this book contains a list of participants as of October 9, 2007. A more complete list will be provided at the event.

Conference Materials

Upon presentation of your registration receipt at the conference check-in area, you will receive the conference program book, abstract book, and disc, official badge, and other materials. The program book contains helpful information about the conference venue and lists all conference activities by day, time, event, and location. The abstract book contains over 750 peer-reviewed abstracts by U.S. and international authors. This book organizes the abstract in the order they are presented in the program and also indexes them by presenting author, population, subject category, and presentation day/time.

Online Continuing Education System

The conference is approved for Continuing Medical Education (CME) credits, Continuing Nursing Education (CNE) credits, Continuing Education Units (CEUs), and Certified Health Education Specialist (CHES) contact hours. These credits will be awarded free of charge. This year, Continuing Education credit submissions will be online only. Submissions will be accepted during and after the conference via the Internet. Computers, forms, and instructions will be available during the conference in the Cyber Café/Message Center (Hanover A/B) on the exhibit level of the Hyatt Regency Atlanta Hotel.

Conference Information (Continued)

Conference Webcast and Transcripts

Kaisernetwork.org, a free health policy news and information service of the Kaiser Family Foundation, will provide webcasts and transcripts of all plenary sessions from the conference. For more information visit:

<http://www.kaisernetwork.org/hivprevention2007>

Cultural Events

For generations, music has been an instrumental and leading force behind movements of unity, support and social healing. Therefore, it makes perfect sense that music has been compiled to address and combat a pandemic that affects each and every one of us.

On Sunday, December 2, the Opening Session will feature the Alpha Phi Alpha Fraternity, Inc. and the Clark Atlanta Percussion Drum Line.

- **The Alpha Phi Alpha Fraternity, Inc.** was founded in 1906 at Cornell University in Ithaca, New York with the aims of “Manly deeds, scholarship, and love for all mankind”. The national program “Project Alpha” was launched in 1982 in partnership with the March of Dimes to address the teen pregnancy crisis. This program targets young males and now includes a module on

“Sexually Transmitted Diseases” which addresses the transmission of HIV/AIDS and its impact on the African American Community. Since winning the 2007 National Alpha Phi Alpha Step Competition in Orlando, Florida, the Clark Atlanta Alphas will represent the fraternity today.

- **The Clark Atlanta Percussion Drum Line**, under the direction of Mr. James L. Camp, and Mr. Cecil Houston, is a multifaceted organization that extends beyond its basic performances in many media outlets, such as the 20th Century Fox motion picture Drumline.

On Monday, December 3 [6:00 p.m. – 8:00 p.m.], the NGO Village will feature the Cathay Atlantic Art Ensemble (CAAE); Ballethnic Dance Company; The Plains Men – Native Americans Pan People Steelband; and Giwayen Mata.

- **Cathay Atlantic Art Ensemble (CAAE)** is a non-profit organization with over one hundred members, including Chinese professional musicians and singers, and consists of a Chorus Group and a Dancing Group. The mission of CAAE is to preserve Chinese culture and traditions, to connect and strengthen the Chinese communities, and to promote the dialogues with other local communities through the performances related to Chinese culture.

Conference Information (Continued)

- **Ballethnic (bal-eth-nik) Dance Company** was founded in 1990, by Nena Gilreath and Waverly T. Lucas II, both former members of the Dance Theatre of Harlem and Atlanta Ballet. The organization is comprised of two components, Ballethnic Dance Company and Ballethnic Academy of Dance. The Company is a classically trained, culturally diverse performing company, while the Academy provides professional training for children and adults. Its mission is to involve the community, especially youth and those who are financially disadvantaged. Ballethnic's goal is to inform, educate and entertain through dance.

- **The Plains Men – Native Americans Pan People Steelband** was founded in 1986 by students and faculty in the Atlanta University Center and continues to entertain and educate about the unique art form, pan. The pannists of Pan People are talented musicians from the Caribbean, including Trinidad, Antigua, and the US Virgin Islands and the United States. The band's repertoire includes the traditional music of the islands, calypso, soca and reggae.

- **Giwayen Mata** is the award-winning, soul-stirring, all-sistah, dance, percussion, and vocal ensemble. Their mission is to celebrate the lives of women, and uplift communities, and the planet, while perpetuating the cultures of Afrika and the Afrikan Diaspora through the study, creation, teaching, and presentation

of artistic media including dances, rhythms, songs, poetry, and prose around the world. The term Giwayen Mata translates to "Elephant Women" in the West Afrikan Hausa language. This title is given to women who lead women's organizations.

On Tuesday, December 4 [6:30 p.m.], the conference will feature the stage play **Divine Intervention** written, produced and directed by Dr. Quinn M. Gentry. Dr. Gentry based the play on her research in The Health Intervention Project (HIP) for high risk African American women changing behaviors that increase their chances for being infected with HIV/AIDS. A common theme in all of the women's real life stories is that somewhere in their childhood, either family, church, school, or community failed to intervene at the first signs of trauma and trouble.

On Wednesday, December 5, the Closing Plenary will feature **Enrique Mercado and Orquesta Lyrica**. Orquesta Lyrica has been performing the passionate and vibrant sounds of Latin America in Atlanta and the rest of the Southeast for the last 25 years. During the 80's Orquesta Lyrica provided the exciting music for the annual street parties on Cypress in Midtown and many other popular Atlanta festivals. Orquesta Lyrica's debut CD is named after the first track, "Latino Soy", which translated means, "I am Latin".

Conference Information (Continued)

Daily Update

The conference will supply a Daily Update of changes and corrections to the agenda. The Daily Update will be available at 8:00 a.m. on Monday, Tuesday, and Wednesday at the Conference Registration Desk and the doorways to the plenary sessions. The information posted in the Daily Update will also be on display on the screens in Centennial Ballroom before each Plenary Session. Information for inclusion in the Daily Update must be delivered to the Registration Desk, in writing, by 5:00 p.m. the night before publication. We are unable to post individual or group announcements in this publication and encourage attendees to use the conference Cyber Café/Message Center for this purpose.

Exhibits

The conference Exhibit Hall, located in the Grand Hall on the Exhibit Level of the hotel, features displays by HIV prevention providers and vendors around the country. Please take time during the conference to visit the Exhibit Hall. Hours are 2:00 p.m. to 5:00 p.m. on Sunday; 10:00 a.m. to 5:00 on Monday and Tuesday. For a list of exhibitors, please see the next section of this book.

HIV Prevention Literature Tables

Tables will be available inside the Exhibit Hall for attendees to leave materials that may be of interest to other conference participants. Extra handouts from concurrent sessions will also be available, as long as supplies last. These tables will not be staffed or stocked by conference personnel. All materials must be removed by 5:00 p.m. on Tuesday, December 4, or they will be discarded.

Local Tourism and Services Information

For information on local tourist attractions, dining, and other recreational opportunities, visit the Atlanta Convention and Visitors Bureau's table in the conference registration area, the Hyatt Regency Atlanta or the Atlanta Marriott Marquis hotel's Concierge Desk.

Lounge for Persons Living with HIV/AIDS

A lounge for persons living with HIV/AIDS is located in the Executive Conference Suite 226 of the Hyatt Regency Atlanta hotel. The conference is providing this room as a place to rest and receive local service information. Although medical services cannot be provided by the conference staff, volunteers will be available to give information on local resources for persons living with HIV/AIDS. There is a refrigerator in the lounge for those who need to store medications, etc., during the day at the conference.

Conference Information (Continued)

The hours of the lounge are:

Sunday	12:00 noon to 5:00 p.m.
Monday	7:30 a.m. to 5:00 p.m.
Tuesday	7:30 a.m. to 5:00 p.m.
Wednesday	8:30 a.m. to 12:00 noon

Media Center

The Media Center, located in the **Chicago Room** in the Hyatt Regency Atlanta hotel on the Exhibit level, caters to the needs of journalists covering the conference. Services include computers with Internet access, printers, telephones, fax machines, and interview rooms. The Media Center will be open Sunday from 3:00 p.m. to 6:00 p.m.; Monday and Tuesday from 8:00 a.m. to 7:00 p.m.; and Wednesday from 8:00 a.m. to 12:00 noon. Only accredited media will have access to the Media Center.

Medical Emergencies

For assistance with medical emergencies, dial extension 55 on any Hyatt Regency Atlanta hotel phone or request help from any conference staff personnel (identified by a gold ribbon on their name badge), security personnel, or hotel employee. For more information, see the insert in your conference bag entitled "In Case of an Emergency".

Cyber Café/Message Center

To help with your on-site communication needs, the conference is featuring a conference Cyber Café/Message Center. This easy-to-use system allows conference attendees to send or receive messages. Visit the Cyber Café/Message Center early and stop back often to check your messages.

Poster Sessions

Scientific and programmatic posters will be on display in the Grand Hall (Exhibit area) during the conference. Authors will staff posters in two different sessions:

Monday Poster Session (A) 12:00 noon to 1:30 p.m.

Tuesday Poster Session (B) 12:00 noon to 1:30 p.m.

All poster abstracts are included in the conference abstract book. Please refer to the index to identify when a poster will be presented by an author.

Conference Information (Continued)

Registration

Conference Registration is located outside the Exhibit Hall and will be staffed during the hours posted below. Registration staff will provide the following services: conference materials distribution for all pre-registered attendees, on-site registrants, speakers, moderators, scholarship recipients, and media representatives; lost badge replacement; reservation of rooms for evening special-interest meetings; and directions to conference events.

Registration Desk Hours:

Sunday - 9:00 a.m. - 9:00 p.m.

Monday - 7:00 a.m. - 9:00 p.m.

Tuesday - 7:30 a.m. - 9:00 p.m.

Wednesday - 8:00 a.m. - 12:00 noon

Security

The Hyatt Regency Atlanta, the Atlanta Marriott Marquis and the conference organizers have engaged a full staff of security personnel who will be on duty 24 hours a day throughout the conference. If security services are required, report the need immediately to the Conference Registration Desk, any conference staff person (identified on their name badge), security personnel, or hotel employee, and they will assist you. Additionally, you can also dial extension "55" on any Hyatt Regency Atlanta hotel phone or "0" on any Atlanta Marriott Marquis hotel phone.

on any Atlanta Marriott Marquis hotel phone. The conference organizers and the hotel security staff are working to maintain an orderly atmosphere conducive to learning and sharing.

Conference attendees bringing personal possessions into the conference areas are responsible for their safekeeping. Laptop computers are especially vulnerable to theft and should be kept within the immediate possession of the owner at all times or checked into a safe at the hotel in which you are staying. While all possible preparations have been taken, the possibility of emergencies does exist. In case of an emergency, please comply with the directions of conference staff (identified on name badges) or security personnel. Evacuation routes are posted throughout both hotels and should be consulted by attendees.

No-Smoking Policy

The 2007 National HIV Prevention Conference maintains a no-smoking policy. Smoking is not allowed in any part of the conference including plenary or concurrent sessions, exhibits, receptions, registration, the message center, offices, or any other public areas. In other parts of the hotel, conference attendees should comply with the policies of the Hyatt Regency and the Marriott Marquis hotels.

Conference Information (Continued)

Sponsored Participant Information

Those receiving scholarships from the 2007 National HIV Prevention Conference can receive assistance in travel and lodging at the Conference Registration Desk. We are unable to assist persons receiving scholarships from sources outside of the 2007 National HIV Prevention Conference. Those who received scholarships from other organizations to attend this conference and who require assistance regarding their arrangements should contact the agency awarding the scholarship.

Sign Language Interpreter Services

A certified Sign Language expert will interpret all plenary sessions for the deaf and hearing impaired. Participants requiring this service are encouraged to sit in the front area of the plenary room. Sign language interpretation of concurrent sessions may be available with previous arrangement.

Spanish Language Interpretation

Spanish language interpretation will be provided for the opening and closing sessions and all plenary sessions. Participants requiring this service should visit the Special Situations Booth at the Conference Registration Desk to pick up the interpretation equipment.

Speaker Ready-Room

A ready-room for speakers is located in the Harris Room at the Hyatt Regency Atlanta hotel. An LCD projector and computer will be placed there for use by conference speakers.

Special Interest Meetings

A limited number of meeting rooms will be available to conference participants to use in the evenings for gatherings of special interest groups, ad hoc meetings, caucuses, etc. Sign-up for these rooms is on a first-come-first-served basis, and lists are available at the Conference Registration Desk.

MONDAY, DECEMBER 3 | Roundtable Sessions | 7:30 AM - 8:15 AM

Track A

AR01 – When You're at the Crossroads of Ethnicity, Who's Targeting You?

Session Location: A703 (Marriott Hotel – Atrium level)

Presentation Number: AR01

Presentation Title: When You're at the Crossroads of Ethnicity, Who's Targeting You?

Author(s): Jagadisa-devasri Dacus, LMSW, Harm Reduction Coalition, New York, NY, Miriam Vega, Ph.D, Latino Commission on AIDS, New York, NY.

Track C

CR01 – Healthy Relationships: A Small Group Level Intervention for People Living with HIV/AIDS

Session Location: HANOVER E (Hyatt Hotel – Exhibit level)

Presentation Number: CR01

Presentation Title: Healthy Relationships: A Small Group Level Intervention for People Living with HIV / AIDS

Author(s): Giddens, CE; Few, TE - Cora E. Giddens, Bachelor of Arts - Psychology, Tai E. Few, Masters of Divinity, UT Southwestern Medical Center, Dallas, TX.

Track D

DR01 – Making Youth Street Smart: Adapting Evidence-Based Interventions for At-Risk Youth Populations

Session Location: HANOVER F/G (Hyatt Hotel – Exhibit level)

Presentation Number: DR01

Presentation Title: Making Youth Street Smart: Adapting Evidence-Based Interventions for At-Risk Youth Populations.

Author(s): Shults, K; Walavalkar, I
Medical and Health Research Association, New York, NY

Track D

DR02 – Effective HIV/AIDS Prevention Methods for Young People: What Works?

Session Location: A704 – (Marriott Hotel – Atrium level)

Presentation Number: DR02

Presentation Title: Effective HIV/AIDS Prevention Methods for Young People. What Works?

Author(s): Gua, JB - Africare/Nigeria, Port Harcourt, Nigeria

Roundtable Sessions | 7:30 AM - 8:15 AM (Continued)

Track D

DR03 – Implementing Peer-Based Interventions in Clinic-Based Settings: Lessons from a Multi-Site HIV Prevention with Positive Initiatives

Session Location: A705 – (Marriott Hotel – Atrium level)

Presentation Number: DR03

Presentation Title: Implementing Peer-Based Interventions in Clinic-Based Settings: Lessons from a Multi-Site HIV Prevention with Positive Initiatives

Author(s): Raja, S¹; Teti, M² - ¹ Mount Sinai Hospital, Chicago, IL; ² Drexel University, Philadelphia, PA

Track D

DR04 – Development of HIV Counseling, Testing and Referral (CTR) Data Quality Assurance Standards for CDC-funded Agencies

Session Location: A707 – (Marriott Hotel – Atrium level)

Presentation Number: DR04

Presentation Title: Development of HIV Counseling, Testing and Referral (CTR) Data Quality Assurance Standards for CDC-funded Agencies

Author(s): Jane S. Mezoff, DrPH, Renee Stein, PhD, Denise Duran, MPH - CDC/DHAP, Atlanta, GA, Paul Topete, MPH - Macro International, Atlanta, GA, Gary Uhl, PhD - CDC/DHAP, Atlanta, GA.

Track D

DR10 – Building on Success: Monitoring the Implementation of Healthy Relationships

Session Location: A702 – (Marriott Hotel – Atrium level)

Presentation Number: DR10

Presentation Title: Building on Success: Monitoring the Implementation of Healthy Relationships

Author(s): Freeman, AC; Belzle, TE - Anne C. Freeman, MSPH, Tracee E. Belzle, UT Southwestern Medical Center, Dallas, TX.

Track D

DR24 – HIV Prevention in Workplace Settings

Session Location: A701 – (Marriott Hotel – Atrium level)

Roundtable Sessions | 7:30 AM - 8:15 AM (Continued)

Presentation Number: DR24

Presentation Title: HIV Prevention in Workplace Settings

Author(s): Hall, Millie – United Auto Workers, Detroit, MI

Track D

DR26 – Developing Effective Abstinence-Oriented HIV Prevention Interventions

Session Location: HANOVER D - (Hyatt Hotel – Exhibit level)

Presentation Number: DR26

Presentation Title: Deciding What Makes an HIV Prevention Program Effective: What is Abstinence and Can it Be an Option?

Author(s): Bayer, CR – Center of Excellence for Sexual Health, Morehouse School of Medicine, Atlanta, GA

Track E

ER03 – 46% is Unacceptable: Mobilizing Policy, Program and Research to Address HIV among Black Gay Men

Session Location: A706 - (Marriott Hotel – Atrium level)

Presentation Number: ER03

Presentation Title: 46% is Unacceptable: Mobilizing Policy, Program and Research to Address HIV among Black Gay Men

Author(s): Baker, AC¹; Hopkins, EC² - National Alliance of State and Territorial AIDS Directors, Washington, DC - A. Cornelius Baker, National Black Gay Men's Advocacy Coalition, Washington, DC, Ernest C. Hopkins, San Francisco AIDS Foundation, San Francisco, CA

MONDAY, DECEMBER 3 | Concurrent Sessions | 10:30 AM - 12:00 PM

Track A

A11 – HIV Prevention with the Mentally Ill: Motivation-Skills

Room Location: INMAN – (Hyatt Hotel – Atlanta Conference Center level)

Session Description: Research findings increasingly support the contention that the incidence of HIV infection, sexually transmitted diseases, and sexual and drug use behaviors are high among people with serious mental illness. Given these high prevalence rates, both primary and secondary HIV prevention interventions are clearly indicated. This session describes an effort to reduce the incidence of HIV for people with serious mental illness (SMI) by developing an effective primary and secondary HIV risk reduction intervention that can be easily delivered to this population in the “real world” settings. The session will also describe the importance of consumer involvement in successful efforts of this nature.

Presentation Number: A11 – 1

Presentation Title: HIV Prevention with the Mentally Ill: Motivation-Skills

Author(s): *Brady, S; Berger-Greenstein, J; Rollason-Reese, C*

Boston University School of Medicine/ Boston Medical Center, Boston, MA

Track A

A14 – Aging and HIV Prevention Across the Life Span

Session Location: VANCOUVER/MONTREAL – (Hyatt Hotel – Embassy Hall level)

Session Description: Many studies focus on HIV risks for adolescents and younger populations, yet older individuals – particularly older MSM and African American women – have particular challenges that should be addressed by programs. While older women (especially African American women) are impacted by HIV/AIDS, they may not perceive that they risk infection. This session describes how sexual risk and risk reduction attitudes and behaviors differ across age for African American women and suggests that HIV prevention programs may benefit from targeting older women with information about condom use and HIV risk. The session also examines differences in rates of unprotected assertive intercourse among HIV-positive men over 50 who have sex with women vs. MSM; findings suggest that this group may require targeted prevention messages to further prevent the spread of HIV in the older adult population. In addition, results from a study on substance abuse among older, HIV-positive men suggest the need to develop a dual-intervention that addresses both depressive symptoms and drug use.

Concurrent Sessions | 10:30 AM - 12:00 PM (Continued)

Presentation Number: A14 – 1

Presentation Title: HIV Prevention Across the Life Span: Age and HIV Preventive Attitudes, Behaviors, and Efficacy

Author(s): *Corneille, MA; Fitzgerald, A; Johnson, J*
- Virginia Commonwealth University, Richmond, VA

Presentation Number: A14 – 2

Presentation Title: Sexual Behaviors Among HIV-Positive Men Over 50

Author(s): *Bimbi, DS¹; Tomassilli, J¹; Parsons, JT¹; Karpiak, SE²; Shippy, RA³* - ¹Center for HIV/AIDS Educational Studies and Training (CHEST), Hunter College, City University of NY, New York, NY; ²Center for HIV/AIDS Community Research Initiative of America (ACRIA), New York, NY; ³AIDS Community Research Initiative of America (ACRIA), New York, NY

Presentation Number: A14 – 3

Track G

G16 – CDC's Leadership in the Integration of Prevention Services

Session Location: REGENCY BALLROOM VI – (Hyatt Hotel – Ballroom level)

Session Description: Program Collaboration and Service Integration (PCSI) is a way of managing interconnected health issues, separate programmatic activities, and services to enhance public health impact. PCSI efforts build upon customary linkages and help establish new connections to related services. The goal of PCSI is to provide prevention programs and services that are holistic, science-based, comprehensive, and high quality to those at risk for or those infected with HIV, Viral Hepatitis, STDs or TB. Effective, evidence-based PCSI will remove barriers to, and facilitate the adoption of, more integrated HIV, STD, TB and viral hepatitis prevention service delivery for clients by aligning NCHHSTP activities, systems, and policies. In this symposium, NCHHSTP Leaders will reflect upon their plans in providing national leadership in support of improved collaboration between HIV, viral hepatitis, STD and TB prevention programs and strengthening integration at the client level where and when appropriate.

Presentation Number: G16 – 1

Presentation Title: Program Collaboration and Service Integration: CDC's Leadership Perspectives on Developing and Implementing a New National Priority

Author(s): *Fenton, K; DeLisle, S*
Centers for Disease Control and Prevention, Atlanta, GA

MONDAY, DECEMBER 3 | Concurrent Sessions | 1:30 PM - 3:00 PM

Track A

A03 – **Racial and Ethnic Disparities in HIV Infection: Social and Contextual Influences**

Session Location: COURTLAND - (Hyatt Hotel – Atlanta Conference Center level)

Session Description: This session explores the racial disparity in HIV prevalence between Black and White MSM in the United States. The session describes a meta-analysis of quantitative studies of MSM and compared HIV risks between these two groups; findings suggest that behavioral risk factors for HIV infection do not explain elevated rates in Black MSM. Future research should focus on the contribution of factors other than individual risks to explain racial disparities in HIV infection rates. The session will also describe focus group discussions and individual qualitative interviews with MSM of color in Los Angeles. Findings indicate that Internet ads used by MSM to find sexual partners explicitly emphasize race/ethnicity as a criterion for sexual partner selection — raising concerns about self-perceptions of MSM of color, power dynamics within individual “hook-ups”, and sexual behavior choices. The session also describes a study to examine risky sexual behavior among African-American MSM and assess moderating effects of socio-demographic, socio-contextual, and health-related variables.

Presentation Number: A03 – 1

Presentation Title: Black-White Disparities in HIV Infection Among Men Who Have Sex with Men: A Meta-Analytic Examination of HIV Risk Behaviors

Author(s): *Millett, G¹; Flores, S¹; Peterson, J²; Bakeman, R² – ¹CDC, Atlanta, GA; ²Georgia State University, Atlanta, GA*

B19 – STI/HIV Epidemiologic Interactions

Session Location: REGENCY BALLROOM VI – (Hyatt Hotel – Ballroom level)

Session Description: This session will examine the interactions between HIV and specific STIs with particular attention to epidemiologic context and population subgroup. Other topics included in this session are differentiating among phases of HIV epidemics at the population level, discussing the natural history of HIV infection at the individual level, and also discussing programmatic implications of scientific findings.

Presentation Number: B19 – 1

Presentation Title: HIV Epidemic Phases and STD/HIV Interactions

Author(s): Wasserheit, J, MD, MPH

Presentation Number: B19 – 2

Presentation Title: HSV and HIV: The Continuing Saga

Author(s): Gottlieb, S, MD, MSPH

Presentation Number: B19 – 3

Presentation Title: Syphilis and HIV: Mutual Effects

Author(s): Beltrami, J, MD

Presentation Number: B19 – 4

Presentation Title: Gonococcal and Chlamydial Infections and HIV: Relative Importance

Author(s): Kent, C, PhD

Track C

C03 – Behavioral Interventions for Women, Heterosexual Men, and Couples

Session Location: CAIRO – (Hyatt Hotel – Embassy Hall level)

Concurrent Sessions | 1:30 PM - 3:00 PM (Continued)

Session Description: A discussion on the efficacy of behavioral interventions in reducing HIV risk behavior and STD incidents among African American women.

Presentation Number: C03 – 1

Presentation Title: The Efficacy of Behavioral Interventions in Reducing HIV Risk Sex Behaviors and Incident STD Among African-American Women in the U.S.: A Meta-analysis

Author(s): *Crepaz, N; Aupont, LW; Jacobs, ED; Jones, P; Kay, L; Mizuno, Y; O'Leary, A;* for HIV/AIDS Prevention Research Synthesis (PRS) Team, CDC, Atlanta, GA

Presentation Number: C03 – 2

Presentation Title: Results of an Effectiveness Trial to Evaluate a Replication of the VOICES/VOCES HIV Prevention Intervention

Author(s): *Neumann, MS¹; O'Donnell, L²; Schillinger, J^{1,3}; San Doval, A²; Blank, S^{1,3}; O'Donnell, C²*
¹Centers for Disease Control and Prevention, Atlanta, GA; ²Education Development Center, Inc., Newton, MA; ³Bureau of STD, NYC Department of Health and Mental Hygiene, New York, NY

Presentation Number: C03 – 3

Presentation Title: HIV Prevention Efficacy in Inner City Women at Risk or Living with HIV: The Use of the Film Women's Voices Women's Lives© on Safe Sex Behaviors, Intentions, and Silencing the Self

Author(s): *DeMarco, RF*
Boston College, Chestnut Hill, MA

Presentation Number: C03 – 4

Presentation Title: Couple-Focused HIV Prevention Interventions: A Systematic Review, 1988-2006

Author(s): *Kay, LS; Jacobs, ED; Crepaz, N; Charania, MR;* for the HIV/AIDS Prevention Research Synthesis

(PRS) Team, Centers for Disease Control & Prevention, Atlanta, GA

Track C

C06 – Lessons Learned from CDC's Advancing HIV Prevention Initiative

Session Location: HANOVER F/G – (Hyatt Hotel – Exhibit level)

Session Description: This session will address lessons learned from the CDC's Advancing HIV Prevention Initiative in reducing barriers to early diagnosis and care for HIV infection.

Presentation Number: C06 – 1

Presentation Title: Reducing Barriers to Early Diagnosis of and Care for HIV Infection: Lessons Learned from the Advancing HIV Prevention (AHP) Demonstration Projects, 2003-2007

Concurrent Sessions | 1:30 PM - 3:00 PM (Continued)

Author(s): *Heffelfinger, JD; Begley, E; Boyett, B; Gardner, L; Kimbrough, L; Margolis, AD; Schulden, J*
CDC, Atlanta, GA

Track D

D02 – HIV Prevention with Unique Populations of Women (2)

Session Location: HANOVER C – (Hyatt Hotel – Exhibit level)

Session Description: HIV infection is still steadily growing among populations of women, including some not commonly thought of as at high risk. This session will look at programmatic approaches that have been taken with older women, Latinas, and women giving birth. Presenters will share findings from such endeavors, and lessons that can be carried into other women-oriented interventions.

Presentation Number: D02 – 1

Presentation Title: Adapting SISTA for Latinas/Hispanic Women

Author(s): *Phields, ME¹; Ricker Kases, M²; Vega, M³; Stallworth, J¹; Anderson, J⁴ – ¹Centers for Disease Control and Prevention, Atlanta, GA; ² Inca Consulting/Community Wellness Project, St. Louis, MO; ³Latino Commission on AIDS, New York, NY; ⁴ American Psychological Association, Washington, DC*

Presentation Number: D02 – 2

Presentation Title: Implementing Rapid HIV Testing in California Labor and Delivery Settings: Using Data to Inform Training and Technical Assistance Interventions (Part 2)

Author(s): *Sarnquist, C¹; Brockmann, K²; Ritieni, A²; Maldonado, Y¹ – ¹Stanford University, Stanford, CA; ²CA DHS, Office of AIDS, Sacramento, CA*

Presentation Title: HIV Wisdom for Older Women: A Prevention Program

Author(s): *Fowler, JP*
SWBldv Family Health Care, Kansas City, KS

Track D

D13 – Using Community Planning to Enhance HIV Prevention

Session Location: INTERNATIONAL BALLROOM SOUTH – (Hyatt Hotel - International level)

Session Description: For more than a dozen years, “working with the community” has been one of the mantras of the HIV prevention field. Panelists in this session will present information on data-driven community planning and evaluation approaches that were used in local communities in the U.S. and discuss how those approaches led to more effective HIV prevention activities.

Concurrent Sessions I 1:30 PM - 3:00 PM (Continued)

Presentation Number: D13 – 1

Presentation Title: HIV Prevention Services in California Are Well Targeted to the Geography of the Epidemic

Author(s): *Shade, SB¹; Steward, WT¹; Myers, JM¹; Dahlgren, CM²; Livermore, S²; Eckert, V²; Krawczyk, CS²; Morin, SF¹* - ¹Center for AIDS Prevention Studies, University of California, San Francisco, CA; ²California Department of Public Health, Sacramento, CA - Starley B. Shade, PhD, MPH, Wayne T. Steward, PhD, MPH, Janet M. Myers, PhD, MPH, Center for AIDS Prevention Studies, University of California, San Francisco, CA, Christine M. Dahlgren, MPH, Stephen F. Morin, PhD, Center for AIDS Prevention Studies, University of California, San Francisco, CA.

Presentation Number: D13 – 2

Presentation Title: An Ecological Approach to Addressing HIV/AIDS in the African American Community

Author(s): *Carr, CJ; Williams, CX; Richlen, WA; McAweeney, MJ; Wagner, JH; Moore, DC* Wright State University, SARDI Program, Dayton, OH

Track F

**F01 – Scaling Up Counseling and Testing:
New Guidelines and Practical
Approaches**

Session Location: VANCOUVER/MONTREAL –
(Hyatt Hotel – Embassy Hall level)

Session Description: In this session, the CDC
guidelines will be reviewed from the perspective
of their practical implementation. Successful case
studies will be presented highlighting a model for
streamlined HIV testing and logistics in medical

facilities entitled ACTS (Advise, Consent, Test,
Support) as well as the steps for implementation
in an Emergency Department.

Presentation Number: F01 – 1

Presentation Title: ACTS for HIV Testing: An
Evidenced Based System to Implement Routine
Testing in Clinical Settings

Author(s): Futerman, D
Adolescent AIDS Program, Montefiore Medical
Center, Bronx, NY

Presentation Number: F01 – 2

Presentation Title: Successful Implementation of
Routine HIV Testing in Emergency Departments

Author(s): White, DA
Alameda County Medical Center, Oakland, CA

Presentation Number: F01 – 3

Presentation Title: Strategies to Implement the
CDC Testing Guidelines

Author(s): Branson, BM
CDC, Atlanta, GA

Concurrent Sessions | 1:30 PM - 3:00 PM (Continued)

Track F

F07 – Provider-Client Interactions

Session Location: HONG KONG - (Hyatt Hotel - Embassy Hall level)

Session Description: The quality of the relationship between a client and their health care provider impacts on the health outcomes in a number of ways. This session will explore several aspects of provider-client interactions, including attitudes and perceptions that impact on patients' willingness to disclose critical information to their providers regarding HIV risk behavior and adherence and the providers' willingness to engage in behavioral interventions.

Presentation Number: F07 – 1

Presentation Title: Disclosure of Sexual Identity to Health Care Providers Among Sexually Active Men Who Have Sex with Men Attending Gay Pride Events in the United States, 2006

Author(s): Jafa-Bhushan, K; Sanchez, TH; Voetsch, AC; Begley, EB; Heffelfinger, JD
Centers for Disease Control and Prevention, Atlanta, GA

Concurrent Sessions | 1:30 PM - 3:00 PM (Continued)

Track G

G01 – Federal Leadership Summit on Service Integration and Program Collaboration

Session Location: SINGAPORE/MANILA -
(Hyatt Hotel - Embassy Hall level)

Session Description: Collaboration between Federal Agencies on HIV prevention is challenging at times, but not impossible – indeed there are many models of best and promising practice in existence. With the continuing evolution of the HIV epidemic in the United States, improved and strengthened collaboration between Federal Agencies is unarguably more important now than ever. However persistent barriers to collaboration include organizational bureaucracy, time limitations, commitment and will. Despite these, there are numerous examples of effective collaboration across Federal agencies in support of HIV prevention. In this NHPC Leadership Symposium, leaders from CDC, HRSA, SAMSHA, HIS and NIH will be brought together to reflect on some of successes in working across organizational boundaries, the current challenges and future directions for strengthening collaboration in support of integrated and holistic HIV prevention activities.

Presentation Number: G01 – 1

Presentation Title: Improving collaboration and integration across Federal Agencies: Perspectives from HHS Leaders

Author(s): *Fenton, K; Bates, C*
Centers for Disease Control and Prevention,
Atlanta, GA

MONDAY, DECEMBER 3 | Concurrent Sessions | 3:30 PM - 5:00 PM

Track A

A05 – Getting “High” on Sex: Sexual- and Drug-Related HIV Risk Among MSM

Session Location: INTERNATIONAL BALLROOM SOUTH – (Hyatt Hotel – International level)

Session Description: Men who have sex with men (MSM) account for 49% of newly diagnosed HIV infections among men in the United States. Prior studies have found links between sexual risk-taking behaviors and use of drugs including methamphetamines, poppers (amyl nitrates), PDE-5 inhibitors such as Viagra, and other substances. This session addresses how drugs used during or before sex, along with high-risk sexual behaviors, affect the risk for acquiring HIV infection among MSM living in Chicago and Los Angeles. The session describes data from formative research for an intervention to reduce or prevent Crystal Meth use among young MSM in Los Angeles, and findings from a study to assess the prevalence and trends in methamphetamine use, sexual activity, and medication adherence in HIV-infected patients in care in San Francisco. HIV programs should strengthen collaboration with STI and drug programs; continue efforts to reduce risky sexual behaviors among MSM; highlight drugs' (particularly methamphetamine's) dangers; implement clinic-based interventions to assess and treat methamphetamine use; and make appropriate mental health referrals to help stem the use of Crystal Meth as self-medication.

Presentation Number: A05 – 1

Presentation Title: Non-Injection Drug Use, High-Risk Sexual Behaviors, and HIV Seroconversion Risk Among Men Who Have Sex with Men in Chicago and Los Angeles

Author(s): *Carey, JW¹; Mejia, R¹; Gelaude, D¹; Bingham, T²; Ciesielski, C³; Herbst, JH¹; Sinunu, M¹; Sey, E²; Prachand, N⁴; Jenkins, RA¹; Stall, R⁵*

Track A

A21 – Youth and HIV: Issues Germane to Disease Prevention and Health Promotion

Session Location: REGENCY BALLROOM VI – (Hyatt Hotel – Ballroom level)

Session Description: This session examines issues of importance to different groups of adolescents: young men who have sex with men; adolescents with substance-abusing parents; parentally HIV-infected youth; and HIV-exposed youth. For all of these groups, little is known about social and/or environmental factors that may be protective against, and those that may exacerbate, higher HIV risk. Findings suggest that all adolescents must receive effective AIDS prevention education. Presenters describe the need for community-level HIV prevention interventions for high risk adolescents which transcend individual approaches and focus on neighborhood/community influences; serostatus disclosure to parentally HIV-infected youth prior to their sexual debut; and targeted prevention messages for these adolescents.

Presentation Number: A21 – 1

Presentation Title: Protective and Risk Factors for HIV-Related Behavior Among Adolescent MSM

Author(s): *Goodenow, C*
Massachusetts Department of Education, Malden, MA

Presentation Number: A21 – 2

Track D

D15 – The Internet as an Arena for HIV Prevention

Session Location: CAIRO – (Hyatt Hotel – Embassy Hall level)

Session Description:

Since the beginning of this decade, a number of HIV providers have discovered that the internet can provide fertile ground for developing and implementing prevention programs.

Concurrent Sessions | 3:30 PM - 5:00 PM (Continued)

This session will review initiatives that have been undertaken in the U.S. both with regard to target populations and service providers. Presenters will also discuss knowledge gained that can be applied to future program development.

Presentation Number: D15 – 1

Presentation Title: CaliforniaMen.net: The Development of an Online Structural HIV Prevention Intervention for MSM

Author(s): Levine, DK¹; Rebchook, G²; Curotto, A²
¹Internet Sexuality Information Services, Inc. (ISIS), Oakland, CA; ²UCSF Center for AIDS Prevention Studies, San Francisco, CA

Presentation Number: D15 – 2

Presentation Title: Targeting At-Risk Men Who Have Sex with Men in Gay Internet Chat Rooms: Establishing a Groundwork for Reaching, Educating, and Empowering Central Ohio's MSM Communities

Author(s): Kerr, ZY
Columbus AIDS Task Force, Columbus, OH

Presentation Number: D15 – 3

Presentation Title: Online Outreach Practices and Methods to Increase Referrals, Testing and Behavior Change

Author(s): Melton, D
Healthy Living Projects, Kansas City, MO

Presentation Number: D15 – 4

Presentation Title: Thrive e-Academy: Online Professional Development for Rhode Island Teachers of Health

Author(s): Sabatini, M
RI Department of Education, Providence, RI

Track E

E02 – Community Mobilization and HIV Prevention

Session Location: HANOVER C – (Hyatt Hotel – Exhibit level)

Session Description: This session will provide some suggested tools that will demonstrate how to mobilize communities around HIV Prevention. The focus will be on mobilization via advocacy, community groups, and community advisory boards and their policies.

Presentation Number: E02 – 1

Presentation Title: Prevention Justice Partnerships: A Model for Community Prevention Advocacy

Concurrent Sessions | 3:30 PM - 5:00 PM (Continued)

Author(s): *Daivds, J³; Howell, S; Chou, L¹; True, R²; Shabazz, W³*

¹CHAMP (Community HIV/AIDS Mobilization Project), New York, NY; ²ACT UP Austin, Austin, TX; ³ACT UP Philadelphia, Philadelphia, PA; ³CHAMP (Community HIV/AIDS Mobilization Project), Providence, RI

Presentation Number: E02 – 2

Presentation Title: HIV/STD Planning and Implementation Through Community Groups

Author(s): *Hall, HH; Agee, G; Wiley, C; Cavazos, J*
Houston Department of Health and Human Services, Houston, TX

Presentation Number: E02 – 3

Presentation Title: Community Advisory Boards and Policy: Success By Process.

Author(s): *Danesi, H¹; Sanabria, V²; Muse, D²; John, M²; Sanchez, H²; Kirk, M²*

¹Prevention Effectiveness on Health and Education (PECHE), Atlanta, GA; ²Capacity Building Team, DC

Track E

E06 – Crystal Methamphetamine and HIV Policy

Session Location: INTERNATIONAL BALLROOM NORTH – (Hyatt Hotel – International level)

Session Description: This session will discuss the negative impact that crystal meth has had on the fight against HIV/AIDS as well as what we have learned from it and how the fight continues.

Presentation Number: E06 – 1

Presentation Title: Getting Clear About Crystal: Unsafe Sex, Crystal Methamphetamine, and the (Dis)Connection Between the Two

Author(s): *Grov, C¹; Parsons, JT^{1,2}; Bimbi, DS^{1,3}*

¹Center for HIV Educational Studies and Training (CHEST), New York, NY; ²Hunter College of the City University of New York, New York, NY; ³The Graduate Center of the City University of New York, New York, NY

Presentation Number: E06 – 2

Presentation Title: Crystal Methamphetamine: Battles Won and Lessons Learned

Concurrent Sessions | 3:30 PM - 5:00 PM (Continued)

Author(s): *Tierney, S* - San Francisco AIDS Foundation, San Francisco, CA

Track E

E11 – Race, Ethnicity, Cultural Competence and HIV Prevention Policy

Session Location: HANOVER F/G – (Hyatt Hotel – Exhibit level)

Session Description: This session will deal with Cultural Competency as it pertains to HIV Prevention in Latino and African American communities.

Presentation Number: E11 – 1

Presentation Title: Latino Outreach in Louisiana Post Katrina: Not the Same Old Story

Author(s): *Scolari, R²; Thomas, F¹; Carrel, J¹; Negron, A¹; Quevedo, E¹*

¹Louisiana Office of Public Health HIV/AIDS Program, New Orleans, LA; ²San Ysidro Health Center, San Diego, CA

Aaron E. Henry Community Health Services Center,
Clarksdale, MS

Presentation Number: F13 – 5

Presentation Title: Challenges and Successes: Real-Time Experience Implementing Routine HIV Screening Within Primary Health Care Centers

Concurrent Sessions | 3:30 PM - 5:00 PM (Continued)

Author(s): *Modica, CA¹; Coleman, JL²*

Cheryl A. Modica, National Association of
Community Health Centers, Inc., Bethesda, MD,
James L. Coleman, Margaret J. Weston Community
Health Centers, Clearwater, SC.

Track G

G03 – Integrating Viral Hepatitis and HIV Prevention Services: The Role of States and Local Jurisdictions

Session Location: INMAN – (Hyatt Hotel –
Atlanta Conference Center level)

Session Description: Integration across viral hepatitis and HIV prevention programs is becoming more common. This session will explore integration at the national, state, and local level. To provide the national perspective, data from the 2006 Hepatitis C Assessment will be discussed. Models for integration utilized in Massachusetts and Florida will be presented along with a community-based program that has integrated hepatitis C testing and education with existing HIV prevention and medical services, resulting in the expansion of case finding opportunities and outreach efforts. A training program that was developed and evaluated by the National Viral Hepatitis Training Center at the New York State Department of Health will also be presented.

Presentation Number: G03 – 1

Presentation Title: Say It Like It's One Word: HIV, STDs and Viral Hepatitis

Author(s): *Cotroneo, RA; Flanigan, C; Gohlke, M; Gieryic, S*

New York State Department of Health, AIDS
Institute, Albany, NY

Presentation Number: G03 – 2

Presentation Title: Strengthening HIV Prevention:
Increasing Impact Through Integration and
Collaboration

Author(s): *Duncan, CM – Denise Duran, MPH, Aaron Aranas, MPH, Kelly Bell, David Hurst, PhD, Renee Stein, PhD, Gary Uhl, PhD – CDC, Atlanta, GA.*

Presentation Number: G03 – 3

Presentation Title: Integration into HIV Programs:
The Role of HIV/Viral Hepatitis/STD

Author(s): *King, H¹; Church, D²; Reichert, P³*

¹CDC, Atlanta, GA; ²Massachusetts Department of
Public Health, Boston, MN; ³Florida Department of
Health, Tallahassee, FL

Concurrent Sessions | 3:30 PM - 5:00 PM (Continued)

Track G

G11 – Integrating HIV Prevention and Other Services for MSM

Session Location: SINGAPORE/MANILA –
(Hyatt Hotel – Embassy Hall level)

Session Description: This session will explore providing integrated services to men who have sex with men (MSM). In recent years, increases in STDs among MSM have been reported in most U.S. cities. STDs are known to facilitate the transmission and acquisition of HIV and the diagnosis of new STDs is increasing among MSM living with HIV. Programs designed to address both HIV and STD prevention using gatekeepers, opinion leaders, social networks, and the Internet will be presented. The role of provider training in such interventions will also be addressed.

Presentation Number: G11 – 1

Presentation Title: STDCheckup.org and STD-Prevent: Implementing Complementary Interventions to Enhance STD Screening Among Men Who Have Sex with Men in California

Author(s): *Hall, CS¹; Gray, T^{1,2}; McElroy, MD¹; Boland, M³; Watson, S¹; Farrell, K²; Pappas, L³; Bolan, GA¹*

¹CA Dept of Health Services -STD Control Branch, Richmond, CA; ²CA Dept of Health Services -

Office of AIDS, Sacramento, CA; ³Better World Advertising, San Francisco, CA

Presentation Title: The NIA Project: A Culturally Competent Model of Integrated Service Provisions for High-Risk HIV Positive and Negative African-Americans

Author(s): *Lockett, G; Underwood, N; Wright, C* - Gloria Lockett, Executive Director, Nyisha Underwood, B.A., Carla Wright, Prevention Case Manager, CAL-PEP, Oakland, CA.

TUESDAY, DECEMBER 4 | Plenary Session | 8:30 AM - 10:00 AM

PL03 – New Innovations in HIV Prevention

Session Location: Centennial Ballroom – (Hyatt Hotel – Ballroom level)

Moderator: Timothy Mastro, M.D., F.A.C.P.
Centers for Disease Control and Prevention
Atlanta, GA

PRESENTERS AND TOPICS

The Internet and HIV Interventions

Sheana Bull, Ph.D.
Department of Health and Behavioral Sciences
University of Colorado at Denver
Denver, CO

Male Circumcision and HIV Prevention

Peter Kilmarx, M.D.
Centers for Disease Control and Prevention
Atlanta, GA

Antiretrovirals and HIV Prevention

Myron Cohen, M.D.
University of North Carolina at Chapel Hill
Chapel Hill, NC

HIV Testing and HIV Prevention

Bernard Branson, M.D.
Centers for Disease Control and Prevention
Atlanta, GA

TUESDAY, DECEMBER 4 | Concurrent Sessions | 10:30 AM - 12:00 PM

Track A

A09 – Economic, Psychosocial and Behavioral Risk Factors of HIV Infection

Room Location: HANOVER E – (Hyatt Hotel – Exhibit level)

Session Description: This session describes an analysis of baseline data from HIV-infected patients at two North Carolina clinics to identify their stressors and coping processes, specifically in relation to gender and race. The most significant stressors were relationships with others, demonstrating the providers' need to acknowledge PLWHA's psychosocial issues. This session describes a study of HIV transmission beliefs and viral load, and the correlation between these beliefs and condom use, among a group of PLWHA. Findings suggest that beliefs about transmission risk are not correlated with condom use and that prevention programs should focus on strategies other than knowledge and beliefs about viral load and HIV transmission to influence sexual risk behaviors. The session also describes the use of social network strategies to identify HIV infection in high-risk communities of color. Findings suggest that network structure can play an important role in HIV transmission in at-risk communities of color, as well as provide opportunities for targeting high-risk individuals. The session

describes an examination of demographic characteristics, HIV-related behavioral risk factors, and perceptions of risk among African American women in Washington (DC), Jackson (MS), and Oakland (CA). Findings indicate that women who reported having sex with someone with a history of incarceration and other risk factors (e.g., IDU) appear to be more aware of their risk for HIV and are screened more often, but report inconsistent condom use.

Presentation Number: A09 – 1

Presentation Title: Understanding the Relationship Between Beliefs About the Risk of HIV Transmission and Reported Condom Use Among People Living with HIV/AIDS (PLWHA)

Author(s): Patel, SN; Golin, CE; Przybyla, S; Grodensky, C; Davis, R
University of North Carolina, Chapel Hill, Chapel Hill, NC

Presentation Number: A09 – 2

Presentation Title: Acknowledging the Role of Stress and Coping for HIV Prevention Programs Targeting PLWHA

Author(s): Davis, R; Golin, C; Patel, S - University of North Carolina at Chapel Hill, Chapel Hill, NC

Concurrent Sessions | 10:30 AM - 12:00 PM (Continued)

Presentation Number: A09 – 3

Presentation Title: Exploring Social Networks in Communities of Color: Associations Among HIV Status, Personal Characteristics, and Network Structure

Author(s): *Fisher, HH; Kimbrough, L; Johnson, W; Dooley, S; Jones, K*
CDC/NCHHSTP/PRB, Atlanta, GA

Presentation Number: A09 – 4

Presentation Title: Assessing Behavioral HIV Risk Factors Among Black Women Who Report Recent Sex Partners with a History of Incarceration: Implications for Targeted HIV Prevention Interventions

Author(s): *Washington, KS* - Community Education Group, Washington, DC

Track A

A15 – Socio-Cultural and Contextual Barriers to HIV Prevention Among African American MSM

Room Location: HANOVER F/G – (Hyatt Hotel – Exhibit level)

Session Description: This session describes a study to quantify the effect of Black MSM on the “down low” as a factor in HIV infection rates in Black women. Findings indicate the prevalent narrative of this as a primary cause of increased HIV transmission to Black women and suggest that research explore other causes of HIV transmission in the Black community. The session also describes an initial formative study to assess the HIV/STI histories and risk behaviors of MSMs in South Carolina. Study participants’ suggested intervention strategies include flexible social marketing approaches; outreach in local social settings; and strategies that transcend county lines. The session will also describe results from semi-structured focus group sessions for Black MSM that elicited descriptions of discrimination, risk of HIV transmission and seroconversion, and methods of coping with oppression. Findings suggest that these men face multiple forms of discrimination and that interventions should acknowledge its impact and discuss methods for coping with discrimination and stigma.

Presentation Number: A15 – 1

Presentation Title: Emerging Perspectives on the “Down Low” from Young Black Men Who Have Sex with Men in the South

Concurrent Sessions | 10:30 AM - 12:00 PM (Continued)

Author(s): *Smith, JC; Fisher-Borne, M; Brown, AL; Leone, PA; Hightow-Weidman, LB - Smith, JC; Fisher-Borne, M; Brown, AL; Leone, PA; Hightow-Weidman, LB*
UNC School of Medicine, Chapel Hill, NC

Presentation Number: A15 – 2

Presentation Title: Living in the South: Health and Sexual Histories of HIV+ and HIV- African-American MSM Living in a Southern State

Author(s): *Gaddist, BW¹; Wright, CS¹; White, J¹; Kettinger, L²; Williams, SP³ - ¹South Carolina HIV/AIDS Council, Columbia, SC; ²South Carolina Department of Health and Environmental Control, Columbia, SC; ³Centers for Disease Control and Prevention, Atlanta, GA*

Presentation Number: A15 – 3

Presentation Title: Multiple Oppressions: A Qualitative Inquiry into Coping Strategies Among Black Men Who Have Sex with Men (BMSM) in NYC

Author(s): *Van Sluytman, LG; Wheeler, DP; Bellinger, Jr., G*
Hunter College School of Social Work, New York, NY

Track A

A24 – Findings From a Multi-Site, Collaborative Study of HIV Risk Among Black and Latino MSM and Implications for Future HIV Interventions

Session Location: REGENCY BALLROOM V – (Hyatt Hotel – Ballroom level)

Session Description: The session will provide an overview of the study and describe how project data contribute to a greater understanding of HIV risk factors among Black and Latino MSM, and can be used to inform effective intervention development. Local experiences implementing the study will be presented, including the process of recruiting hard-to-reach populations. Related topics include the impact of histories of sexual violence among MSM; predictors of HIV status disclosure to sexual partners; experiences of racism and homophobia and their relationship to HIV risk; and a critical assessment of HIV prevention implications for men who identify as “down low”.

Presentation Number: A24 – 1

Presentation Title: Brothers y Hermanos: Findings from a Multi-Site Collaborative Study of HIV Risk Among Black and Latino MSM and Implications for Future HIV Interventions

Author(s): *Millett, G¹; Wheeler, D²; Bingham, T³; Ayala, G⁴; Bond, L⁵; the Brothers y Hermanos*

Concurrent Sessions | 10:30 AM - 12:00 PM (Continued)

Study Group - Greg Millett, CDC, Atlanta, GA, Darrell Wheeler, Hunter College School of Social Work, New York, NY, Trista Bingham, HIV Epidemiology Program, Los Angeles County Department of Public Health, Los Angeles, CA, George Ayala, AIDS Project Los Angeles, Los Angeles, CA, Lisa Bond, Philadelphia Health Management Corporation (PHMC), Philadelphia, PA, the Brothers y Hermanos Study Group

A25 – (MATH Study): Findings from the MATH Study on API MSM

Room Location: CAIRO – (Hyatt Hotel – Embassy Hall level)

Session Description: This session presents findings from the Men of Asia and the Pacific Testing for HIV (MATH) Study, a five-year cross-sectional HIV social epidemiological study of 2,000 API MSM in the San Francisco Bay Area, Los Angeles, New York, Boston, and Philadelphia. Part 1 describes the MATH Study consortium model and its strong framework from which CBO's can adopt and adapt to new science quickly and effectively impact health services in their communities. Part 2 describes the study's efforts to assess the feasibility of reaching a diverse sample using respondent-driven sampling (RDS); and obtaining quality research data using a community-academic consortium model. Part 3 describes use and imple-

mentation of evaluation in the context of the pilot phase of a research project for API MSM, and illustrates the successes and challenges of the consortium model in research development and implementation.

Presentation Number: A25 – 1

Presentation Title: Part 1 of 3 (MATH) Study: Capacity Development for a Community-Academic Consortium Study of HIV Infection Among Asian and Pacific Islander Men Who Have Sex with Men in Seven U.S. Cities

Author(s): *Alvez, CM¹; Do, TD²; Bangi, A²; Wong, F³ - ¹Asian and Pacific Islander American Health Forum, San Francisco, CA; ²University of California San Francisco, San Francisco, CA; ³Georgetown University, Washington, DC*

Presentation Number: A25 – 2

Presentation Title: Part 2 of 3 (MATH Study): Pilot Findings from a Collaborative Study of HIV Among Asian and Pacific Islander MSM

Author(s): *Alvez, C²; Do, TD¹; Bangi, A¹; Wong, F³; the MATH Study Consortium*
¹University of California, San Francisco, San Francisco, CA; ²Asian and Pacific Islander American Health Forum, San Francisco, CA; ³Georgetown University, Washington, DC, DC

Concurrent Sessions | 10:30 AM - 12:00 PM (Continued)

Presentation Number: A25 – 3

Presentation Title: Part 3 of 3 (MATH Study):
Evaluating the Effectiveness of an Academic-
Community Research Consortium Model Used in a
Pilot Study of HIV Among Asian and Pacific
Islander MSM

Author(s): Alvez, C²; Bangi, AK¹; Do, T¹; Wong, F³
¹University of California, San Francisco, San
Francisco, CA; ²Asian and Pacific Islander American
Health Forum, San Francisco, CA; ³Georgetown
University, Washington, DC, DC

Track B

B02 – Internet and Other Surveillance Methods

Room Location: A705 – (Marriott Hotel –
Atrium level)

Session Description: This session will present the
results of various methods that include the use of
websites that allowed anonymous participation in
surveys, respondent driven sampling and direct
marketing. The surveys examined a variety of risk
factors for men who have sex with men.

Presentation Number: B02 – 1

Presentation Title: Online Recruitment and Survey
of MSM: A Comparison of Three Methods

Author(s): Denson, DJ¹; Lansky, A²; Sanchez, T² -
¹Centers for Disease Control and
Prevention/Northrop Grumman, Inc., Atlanta, GA;
²Centers for Disease Control and Prevention,
Atlanta, GA

Presentation Number: B02 – 2

Presentation Title: HIV Risk Among MSM with
New Male Partners Varies By Type of Online
Recruitment Site

Author(s): Hirshfield, S¹; Chiasson, M¹;
Humberstone, M¹; Remien, RH²
¹Medical and Health Research Association of New
York City, Inc., New York, NY; ²HIV Center for
Clinical and Behavioral Studies, New York State
Psychiatric Institute and Columbia University, New
York, NY

Track G

G02 – Rapid HIV/STD Testing in Diverse Settings

Room Location: SINGAPORE/MANILA – (Hyatt Hotel – Embassy Hall level)

Session Description: Rapid HIV testing provides the opportunity to quickly determine an individual's HIV status. This has allowed for the integration of HIV testing into settings where it was previously unavailable or ineffective due to low return rates and the difficulty of following up with clients. This session will explore the integration of rapid HIV testing within clinical, correctional, and STD service settings to reach high-risk individuals.

Presentation Number: G02 – 1

Presentation Title: The Development of an HIV Rapid Testing Program in Philadelphia Jail

Author(s): *Spencer, SB¹; Johnson, C²; Cella, J²* - Susan B. Spencer, MSW, LCSW, Susan B. Spencer, Inc, Wyndmoor, PA, Caroline Johnson, MD, John Cella, MPA, Philadelphia Department of Public Health, Philadelphia, PA.

G08 – Enhanced Services for Pregnant Women: Integrating HIV Prevention

Room Location: INMAN – (Hyatt Hotel – Atlanta Conference Center level)

Session Description: This session will explore the integration of HIV prevention and other services into service targeting pregnant women. In particular, the session will explore two models for integrating HIV prevention services into service targeting pregnant substance using women since they are at very high risk of transmitting HIV to their unborn child. In addition, a model for implementing a single session, group level HIV prevention intervention in a reproductive health care setting will be presented. A training program targeting the Black Infant Health (infant mortality) program directors and Maternal, Child, and Adolescent Health directors focusing on the provision of integrative services will also be highlighted.

Presentation Number: G08 – 1

Presentation Title: Adaptations from Recovering Voices: Stage I of an HIV Prevention Study for Pregnant, African-American Substance Using Women

TUESDAY, DECEMBER 4 | Concurrent Sessions | 1:30 PM - 3:00 PM

Track A

A02 – What's Race Got To Do with It: The Impact of Culture on HIV Risk in African American Populations

Room Location: SINGAPORE/MANILA – (Hyatt Hotel – Embassy Hall level)

Session Description: This session includes presentations on the relationships between social, cultural, and individual factors and African Americans' risks for HIV infection. The session describes a brief, clinic-based, safer sex intervention targeted at young African American men who have been newly diagnosed with an STD. It also presents research on the association between sexual violence and high-risk sexual behaviors, and the prevalence of these behaviors by relationship to perpetrator among women in Baltimore (MD). It also explores midlife African American women's risk taking and protective practices related to HIV – including views about religious or spiritual beliefs' protective influences, and the role of faith-based organizations in HIV prevention.

Presentation Number: A02 – 1

Presentation Title: A Brief, Clinic-Based, Safer Sex Intervention for African American Men At-Risk of HIV Acquisition: A Randomized Controlled Trial

State University of NY at Binghamton, Binghamton, NY

Concurrent Sessions | 1:30 PM - 3:00 PM (Continued)

Track A

A04 – HIV Risk Among Injection Drug Users: The Role of Partnerships and Psychosocial Factors

Room Location: HANOVER E – (Hyatt Hotel – Exhibit level)

Session Description: Injection drug use (IDU) risk behaviors play a significant role in infections among drug users themselves, as well as among IDUs' sex partners. This session describes a secondary data analysis of data from the Las Angeles Drug Users' Intervention Trial (DUIT) to explore examine associations between those in injection-discordant and concordant partnerships engaging in sexual risk behavior. Findings suggest that programs to reduce risk behaviors among IDUs should distinguish between those with IDU partners vs. non-IDU partners. In addition, the session describes an analysis of qualitative information from DUIT about IDUs' risk behaviors and relationships with sexual partners. Findings indicate that young IDUs engage in related injection drug use and sexual risk behaviors that place them at-risk for both HCV and HIV — the interconnection of these behaviors requires a targeted comprehensive approach for prevention. The session also describes results from a study assessing HIV infection among IUDs in Washington DC and piloting a rapid HIV testing project for that population. The prevalence of HIV disease among the target group suggests that more targeted HIV testing and counseling efforts be conducted

towards these IDUs. The session also describes a randomized controlled trial of an intervention designed to reduce sexual and drug risk and increase utilization of health care and adherence to HIV medications among HIV-positive IDUs in Baltimore, Miami, New York City, and San Francisco. The number of psychosocial problems reported by HIV-positive IDUs was related to sexual risk, injection risk, poor utilization of health care, and non-adherence to HIV medications and suggests the importance of addressing broader health issues among this population.

Track A

A18 – Part 3 of 4: Community Collaborative Prevention Intervention Research Among MSM at High Risk for HIV Infection

Room Location: VANCOUVER/MONTREAL – (Hyatt Hotel – Embassy Hall level)

Session Description: MSM of color who do not identify as gay and those who use methamphetamine are at particularly high risk for infection. This session describes research to identify the most effective ways to prevent HIV among these sub-populations. Part 1 describes nine community collaborative research projects in California to develop innovative interventions for MSM in high risk sub-groups. Funded projects included three targeting African American Non-Gay Identified (NGI) MSM; two targeting Latino NGI-MSM; and four targeting methamphetamine-using MSM. Part 2 describes a qualitative study on internalized homophobia and secrecy about sexual orientation among Black men who have sex with men and women (MSMW), and their potential associations with psychological well-being and impacts on program design. Part 3 describes development and evaluation of an intervention designed for Latino gay men who are concerned partners and friends of Crystal Meth users to help them engage CM-users in supportive interactions and reduce the isolation of CM-users and its related negative consequences, including the risk for HIV. Part 4 describes preliminary findings from a gay-specific intervention for reducing methamphetamine use and HIV sexual risk behaviors using evidence-based interventions, which indicate that culturally tailored methamphetamine abuse treatment reduces both drug use and sexual risk behaviors among gay and bisexual men, thus functioning as effective HIV prevention among this high-risk population.

Concurrent Sessions | 1:30 PM - 3:00 PM (Continued)

Presentation Number: A18 – 1

B06 – MSM HIV and STD Co-Morbidity

Room Location: HANOVER F/G – (Hyatt Hotel – Exhibit level)

Session Description: This session will examine the results of data collected in a variety of surveys regarding correlations between the prevalence of HIV and STD infection. The surveys include results from a low-prevalence state (Utah), routine clinical encounters by MSM in STD clinics in 5 US cities between 2002 and 2005 and a survey of MSM conducted in Washington D.C.

Concurrent Sessions | 1:30 PM - 3:00 PM (Continued)

Presentation Number: B06 – 1

Presentation Title: Trends in HIV Testing Among MSM in U.S. STD Clinics and the Association of Longer Inter-Test Interval with Newly Diagnosed HIV

Author(s): *Helms, DJ¹; Weinstock, HS¹; Cherneskie, T²; Furness, BW³; Kent, CK⁴; Rietmeijer, CA⁵; Golden, MR⁶, ¹ - CDC, Atlanta, GA; ²Chelsea STD Clinic, NY City Department of Health, New York, NY; ³ CDC and the Washington DC STD Control Program, Atlanta, Washington DC, GA; ⁴ San Francisco Dept of Public Health, San Francisco, CA; ⁵Denver Public Health Department, Denver, CO; ⁶ Department of Public Health-Seattle and King County, Seattle, WA*

C19 – Interventions with Latinos/Latinas

Room Location: INTERNATIONAL BALLROOM SOUTH - (Hyatt Hotel - International level)

Session Description: The session will address effective intervention HIV prevention models among Latinos/Latinas.

Presentation Number: C19 – 1

Presentation Title: Interventions with Latinos/Latinas

Author(s): Villarruel, A; Fernandez, I; Prado, G; Flores, S

Track D

D05 – Innovative HIV Prevention Program Evaluations for African-American Populations

Room Location: REGENCY BALLROOM VI – (Hyatt Hotel – Ballroom level)

Session Description: Ethnic minorities continue to be the cultural groups in the U.S. that have been most disproportionately affected by the HIV epidemic. While some effective interventions for this group have been disseminated, they have had their limitations. This session will share strategies undertaken, results, and lessons learned from CDC's Evaluation of Innovative HIV Prevention Interventions for High-Risk Minority Populations (or "Innovative Interventions") project. An emphasis will be on evaluation strategies planned and conducted. Collaborators in the project were People of Color in Crisis, Inc. (Brooklyn, NY), the Philadelphia Health Management Corporation, and Sister Love (Atlanta, GA).

Concurrent Sessions | 1:30 PM - 3:00 PM (Continued)

Presentation Number: D05 – 1

Presentation Title: [Innovative Intervention Project Group Oral Session, Part 1 of 4:] Building Capacity of Community-Based Organizations (CBOs) to Evaluate Their Locally-Developed HIV Prevention Interventions for High-Risk Minority Populations: Lessons Learned from the “Innovative Interventions” Project

Track G

G05 – Innovative Integration Strategies in Outreach Settings

Room Location: BAKER – (Hyatt Hotel – Atlanta Conference Center level)

Concurrent Sessions | 1:30 PM - 3:00 PM (Continued)

Session Description: The integration of services can be an effective strategy for providing necessary services to at-risk populations. This session will explore models for integrating HIV prevention and other services for incarcerated sex offender and within agencies serving the survivors of domestic violence. An outreach program designed to address a broad range of issues within a community, including HIV, will also be presented. The session will also present a program that provides rapid HIV testing to individuals diagnosed with another STD. This program also has integrated rapid HIV testing into partner notification services.

Presentation Number: G05 – 1

Presentation Title: HIV/HEP C Testing/Prevention for Serious, Violent and Sex Offenders in a Prison Setting

Author(s): *Ohira, S*

G15 – Integrative Strategies to Confront Crystal Meth-Related Risk Behaviors

Room Location: REGENCY BALLROOM V –
(Hyatt Hotel – Ballroom level)

Concurrent Sessions | 1:30 PM - 3:00 PM (Continued)

Session Description: Methamphetamine (crystal meth) use is associated with sexual risk behavior for HIV/STD transmission, particularly among men who have sex with men (MSM) but also among other populations. This session will explore strategies for addressing high-risk behaviors related to the use of meth including: measuring meth use by clients and the characteristics of users; formation of a citywide taskforce and the implementation of multiple interventions; use of mass media and social marketing techniques; and efforts to reach people of color CDC-supported activities including funded programs, research, and policy endeavors will also be discussed.

Presentation Number: G15 – 1

Presentation Title: Crystal It's Not Just for White Boys Anymore: The Proliferation of Crystal Methamphetamine into the MSM, Black and Hispanic Communities in Miami and Miami Beach

Author(s): *Barros, G; Floyd, DS* - South Beach AIDS Project, Miami Beach, FL

Presentation Number: G15 – 2

Presentation Title: Methamphetamine Use and HIV/STD Risk at Los Angeles Gay and Lesbian Center Sexual Health Program

Author(s): *Stallworth, P¹; Hall, M¹; Horton, T¹; Rudy, E²; Tilekar, S¹*

¹LA Gay and Lesbian Center, Los Angeles, CA;

²Los Angeles County Health Department STD Program, Los Angeles, CA

Presentation Number: G15 – 3

Presentation Title: Crystal Methamphetamine: Battles Won and Lessons Learned

Author(s): *Tierney, S* - San Francisco AIDS Foundation, San Francisco, CA

Presentation Number: G15 – 4

Presentation Title: CDC-Related Activities Addressing Meth Use and Sexual Risk Reduction

Author(s): *Mansergh, G, PhD*, - CDC, Atlanta, GA, SAMHSA representative, SAMHSA, Washington, DC.

TUESDAY, DECEMBER 4 | Concurrent Sessions | 3:30 PM - 5:00 PM

Track A

A06 – Intertwining Paths to HIV Infection: Substance Abuse and Risky Sexual Activity

Room Location: CAIRO – (Hyatt Hotel –
Embassy Hall level)

Session Description: Substance abuse is linked to HIV infection due to its relationship with sexual and non-sexual risk behaviors. The session explores the lifetime incidence and risk factors for HIV, hepatitis B and C (HBV, HCV) infection among young, non-injecting heroin users in Chicago. Findings indicate that this population has substantial levels of HIV, HBV, and HCV infection and suggest that interventions targeted at this population should focus on preventing unsafe sex and the initiation/resumption of injecting. The session also explores non-prescribed use of sexual performance drugs (Phosphodiesterase type-5 inhibitors) among HIV-positive men. Findings suggest that non-prescribed use of PDE-5 is associated with numerous additional sexual and substance use risk behaviors and that prevention messages should be targeted to specific at-risk groups of HIV-infected men.

Presentation Number: A06 – 1

Presentation Title: Lifetime Correlates of Prevalent HIV, Hepatitis B, and Hepatitis C Infections Among Young Non-Injecting Heroin Users in Chicago

Author(s): *Broz, D; Ouellet, LJ*

University of Illinois at Chicago, School of Public Health, Chicago, IL

Presentation Number: A06 – 2

Presentation Title: Non-Prescribed Use of Viagra and Other PDE-5 Inhibitors and HIV-Related Behavioral Risks Among HIV-Positive Men

Track A

A10 – Mental Illness/Mental Health and HIV Risk: Physical/Sexual Abuse, Drug Use, and Depression

Room Location: HANOVER D – (Hyatt Hotel – Exhibit level)

Session Description: This study investigates drug and sex HIV transmission risk factors associated with poorer mental health in a population of homeless or unstably housed PLWHA in Baltimore (MD), Chicago (IL), and Los Angeles (CA). Findings indicate that many experience poor mental health – itself associated with illegal drug use, alcohol use, and unprotected sex – and that this population is in need of services to address both mental health and HIV risk behaviors associated with poorer mental health. The session also describes an effort to document the prevalence and risks associated with physical and sexual abuse among HIV-positive homeless or unstably housed adults. Findings indicate that those who have experienced interpersonal abuse are more likely to report high-risk sexual practices – interventions are needed targeted at homeless and unstably housed PLWHA who have experienced abuse in order to reduce the risk of HIV transmission to partners. The session also describes a study to assess characteristics associated with depressive symptoms in an on-line sample of MSM. Findings indicate that being HIV-positive, a person of color, and having low income and education are associated with vulnerability for depression.

A16 – Impact of Sexual Relationships on HIV Risk Among MSM

Room Location: A706 – (Marriott Hotel –
Atrium level)

Session Description: More AIDS cases are reported among men who have sex with men (MSM) than in any other group. Young MSM report riskier sexual behaviors than older men, and young MSM of color are among the most severely impacted by this disease. The session describes a study of sexually experienced, young MSM who halt sexual activity to reduce their risk for HIV and other diseases. Findings suggest that these men are more connected to ethnic communities (and to the importance of their ethnic identity than sexually active, young MSM) and that research should gather information about ethnic/gay identity to develop interventions to reduce sexual activity through enhancing community connections and sense of self. The session also describes an examination of the agreements that MSM couples make about sex outside the relationship to determine the relationship variables that are associated with sexual HIV risk. Findings indicate couples that rate their agreement quality and relationship satisfaction higher engage in less unprotected anal intercourse with sero-discordant and unknown status external partners. The session also describes an examination of the relationship between HIV acquisition and sexual acts with

Concurrent Sessions | 3:30 PM - 5:00 PM (Continued)

various partner types among MSM. Findings indicate that unprotected receptive positioning – and engaging in sex with multiple HIV-status partner types in either position – is most hazardous for HIV acquisition, an important component of prevention counseling efforts directed at MSM.

A17 – HIV Prevention Approaches for Latino/Hispanic and African American MSM

Room Location: INTERNATIONAL BALLROOM SOUTH – (Hyatt Hotel – International Ballroom level)

Session Description: This session describes multiple efforts to provide HIV prevention programming to Latino/Hispanic and African American MSMs. Part 1 details a qualitative study to assess factors influencing risk behavior among heterosexually-identified African American men in prison – findings will be used to tailor HIV prevention services for men returning to the community. Part 2 describes strategies Latino men use to disclose their sexual interest in other men, for partner selection, and for social acceptance and support – findings will be used to aid recruitment of participants for an intervention with Latino MSM who do not identify as gay. Part 3 describes a community-collaborative research study that developed and pilot-tested an HIV prevention

Concurrent Sessions | 3:30 PM - 5:00 PM (Continued)

intervention program tailored to the needs of African American heterosexually-identified MSMs. Part 4 describes a social marketing intervention designed to reach heterosexually-identified Latino male MSMs, which was implemented in North San Diego County (CA) over a 9-month period.

A20 – Ethnographic Research Methods in Formative or Basic Prevention

Room Location: BAKER – (Hyatt Hotel – Atlanta Conference Center level)

Session Description: The session describes qualitative research on the role of heterosexually-identified MSM in HIV transmission, the social and sexual meanings of sexual behaviors, and the HIV risks of these sexual encounters. Findings indicate

Concurrent Sessions | 3:30 PM - 5:00 PM (Continued)

that heterosexually identified MSM are at some risk for HIV, as are their sexual partners, and highlight their potential role in the diffusion of HIV/STIs. The session also describes implementation of the Youth Action Research model, an innovative community level approach was developed to address HIV prevention needs by training young MSM of color in ethnographic research activities. Findings indicate that the training facilitated participation in survey activities and acquisition of HIV prevention information and services. The session describes a qualitative study to examine factors related to HIV management among HIV-positive youth. Findings will be used to build modules for a tailored, "virtual world" computerized application to enhance self-management skills among HIV-positive youth. The session describes a study to create methods for developing grounded hypotheses about how IDUs in New York City have avoided infection with HIV and Hepatitis C.

G07 – Integrating HIV Prevention into Services for Youth

Room Location: SINGAPORE/MANILA – (Hyatt Hotel – Embassy Hall level)

Session Description: This session will explore various models for integrating HIV prevention services into programs targeting at-risk youth. At-risk young people are often confronted by multiple issues and HIV prevention may not be a priority. Linking services can provide access to this hard-to-reach population. Models discussed will include: HIV and substance abuse prevention lessons targeting African-American youth in alternative high schools, group homes, and after school programs; HIV and substance abuse prevention programs targeting minority youth including Cambodians, Haitians, and Latinos, as well as other at-risk youth; and an HIV prevention and delinquency prevention program for gang-involved girls.

Concurrent Sessions | 3:30 PM - 5:00 PM (Continued)

Presentation Number: G07 – 1

Presentation Title: Lessons Learned from Three Community-Based Organizations in Their Implementation of Evidence-Based HIV and Substance Abuse Prevention Programs with Minority Youth and Young Adults

G12 – Integrative Partner Notification Services

Room Location: DUNWOODY – (Hyatt Hotel – Atlanta Conference Center level)

Session Description: Partner notification is an important HIV prevention tool. The integration of partner into HIV prevention services will be explored during this session. Programmatic issues address will include: developing capacity for programs to conduct field investigation, notification of exposure to HIV, and referral of exposed partners to HIV testing and/or care, and use of the Internet in partner notification. The session will also address training of staff on elicitation and the impact of social norms and cultural barriers on partner notification efforts.

Wednesday's Program

SCHEDULE-AT-A-GLANCE WEDNESDAY, DECEMBER 5

Wednesday, December 5	Events	Location
8:00 a.m. - 12:00 noon	Registration	Grand Hall Foyer
8:00 a.m. - 9:30 a.m.	Concurrent Sessions	See Program Section
10:00 a.m. - 11:30 a.m.	Plenary Session	Centennial Ballroom 
11:30 a.m. - 12:00 p.m.	Closing Session	Centennial Ballroom 

Note:  indicates the session will be webcast by the Kaisernetwork

WEDNESDAY, DECEMBER 5 | Concurrent Sessions | 8:00 AM - 9:30 AM

Track A

A08 – Psychological Influences on HIV Risk Among MSM

Session Location: HANOVER C – (Hyatt Hotel – Exhibit level)

Session Description: Three decades into the HIV/AIDS epidemic there is a resurgence of HIV among MSM due to many factors, including psychological influences. This session describes a study to assess the influence of vengeance, hostility, anger, and other negative traits on serostatus disclosure, nondisclosure, and HIV transmission among MSM. The session describes the possible abandonment of safer sexual practices in favor of purposeful unprotected anal intercourse, an HIV risk behavior termed: “bare backing”, and the direct relation of social anxiety — or anxiety about being evaluated by others — to unprotected intercourse among MSM. The session also explores whether social support from a partner (general vs. support specifically focused on safer sex or HIV-specific social support) was associated with sexual risk for HIV, defined as unprotected anal intercourse with outside partners.

Presentation Number: A08 – 1

Presentation Title: The Role of Vengeance in HIV-positive and HIV-negative MSM

Author(s): *Moskowitz, DA; Roloff, ME*
Northwestern University, Evanston, IL

Presentation Number: A08 – 2

Track A

A12 – The Impact of Underage Drinking and the Risk of HIV Among African Americans

Session Location: HANOVER E – (Hyatt Hotel – Exhibit level)

Session Description: The emergence of HIV in the college-age population has generated interest among prevention coordinators in understanding the link between alcohol and sexual risk-taking behaviors. Excessive alcohol consumption can cause substantial health risk to an individual, but researchers have only recently tried to examine the association between alcohol use and sexual risk-taking behaviors. This session describes a program to provide substance abuse and HIV/AIDS training to students on 13 minority campuses. At one HBCU campus, an assessment designed to evaluate the extent of HIV/AIDS and substance abuse knowledge, attitudes, and behaviors was also conducted.

Presentation Number: A12 – 1

Track A

A13 – Triple Jeopardy: The Impact of Racism, Homophobia and AIDS-Related Stigma on HIV

Session Location: REGENCY BALLROOM VI – (Hyatt Hotel – Ballroom level)

Session Description: Social discrimination is associated with stress and poor physical and mental health. This session explores the challenges faced by MSM of color men who face discrimination associated with racism, homophobia, and/or AIDS-related stigma. The session describes results from focus group discussions and in-depth interviews with MSMs of color in Los Angeles (CA). Findings indicate that various management strategies are selected based upon a complex set of criteria to preserve a sense of well-being in situations (which vary in degree of threat), and that research is needed to understand how effective these strategies are in coping with stigmatization and discrimination. The study also explored how the experience of racism varies across different ethnic minority groups. Findings suggest the need to address experiences of racism in HIV prevention strategies aimed at MSM of color. The session describes a telephone survey of African American,

Concurrent Sessions | 8:00 AM - 9:30 AM (Continued)

Haitian, Afro-Caribbean, and Hispanic residents of high AIDS incidence areas in Broward County (FL) to assess the extent and effects of AIDS-related stigma on HIV prevention efforts. Findings indicate that AIDS-related stigma was prevalent among the population, but varied significantly between and within racial and ethnic minority communities. Educational interventions should address the negative effects of AIDS-related stigma in communities of color.

Presentation Number: A13 – 1

Presentation Title: How Do U.S. Ethnic Minority Men Who Have Sex with Men (MSM) Manage Racism and Homophobia?

D08 – Developing Capacity for Interventions

Session Location: A705 – (Marriott Hotel – Atrium level)

Session Description: In order to more effectively reach certain at-risk populations, an increasing number of non-AIDS-identified organizations and institutions are being enlisted in the HIV prevention endeavor. Capacity building is frequently required or them to play an effective role in this work. Parallel to this, HIV-specific organizations need

to adopt operational models used by larger, established, and more broadly focused non-profit organizations. This session will examine capacity building interventions that have been undertaken with non-AIDS identified and HIV-specific providers, the outcomes of such endeavors, and knowledge from such experiences that can be applied to similar projects.

Asian & Pacific Islander Wellness Center, San Francisco, CA

Presentation Number: D22 – 3

Presentation Title: Lessons from the Field: A Three Year Assessment of Community Based Organizations' Acceptability of the Coalition Development CBA Training

Author(s): Rucker, T; Gipson, J

My Brother's Keeper Inc, Ridgeland, MS

Presentation Number: D22 – 4

Presentation Title: Working with a Regional Coalition to Improve STD and HIV/AIDS Prevention and Control in Northern Plains Tribal Communities

Concurrent Sessions | 8:00 AM - 9:30 AM (Continued)

Author(s): *Drobnik, AM*

Northern Plains Tribal Epidemiology Center, Rapid City, SD

Track D

D27 – Sustaining HIV Prevention Programs

Session Location: INTERNATIONAL BALLROOM NORTH – (Hyatt Hotel – International level)

Session Description:

Now that you've got a successful HIV prevention program (or one that shows promise), how do you keep it going? This session will explore the issues of sustainability frequently encountered by HIV service providers in the U.S., strategies that have been used to keep human and financial resources flowing, the importance of evaluation, and resources that are available to assist with this work.

Presentation Number: D27 – 1

Presentation Title: Ensuring Sustainability of HIV Prevention Programs Through Public and Private Partnerships

Author(s): *Sy, F; Rivera, J; Schenker, I*
NIH, Bethesda, MD

Track E

E04 – Moving Towards Comprehensive Sexual Health Among MSM: The Next Steps?

Session Location: INTERNATIONAL BALLROOM SOUTH – (Hyatt Hotel – International Ballroom level)

Session Description: This session will deal with Men who have Sex with Men (MSM) and HIV Prevention. It will focus on approaching prevention from a policy standpoint, discussions with primary care providers, and discrimination.

Presentation Number: E04 – 1

Presentation Title: A Policy Level Approach to Addressing HIV/AIDS Prevention and Care Issues for Gay Men/MSM

Author(s): *Laqueur, PA¹; O'Connell, D²; Small, A²; Walston, B²*

¹New York State Department of Health / AIDS Institute, New York, NY; ²New York State Department of Health / AIDS Institute, Albany, NY

Concurrent Sessions | 8:00 AM - 9:30 AM (Continued)

Presentation Number: E04 – 2

Presentation Title: HIV-Infected Men Who Have Sex with Men's Attitudes About Discussing Safer Sex with Their Medical Providers: Opportunities and Challenges

Author(s): *Mayer, KH^{1,2}; O'Clerigh, C^{1,3}; Leidolf, E¹; Grasso, C¹; VanDerwarker, R¹; Safren, S^{1,3}* - Kenneth H. Mayer, MD, Fenway Community Health, Boston, MA Brown University/Miriam Hospital, Providence, RI, Conall O'Clerigh, PhD, Fenway Community Health, Boston, MA Harvard U/Massachusetts General Hospital, Boston, MA., Esther Leidolf, MS, Chris Grasso, MPH, Rodney VanDerwarker, MPH, Fenway Community Health, Boston, MA, Steven Safren, PhD, Fenway Community Health, Boston, MA Harvard U/Massachusetts General Hospital, Boston, MA.

Presentation Number: E04 – 3

Presentation Title: MSM Discrimination and AIDS Prevention in the USA

Author(s): *Menon-Johansson, AS¹; Makadon, H²; McGuire, JF³*
¹ Harkness Fellow - The Commonwealth Fund, MPH Candidate Harvard School of Public Health, Boston, MA; ²Associate Professor of Medicine, Harvard Medical School, Director for Education, The Fenway Institute, Fenway Community Health, Boston, MA; ³Lorraine Snell Visiting Professor, Institute on Urban

Health Research, Bouve College of Health Sciences, Northeastern University, Boston, MA

Presentation Title: Life in Our Skin – The Duality of Same Gender Loving Gay Bi Down Low Men of Color

Author(s): *Floyd, DS*
South Beach AIDS Project, Miami Beach, FL

Track E

E10 – HIV Prevention Policies Related to Youth and School Health Education

Session Location: HANOVER F/G – (Hyatt Hotel – Exhibit level)

Session Description: This session will take a global look at HIV Prevention, Youth, and Public School Programs.

Presentation Number: E10 – 1

Presentation Title: HIV Prevention Policies and Programs in Schools – United States, 2006

Author(s): *Brener, N; Kann, L*
DASH/CDC, Atlanta, GA

Concurrent Sessions | 8:00 AM - 9:30 AM (Continued)

Presentation Number: E10 – 2

Presentation Title: Prevention Policies for Young Nigerian Girls

Author(s): Nwachukwu, IC - Women and Youths Development Initiative Foundation, Nigeria, Owerri, Nigeria - Immaculata C. Nwachukwu, BS

Presentation Number: E10 – 3

Presentation Title: From Paradigm to Genuine Engagement: Listening to Sex Educators on HIV Prevention

Author(s): Joy Robinson-Lynch
Massachusetts Department of Education,
Malden, MA.

Presentation Number: E10 – 4

Presentation Title: Strengthening Public and Community Partnerships to Benefit LGBT Youth in Public Schools

Author(s): Kern, NS
Hawaii Department of Health, Honolulu, HI

Presentation Number: E10 – 5

Presentation Title: Improving School Environments for LGBTQ Youth as an HIV Prevention Strategy:

Reports from Seattle, Los Angeles, and the American Psychological Association

Author(s): Tomlinson, H¹; Coyle, K²; Loya, R³
¹American Psychological Association, Washington, DC; ²ETR Associates, Scotts Valley, CA; ³Los Angeles Unified School District, Los Angeles, CA

Track E

E12 – Public Health Research, Policy and Practice to Eliminating Health Disparities and Improving Health

Session Location: COURTLAND – (Hyatt Hotel – Atlanta Conference Center level)

Session Description: This session will deal primarily with the mobilization and next steps for the African American community as it pertains to the Public Health response to the health disparities that exist.

Presentation Number: E12 – 1

Presentation Title: NBLCA Leadership Mobilization Model

Author(s): Levine, DA
National Black Leadership Commission on AIDS, New York, NY

Concurrent Sessions | 8:00 AM - 9:30 AM (Continued)

Presentation Number: E12 – 2

Presentation Title: Public Health Responses to the HIV Epidemic Among BMSM: Exemplars and Next Steps for Prevention

Author(s): *Moore, T¹; Wilson, P²; Castner, K³; Foust, E⁴; Perez, M⁵* - ¹National Alliance of State & Territorial AIDS Directors, Washington, DC; ²Columbia University, Mailman School of Public Health, New York, NY; ³Maryland Department of Health & Mental Hygiene, AIDS Administration, Baltimore, MD; ⁴North Carolina Department of Health & Human Services, HIV/STD Prevention & Care Branch, Raleigh, NC; ⁵Office of AIDS Programs & Policy, County of Los Angeles Public Health, Los Angeles, CA

Presentation Title: Socially Contextualized HIV Research for Healthy Communities

Author(s): *Galvan, F¹; Bingham, T²; Harawa, N¹; Kim, J¹*
¹Charles R. Drew University of Medicine & Science, Los Angeles, CA; ²HIV Epidemiology Program, Los Angeles County Dept. of Public Health, Los Angeles, CA

Presentation Number: E12 – 4

Presentation Title: Why We Can't Wait: State and Local Health Departments Response to HIV/AIDS Among African Americans

Author(s): *Moore, T; Mbajah, J*
NASTAD, Washington, DC.

Track E

E13 – Effective Materials Development and Distribution Strategies

Session Location: HONG KONG – (Hyatt Hotel – Embassy Hall level)

Session Description: This session will provide some suggested methods and strategies designed to make prevention and material distribution more effective.

Presentation Number: E13 -1

Presentation Title: It's All About Context: Risk is Shaped by Real Life, So Prevention Must Be Too

Author(s): *Forbes, A, MSS* - Global Campaign for Microbicides, Washington, DC, *Adaora Adimora, MD, MPH*, University of North Carolina, Chapel Hill, NC, *Phill Wilson*, Black AIDS Institute, Los Angeles, CA, *Diana Bruce, MPA*, AIDS Alliance for Families

Concurrent Sessions | 8:00 AM - 9:30 AM (Continued)

Children and Youth, Washington, DC, *Dazon Dixon Diallo, MPH*, SisterLove, Inc., Atlanta, GA.

Presentation Number: E13 -2

Presentation Title: Program Review Interferes with Community Based Organizations' (CBOs) Ability to Implement Evidence-Based Interventions for Men Who Have Sex with Men (MSM)

Author(s): *Huebner, DM¹; Kegeles, SM²; Rebchook, GM²; the TRIP Research Team²* –

¹ University of Maryland, Baltimore County, Baltimore, MD; ² UCSF – Center for AIDS Prevention Studies, San Francisco, CA

Track F

F04 – Adolescent Issues in HIV Diagnosis and Engagement in California

Session Location: VANCOUVER/MONTREAL – (Hyatt Hotel – Embassy Hall level)

Session Description: In this session panelists will discuss clinical services addressing key issues facing youth living with HIV/AIDS: sources of support, knowledge about their infection and transitioning adolescents to adult care. The concerns about HIV testing among Black MSMs will also be addressed.

Presentation Number: F04 – 1

Presentation Title: Project Access (Adolescents Connecting Care to Engage Strive and Succeed): A Transition Plan for Youth and Young Adults Who Are Transitioning from Adolescent Care to Adult Care

Author(s): *Best-Ross, JL; Domingo, C; LaGrange, R; Peralta, L*

University of Maryland, Baltimore, MD

Presentation Number: F04 – 2

Presentation Title: What Do HIV-Infected Youth Know About HIV/AIDS?

Author(s): *Abramowitz, S¹; Barnes, W²; Koenig, L³; Chandwani, S; Lagrange, R⁴; Moschel, D¹*

¹NYU School of Medicine, New York, NY;

²Children's National Medical Center, Washington, DC; ³Centers for Disease Control and Prevention, Atlanta, GA; University of Maryland School of Medicine, Baltimore, MD

Presentation Number: F04 – 3

Presentation Title: Young Black MSM's Concerns About HIV Testing and Obtaining Treatment: The Importance of Hope, Support, and Faith

Author(s): *Kegeles, SM¹; Rebchook, G¹; Arnold, EA¹; Foster, M¹; Sharpe, H²; Hamilton, R²*

¹Center for AIDS Prevention Studies, University of California, San Francisco; ²Minority AIDS Project, Unity Fellowship Church, Los Angeles, CA

Concurrent Sessions | 8:00 AM - 9:30 AM (Continued)

Presentation Number: F04 – 4

Presentation Title: Sources of Support for Youth During the First Year Following an HIV Diagnosis

Author(s): *Lemos, D¹; Hosek, SG¹; Harper, GW²*

¹John H. Stroger Jr., Hospital of Cook County, Child & Adolescent Psychiatry, Chicago, IL;

²DePaul University, Department of Psychology, Chicago, IL

Track F

F09 – PWP: Risk Behaviors and Interventions in Clinical Settings

Session Location: A706 – (Hyatt Hotel – Atrium level)

Session Description: Providers in clinical practice have a significant opportunity to assist patients to change behaviors to improve medical outcomes. This session will explore factors associated with high risk behaviors among patients in clinical settings and provide findings, including readiness to change, from clinic based interventions to improve outcomes in HIV risk taking behavior and medication adherence.

Presentation Number: F09 – 1

Presentation Title: Computer Counseling to Support Antiretroviral Therapy Adherence and HIV

Transmission Risk Reduction: Baseline and Six-Month Follow-up

Author(s): *Kurth, AE¹; Severynyn, A¹; Clausen, M¹; Frick, P¹; Bangsberg, DR²; Simoni, JM¹; Tarczy-Hornoch, P¹; Lockhart, DL¹; Holmes, KK¹ - ¹ Univ. of Washington, Seattle, WA; ² University of California San Francisco, San Francisco, CA*

Presentation Number: F09 – 2

Presentation Title: Prevention with Positives: Reported Barriers to Risk Reduction

Author(s): *Jenckes, MW; Hsu, R; Gindi, R; Erbeling, EJ*

Johns Hopkins School of Medicine, Baltimore, MD

Presentation Number: F09 – 3

Presentation Title: HIV Primary Care Providers' Discussion of Alcohol Use with Their HIV-Positive Patients

Author(s): *Metsch, LR¹; Pereyra, MR¹; Cardenas, GA¹; Dawson-Rose, C²; McKirnan, D³; Colfax, G⁴; Eroglu, D⁵*

¹University of Miami, Miami, FL; ²University of California, San Francisco, CA; ³University of Illinois at Chicago, Chicago, IL; ⁴San Francisco Department of Public Health, San Francisco, CA; ⁵CDC, Atlanta, GA

Concurrent Sessions | 8:00 AM - 9:30 AM (Continued)

Presentation Number: F09 – 4

Presentation Title: Readiness of HIV+ Patients to Change Sexual Risk Behaviors

Author(s): *Jenckes, MW¹; Hsu, R²; Gindi, R¹; Erbelding, EJ¹*

¹Johns Hopkins School of Medicine, Baltimore, MD; ²Johns Hopkins School of Medicine, Baltimore, MD

Presentation Number: F09 – 5

Presentation Title: Alcohol and Drug Use are Associated with Risk of Transmitting HIV Among Patients Seen in Clinical Care Settings

Author(s): *Dawson Rose, C; Myers, J; Maiorana, A; Koester, K; Shade, S; Morin, S*
University of California San Francisco, San Francisco, CA

Track G

G10 – Program Collaboration and Service Integration to Address Health Disparities

Session Location: BAKER – (Hyatt Hotel – Atlanta Conference Center level)

Session Description: Disparities in health care have been linked to increased risks and poorer health outcomes. The integration of services can be an effective approach for reaching individuals with multiple risk factors and/or disenfranchised populations. This session will explore programs that are seeking to address, through integration, health disparities in various high-risk populations including: injection drug and other substance users; African-American men; women in rural areas; and incarcerated individuals. A model for integrating hepatitis C services into HIV prevention service will also be presented.

Presentation Number: G10 – 1

Presentation Title: The Rural Context: Barriers, Current Prevention and Care Strategies, and Recommendations for Young Women's Access to HIV/AIDS and STD Services

Concurrent Sessions | 8:00 AM - 9:30 AM (Continued)

Author(s): *Williams, KM¹; Stratford, D¹; O'Leary, A¹; Burstein, GR²; Martin, E³; Patterson, J¹; Edwards, A¹*

¹Centers for Disease Control and Prevention, Atlanta, GA; ²Erie County Department of Health, Buffalo, NY; ³Georgia State University, Atlanta, GA

Presentation Number: G10 – 2

Presentation Title: African American Men, HIV and the Relationship to Other Health Care Disparities

Author(s): *Colomb, MA; Gipson, JA* - Mark A. Colomb, PhD, EdS, MPH, June A. Gipson, EdS, My Brother's Keeper, Inc., Ridgeland, MS.

Presentation Number: G10 – 3

Presentation Title: Capturing the Minds, Bodies and Souls of Injecting Drug Users and Other Substance Users: The Essence of Client Recruitment, Retention and the Integration of Prevention Services within a Street Based Model Program

Author(s): *Hazel, D¹; Brown, C²; Peterkin, J¹* –

¹Planned Parenthood of New York City, Project Street Beat, Bronx, NY; ²Planned Parenthood of New York City, Project Street Beat, Brooklyn, NY

Presentation Number: G10 – 4

Presentation Title: Behavioral Interventions and HIV Testing with Incarcerated Persons

Author(s): *Olejemeh, CO; Sturdivant, AA; Castner, H; Henderson, AS*
Maryland State AIDS Administration, Baltimore, MD

Presentation Number: G10 – 5

Presentation Title: Chicago Integrates HIV Prevention and Hepatitis 2007: One Model for Success

Author(s): *Dan, C^{1,2}*

¹Chicago Department of Public Health, Chicago, IL; ²Hepatitis Foundation International, Silver Spring, MD

WEDNESDAY, DECEMBER 5 | Plenary Session | 10:00 AM - 11:30 PM

PL04 - Synergy Between Science and Program

Session Location: Centennial Ballroom - (Hyatt Hotel - Ballroom level)

Moderator:

Victoria A. Cargill, M.D., M.S.C.E.
National Institutes of Health
Bethesda, MD

PRESENTERS AND TOPICS

Incarcerated Populations - Prevention and Community Linkages

Timothy Flanigan, M.D.
Brown University
Providence, RI

Science to Program Translation for Community Based Organizations

Monday, December 3, 2007 Poster Presentations

<u>Poster #</u>	<u>Abstract Title</u>	<u>Track</u>	<u>Presenting Author</u>
101M	HIV Incidence Surveillance Data: How It Can Help You	B	Stefanie B. White
102M	Integrating HIV and Hepatitis Surveillance in New Mexico	B	Lily N. Foster
103M	The Evolving Epidemiology and Public Health Needs for Control of HIV, STDs, HBV, and HCV in "Hard" Drug Users in the U.S.	B	Salaam Semaan
104M	Neighborhood Effects on Sexual HIV Risk Behavior Among Men Who Have Sex with Men: A Multi-level Analysis	B	Victoria Frye
105M	Racial Differences in HIV-Testing Practices Among Child-Bearing Age Women and Pregnant Women in the U.S.	B	Catalina Lopez
106M	Rates of HIV Testing and Associations Among African American Adolescents	B	Larry K. Brown
107M	The Influence of Peers: Latino MSM's Use of Condoms	B	Juli-Ann Carlos
108M	Unique Challenges of Hospitalized, Newly Diagnosed HIV/AIDS Haitians Residing in the U.S.	B	Allan Rodriguez
109M	Rapid HIV and Syphilis Testing: An Improvement in Screening at an Urban Gay Men's STD Clinic	B	Larry C. Mack-Wilson
110M	New HIV Discovered Cases During A Syphilis Outbreak, Puerto Rico, 2006	B	Zaira Kianes-Pérez
111M	Primary and Secondary Syphilis in the United States, 2000-2005	B	John F. Beltrami
112M	The Use of Surveillance Data to Evaluate Concurrent HIV and AIDS Diagnoses in Houston/Harris County, TX	B	Shirley Chan
113M	HIV Testing Trends for Older Adults (? 50 years) at CDC-Supported Sites, United States, 1995-2004	B	Rebecca R. Stein
114M	Mozambique's Voluntary Counseling and Testing Program: Client Characteristics and HIV Prevalence, 2002-2005	B	Ranee Seither
115M	Using Social Marketing to Reduce HIV/AIDS Stigma: Three Year Evaluation Data	B	T'juan Rucker
116M	Forced Sex During Childhood Sexual Abuse and Adolescent Behavioral Outcomes Among Female Adolescents in the Canadian Child Welfare System	A	Jackie E. Huisman
117M	Self Blame as a Mediator of Child Sexual Abuse and Sexual Risk Behavior Among Youth in the Canadian Child Welfare System	A	Margarita Viner
118M	Developing a Model for HIV Prevention Intervention for Female Drug Abusing Offenders	A	Deepthi S. Varma

Monday, December 3, 2007 Poster Presentations (Continued)

119M	Video Tool to Promote Knowledge of Syphilis as Facilitator of HIV Transmission and Concurrent Testing Among Black and Hispanic MSM	A	John P. Sanchez
120M	Internalized Homophobia is Associated with HIV Transmission Risk Among HIV-Positive Gay-Identified Men	A	Mallory O. Johnson
121M	Discussion and Management of Safer Sex Among Men Living with HIV	A	Kami A. Kosenko
122M	Breaking the Cycle/Mending the Hoop: Adverse Childhood Experiences Among Incarcerated American Indian and Alaska Native Women in New Mexico	A	Lori de Ravello
123M	Community Level Interventions with the House/Ball Community in NYC	A	Lyndel Urbano
124M	Drug Use and Risky Sexual Behaviors Among Detained Adolescents in Miami Dade	A	Patria Rojas
125M	Treating the Triggers: The Effects of Exposure Response Prevention on Reducing Addictive Cravings	A	Robert J. DeLetis
126M	California HIV Prevention Indicators: How Are We Doing?	A	Roy R. McCandless
127M	HIV Prevention Altruism and Sexual Risk Behavior in HIV-Positive Men Who Have Sex with Men	A	Brennan L. O'Dell
128M	Urban Female Adolescents and Heterosexual Anal Intercourse: Does Relationship Power Play A Role?	A	Carol Royce
129M	Audio Computer-Assisted Risk Assessment Is Associated with Higher Self-Reported Risk among HIV-Infected Latinos	A	Janet J. Myers
130M	Midlife African American Women at Risk for HIV Due to the Man Shortage	A	Gardenia Harris
131M	Prevalence and Correlates of Condom Failure Among African American Teens	A	Laura F. Salazar
132M	Race/Ethnicity and Erotic Advantages/Disadvantages: MSM of Color, Sexual Stereotyping and Hierarchies of Desire	A	Jay P. Paul
133M	Sexual Risk Behavior Among African American and Afro-Caribbean Men and Women at Increased Risk for HIV: The Role of Cognitions Related to Condom Use	A	Rebecca M. Schwartz
134M	Sexual Sensation Seeking and Increased Rates of HIV Risk Behaviours in a Multiethnic Undergraduate Student Sample	A	Margarita Viner

Monday, December 3, 2007 Poster Presentations (Continued)

135M	Young African American Men Who Have Sex with Men (YAAMSM), Sexual Risk, and Perceptions of HIV Counseling and Testing (HIV C&T): An Internet Survey	A	Angulique Y. Outlaw
136M	"It's All About Being La Seniorita": Latina College Students' Perceptions of Factors Related to HIV Risk for Young Urban Hispanic Women	A	Sande G. Jones
137M	Estimating HIV Prevalence and Risk Behaviors of Transgender Persons in the United States: A Systematic Review of the Literature	A	Jeffrey H. Herbst
138M	Familiarity and Use of the Female Condom in New York State	A	James M. Tesoriero
139M	HIV Vaccine Acceptance Among Minority Women in the Urban South	A	Paula M. Frew
140M	The Relationship Between Perceived Financial Needs and Sexual Risk Behavior Among African American and Afro-Caribbean Men and Women at Increased Risk for HIV	A	Michael A. Joseph
141M	Abbott ARCHITECT® HIV Ag/Ab Combo Assay - Simultaneous Detection of HIV p24 Antigen and Antibodies to HIV-1 Group M, HIV-1 Group O and HIV-2	C	Richard L. Vickstrom
142M	How to Implement a Behavioral Intervention for HIV Positive Patients in a Clinic Setting	C	Drema Mace
143M	Intensive Prevention Counseling on Rates of Disease Progression in Persons Living with HIV/ AIDS	C	Amy R. Doyle
144M	Occupational Accidents and Knowledge About Universal Precautions in Medical Interns of Nepal	C	Shambhu D. Joshi
145M	Systematic Review of Abstinence-Only and Abstinence-Plus Program Interventions to Prevent HIV Transmission	C	Don Operario
146M	Helping HIV+ Women Gain Control of Their Health	C	Cora E. Giddens
147M	Social-Network Influences in Promoting Condom Use and HIV Testing Among Filipina Commercial Sex Workers: Findings from a Quasi-Experimental Intervention Study	C	Robert M. Malow
148M	Word from the Streets: Front-Line Staff from Black Community-Based Organizations (BCBOs) Views on Barriers and Facilitators of Using Evidence-Based Interventions (EBIs) for HIV Prevention with Black Men Who Have Sex with Men (BMSM)	C	Michael L. Foster

Monday, December 3, 2007 Poster Presentations (Continued)

149M	Finding a Fit with the Environment: Three Models of Service Delivery for Van-based HIV Outreach Programs to Active Substance Users	C	Samuel A. MacMaster
150M	Reducing HIV Infection Among New Injecting Drug Users in The China-Vietnam Cross Border Project	C	Don C. Des Jarlais
151M	What Does DEBI Know About My Community?: Making Interventions Work for You By Avoiding Common Implementation Mistakes	C	Stephen J. Fallon
152M	A Peer Counseling Program for Young People Living with HIV/AIDS	C	Sheryl L. Henderson
153M	Choosing Life: Empowerment! Action! Results! (Project CLEAR): An Individual Level Intervention for Youth and Young Adults Living with HIV/AIDS	C	Daniel Casillas
154M	SAFETALK: An Innovative Multi-component Motivational Interviewing-Based Safer Sex Program for People Living with HIV (PLWH)	C	Carol E. Golin
155M	"It's Appalling How, Online, We Stopped Having Conversations" Focus Group Data Guided the Development of a Web-based HIV Prevention Program to Meet the Needs of Gay/Bisexual Men Who Use the Internet	C	Gregory M. Rebchook
156M	A Nonrandomized Evaluation of an HIV Prevention Intervention for Caucasian Men Who Have Sex with Men	C	Bryce D. Smith
157M	Identifying Venues Where High-Risk and Low-Risk MSM Meet and Mix	C	Jennifer Hecht
158M	Sexual Health Xchange and LifeLube.org - Going Beyond HIV/AIDS and STDs in Addressing Gay Men's Health	C	David E. Munar
159M	Developing a Programmatic and Technical Service Center for the National HIV Prevention Program Evaluation and Monitoring System (PEMS): Communicating Public Health Evaluation Standards and Methods by E-Mail: Lessons Learned	C	David Davis
160M	Study Participation as a Social Group Influencing Sexual Behaviors in an HIV-Prevention Trial for Men Who Have Sex with Men	C	Matthew J. Mimiaga
161M	The Institute for Gay Men's Health Online Outreach Project	C	Mark Kornegay

Monday, December 3, 2007 Poster Presentations (Continued)

162M	Using Motivational Interviewing in Field Outreach with Young African American Men Who Have Sex with Men (YAAMSM)	C	Angulique Y. Outlaw
163M	Implementing a Prevention with Positives Intervention in an Urban Clinic Setting: Lessons from the Treatment Advocacy Program-Sinai	C	Sheela Raja
164M	The Socio-Cultural Context of HIV Risk and Using Diaphragms as a Method of HIV Prevention Among Young Women in Zimbabwe	C	Nuriye N. Sahin-Hodoglugil
165M	Illinois Perinatal HIV Rapid Testing, Treatment, and Reporting: Measures of Performance	C	David R. Kattan
166M	Evaluation of Montana's HIV Prevention Social Marketing Campaign: Targeting MSM, HIV Positive, IDU, Women and Youth Populations	C	Laura Dybdal
167M	Project Abrazos y Besos - Intergenerational Approach to HIV/AIDS Prevention, Education for Latina Women Across the Lifespan	D	Charlene Doria-Ortiz
168M	Community Saturation Models for Abstinence Education: A Summary of the Weld WAITS Program in Colorado	D	Joneen K. Mackenzie
169M	A Prevention Intervention for HIV Positives and the Unintended Benefit After the Implementation of an Electronic Medical Record (EMR) System	D	Gary P. Garcia
170M	Evaluating a Health-Related Quality of Life Instrument Among HIV-infected Adults Receiving Care in the United States: Reliability and Validity of the SF-12	D	Minn M. Soe
171M	Evaluating Social Marketing Campaigns with Theory and Logic	D	Donata Green
172M	HIV Prevention Intervention Among Substance Users: Efficacy of Hours of Intervention, Number and Type of Sessions Attended on Outcomes	D	Saleesh Abebe
173M	Learning from the Ground Up: The Benefits of Qualitative Methods for HIV Prevention Research	D	Michelle Teti
174M	Test-Retest Reliability of Self-Reported Sexual Behavior, STD Testing and HIV Risk Behavior Antecedents Among African-American Youth in Four U.S. Cities	D	Peter Vanable
175M	A Communication Strategy to Improve the Uptake of PMTC Services in a Rural Sub County - Central Uganda	D	Enid M. Mbabazi

Monday, December 3, 2007 Poster Presentations (Continued)

176M	Logic Model Makeovers: A New Look for an Old Tool to Guide HIV Prevention Intervention Planning, Implementation, and Monitoring	D	Marlene Glassman
177M	Preparing for Effective Behavioral Interventions: The Future of HIV Prevention	D	Carlos M. Hernández
178M	The National African AIDS Helpline. Cultural approach to HIV prevention in UK	D	Gertrude A. Wafula
179M	Do Drug Abuse Researchers Have a Duty to Protect Third Parties from HIV Transmission? Moral Perspectives of Street Drug Users	D	Celia B. Fisher
180M	The PEaPLE First Project: Providing HIV, Hepatitis, and Substance Abuse Health Education/Risk Reduction (HE/RR) to Active Drug Users	D	Kelli Lasseter
181M	A Puerto Rican DEBI: Anthology of an Adaptation of Mpowerment for Adults MSM and the Integration Other Comprehensive Services	D	Peter M. Shepard-Rivas
182M	Creating Alliances with Public Sex Venues	D	Hugh A. Ramsey
183M	Multi-Agency Approach to Implementing Community PROMISE with Highest Risk MSM: Successes and Challenges	D	Kim Toevs
184M	PA04064, HIV Prevention In Washington DC	D	Kenneth J. Pettigrew
185M	Recent Use of HIV Prevention Services Among Male Attendees at 2006 Gay Pride Events: Is the Word Still Getting Out?	D	Andrew C. Voetsch
186M	"Coming to this group really made me see how much I had to learn": Peer-Delivered Interventions in U.S. Clinical Settings Address the Prevention Needs of People Living with HIV/AIDS	D	Kimberly A. Koester
187M	Pilot Implementation of the L.I.F.E. Program in a Correctional Setting	D	H. Dawn Fukuda
188M	The Lotus Project - Women's HIV/AIDS Peer Education Training	D	Shailey Merchant
189M	Trainee Characteristics and Factors Associated with Recent Peer Support Activities Among HIV+ Women Participating in the Lotus Project Peer Education Training Program	D	David Fine
190M	The Cultural and Community-Level Acceptance of Antiretroviral Therapy (ART) Among Traditional Healers in South Africa	D	Justin M. Shuster
191M	Assessing SISTA: The Results from a Formative and Process Evaluation	D	Quinn M. Gentry

Monday, December 3, 2007 Poster Presentations (Continued)

192M	HIV Prevention Intervention for Female Offenders	D	Linda B. Cottler
193M	A Supportive Model for HIV Risk Reduction in Early Adolescents (ASUMA): First Two Years of Implementation	D	Diana M. Fernandez
194M	The New DEBI - Focus on Youth: An Effective HIV Prevention for African American Youth	D	Perdietha Rogers
195M	Facilitators and Barriers to Rapid HIV Testing in U.S. Hospitals: Results from a National Survey	D	Gretchen Williams Torres
196M	HIV Testing and Referral in U.S. Hospitals: Results from a National Survey	D	Gretchen Williams Torres
197M	Medical and Demographic Characteristics of Patients Newly Diagnosed with HIV in an Emergency Department in Western Kenya	D	Michael J. Waxman
198M	Implementation of Routine, Voluntary HIV Testing at a Large, Multi-site Substance Abuse Treatment Program	D	Angela Jeffers
199M	Syringe Access Policy Initiatives Should Address Safe Disposal	E	Jay G. Cooper
200M	Adding Practicality to Policy: Results from CDC's 2006 PCRS Stakeholder Consultation Meeting	E	Cady Berkel
201M	Non-Intervention Drug Abuse Research and HIV Counseling and Testing: Through the Community Looking Glass	E	Celia B. Fisher
202M	Web-based Education Course Impacting Partner Counseling and Referral Services Delivery in Michigan	E	Audrea M. Woodruff
203M	An Interagency Policy Initiative to Advance Mental Health Screening of Prison Inmates at Risk for HIV	E	Barbara S. Devore
204M	Assisted Reproduction for HIV-affected Couples in California	E	Nena C. Barnhart
205M	Correlates of Antiretroviral Medication Use Among In-patient HIV-Positive Substance Users	F	Gladys E. Ibanez
206M	Rapid HIV Testing Training and Education for Healthcare Professionals: What Are the Results?	F	Kim To
207M	Factors Influencing Detectable Viremia in Patients on Antiretroviral Therapy	F	Bryan Harris
208M	Promoting Regular Testing: Reactions to Information on Acute HIV Infection Among an Urban High Risk Population	F	Emily A. Arnold
209M	Gender Differences in Beliefs About Viral Load and HIV Transmission Risks Among HIV+ Women and Men	F	Rebecca A. Bostwick

Monday, December 3, 2007 Poster Presentations (Continued)

210M	Peer and Psychosocial Support for HIV Positive Adolescents in Uganda	F	Fredrick Sebuuma
211M	A Health Center Based PwP Program in Mozambique	F	Carol Dawson Rose
212M	Evaluation of HIV Counseling, Testing and Referral Programs in Washington DC: Challenges and Implications	F	Akbar M. Shahkolahi
213M	Identification of Patients Infected with HIV Using Physician-Based Diagnostic Testing in the Emergency Department: A Prospective Cohort Study	F	Jason S. Haukoos
214M	The Indian Health Service's HIV Management System Clinical Software	F	Cynthia P. Gebremariam
215M	Partner Counseling and Referral Services (PCRS) In Houston/Harris County, Texas-Building Capacity Through Collaborations	G	Linda Hollins
216M	PENS HOUSTON: Web-based Interviews for Partner Elicitation and Notification	G	Larry J. Prescott
217M	SIGNS OF THE TIME "Houston's Approach To Quality Management Through Realignment of Job Functions"	G	Brenda Simpson
218M	Integrating Hepatitis Prevention Messages into HIV Prevention Services	G	Sandy S. Van Sant
219M	Self-Reported Versus Actual Hepatitis and HIV Services Among Injection Drug Users in Treatment	G	Kirsten A. Rowe
220M	Utilizing Disease Intervention Specialist for Follow-up on Hepatitis C in Individuals Between the Ages of 15 and 25 years: A 3-month Pilot Program	G	Shauna L. Onofrey
221M	Promoting TB / HIV Partnership	G	Mildred Perez
222M	Preventing HIV Through Private Sector TB PPM Project in Kenya	G	Haron Njiru

Tuesday, December 4, 2007 Poster Presentations

<u>Poster #</u>	<u>Abstract Title</u>	<u>Track</u>	<u>Presenting Author</u>
101T	Surveillance Do's and Don'ts: False Positive HIV Western Blots in Pregnant Women	B	Shirley Chan
102T	Optimum Care and Prevention of Mother to Child HIV Transmission in New York State: 2003 and 2004	B	Wendy P. Pulver
103T	Trends in the Number of Psychiatric Hospitalizations Among HIV-infected Women of Reproductive Age in the United States, 1994 vs. 2004	B	Pooja Bansil
104T	Characteristics of Non-Hispanic Black Tuberculosis Patients with Reported HIV Infection.	B	Elvin Magee
105T	Performance of Laboratories Using the Bayer ADVIA HIV 1/2/O Assay	B	Sandra W. Neal
106T	Legal Syringe Purchase Activities and Population Estimates of Suburban Injection Drug Users (IDUs) in Long Island, New York (NY)	B	Chris Nemeth
107T	No Differences in Sexual and Needle-sharing Behaviors Between Low Income IDUs Who Use Syringe Exchange Programs and Those Who Do Not Use Syringe Exchange Programs in Los Angeles County	B	Kwa A. Sey
108T	North Carolina 2006 MSM Rapid Behavioral Assessment	B	Martha S. Buie
109T	Recruitment of Male Sexual Partners by Minority Women: Barriers and Recommendations	B	Elizabeth Hurwitz
110T	Sexual Risk Factors: How Reliable Are They?	B	Enbal Shacham
111T	HIV-Infected Individuals Without Hospital-Associated Missed Opportunities for Earlier HIV Diagnosis - South Carolina, 2001 to 2005	B	Kristina E. Weis
112T	The Emerging Target of Puerto Rican HIV/AIDS Patients: The Profile Elderly vs. Non-Elderly HIV Infected Patients	B	Doris V. Baez-Feliciano
113T	Estimating the Size of HIV Risk Populations in Washington State	B	Jason B. Carr
114T	A Comparison of Geomasking Algorithms for Mapping HIV Infections When Geocoded Case Locations Are Available	B	William C. Miller
115T	HIV/AIDS Among Foreign-Born Persons in 33 States in the United States, 2001-2005	B	Alpa Patel-Larson
116T	Increases in HIV/AIDS Diagnoses at the United States-Mexico Border, 2001-2005	B	Lorena Espinoza

Tuesday, December 4, 2007 Poster Presentations (Continued)

117T	Stated Barriers to HIV Testing Among Black Americans	A	Margherita E. Ghiselli
118T	HIV Vaccine acceptability Among Multi-Ethnic Groups at Risk for HIV Infection	A	William E. Cunningham
119T	Prevalence of Ignorance About HIV Infection and Use of Condoms in the Rural Indian Population	A	Jerome Gnanaraj
120T	Stigma and Social Support Among HIV-Positive African Americans	A	Frank H. Galvan
122T	African American and Latino Participation in HIV Vaccine Trials	A	Sonya G. Arreola
123T	African American Clergy and Premarital Counseling: A Pathway to Prevention	A	Tiffany M. Cummings-Aholou
124T	Evaluation of CD8+ T-cell and Antibody Responses Following Transient Increased Viraemia in Sooty Mangabeys Infected with Live, Attenuated Simian Immunodeficiency Virus	A	Amos U. Umurhurhu
125T	Intentional Sexual Abstinence Among Homeless or Unstably Housed Persons Living with HIV	A	Cari Courtenay-Quirk
126T	Lifetime History of HIV Testing is Lower Among South Chinatown Residents in Chicago than Other Community Neighborhoods	A	Matthew J. Magee
127T	Results from a Qualitative Study of Sexual and Drug Use Behaviors Among Long-Haul Truck Drivers and Commercial Contacts in New Mexico, USA	A	Donna Hubbard McCree
128T	Transactional Sexual Networking by Adolescent Girls at Oil Locations in Nigeria: Findings and Implications for Community Women in the Times of AIDS	A	Bode-Law Faleyimu
