reported to CDC Maps, charts, and data provided by CDC, updates Tues-Sat by 8 pm ET<sup>T</sup> CDC is working with states to provide more information on race/ethnicity for reported cases. The percent of reported cases that include race/ethnicity data is increasing.

Case & Death Demographic Trends

**CLICK TO VIEW OTHER PAGES:** 

These data only represent the geographic areas that contributed data on race/ethnicity. Every geographic area has a different racial and ethnic composition. These data are not generalizable to the entire U.S. population.

If cases were distributed equally across racial and ethnic populations, one would expect to see more cases in those populations that are more highly represented in geographic areas that contributed data.
