

# Accessing a COVID-19 Vaccine If You Are Homebound

Updated July 12, 2022

## First Steps for Getting a COVID-19 Vaccine

If [you are homebound](#) and need to receive a [COVID-19 vaccine](#), contact your healthcare provider or your [state or local health department](#) for information about accessing a COVID-19 vaccine and other services available to assist you locally. In many states, you may also dial 211 to connect to essential community services.

## Other Options for Getting a COVID-19 Vaccine

If you are not able to arrange to receive a [COVID-19 vaccine](#) through your healthcare provider or through your state or local health department, try contacting groups that are advocates for people who are homebound or that provide home health services. For example, you may try calling [The Aging Network](#) at 1-800-677-1116, searching for services by ZIP code with the [Eldercare Locator](#), contacting the [Disability Information and Access Line](#) (DIAL) at 1-888-677-1199 or the hotline for Medicare recipients at 1-800-633-4227 (TTY 1-877-486-2048).
