A map of the Western Cape province of South Africa, highlighting the Cape Town region. The map shows the coastline and the location of Cape Town relative to the surrounding areas.

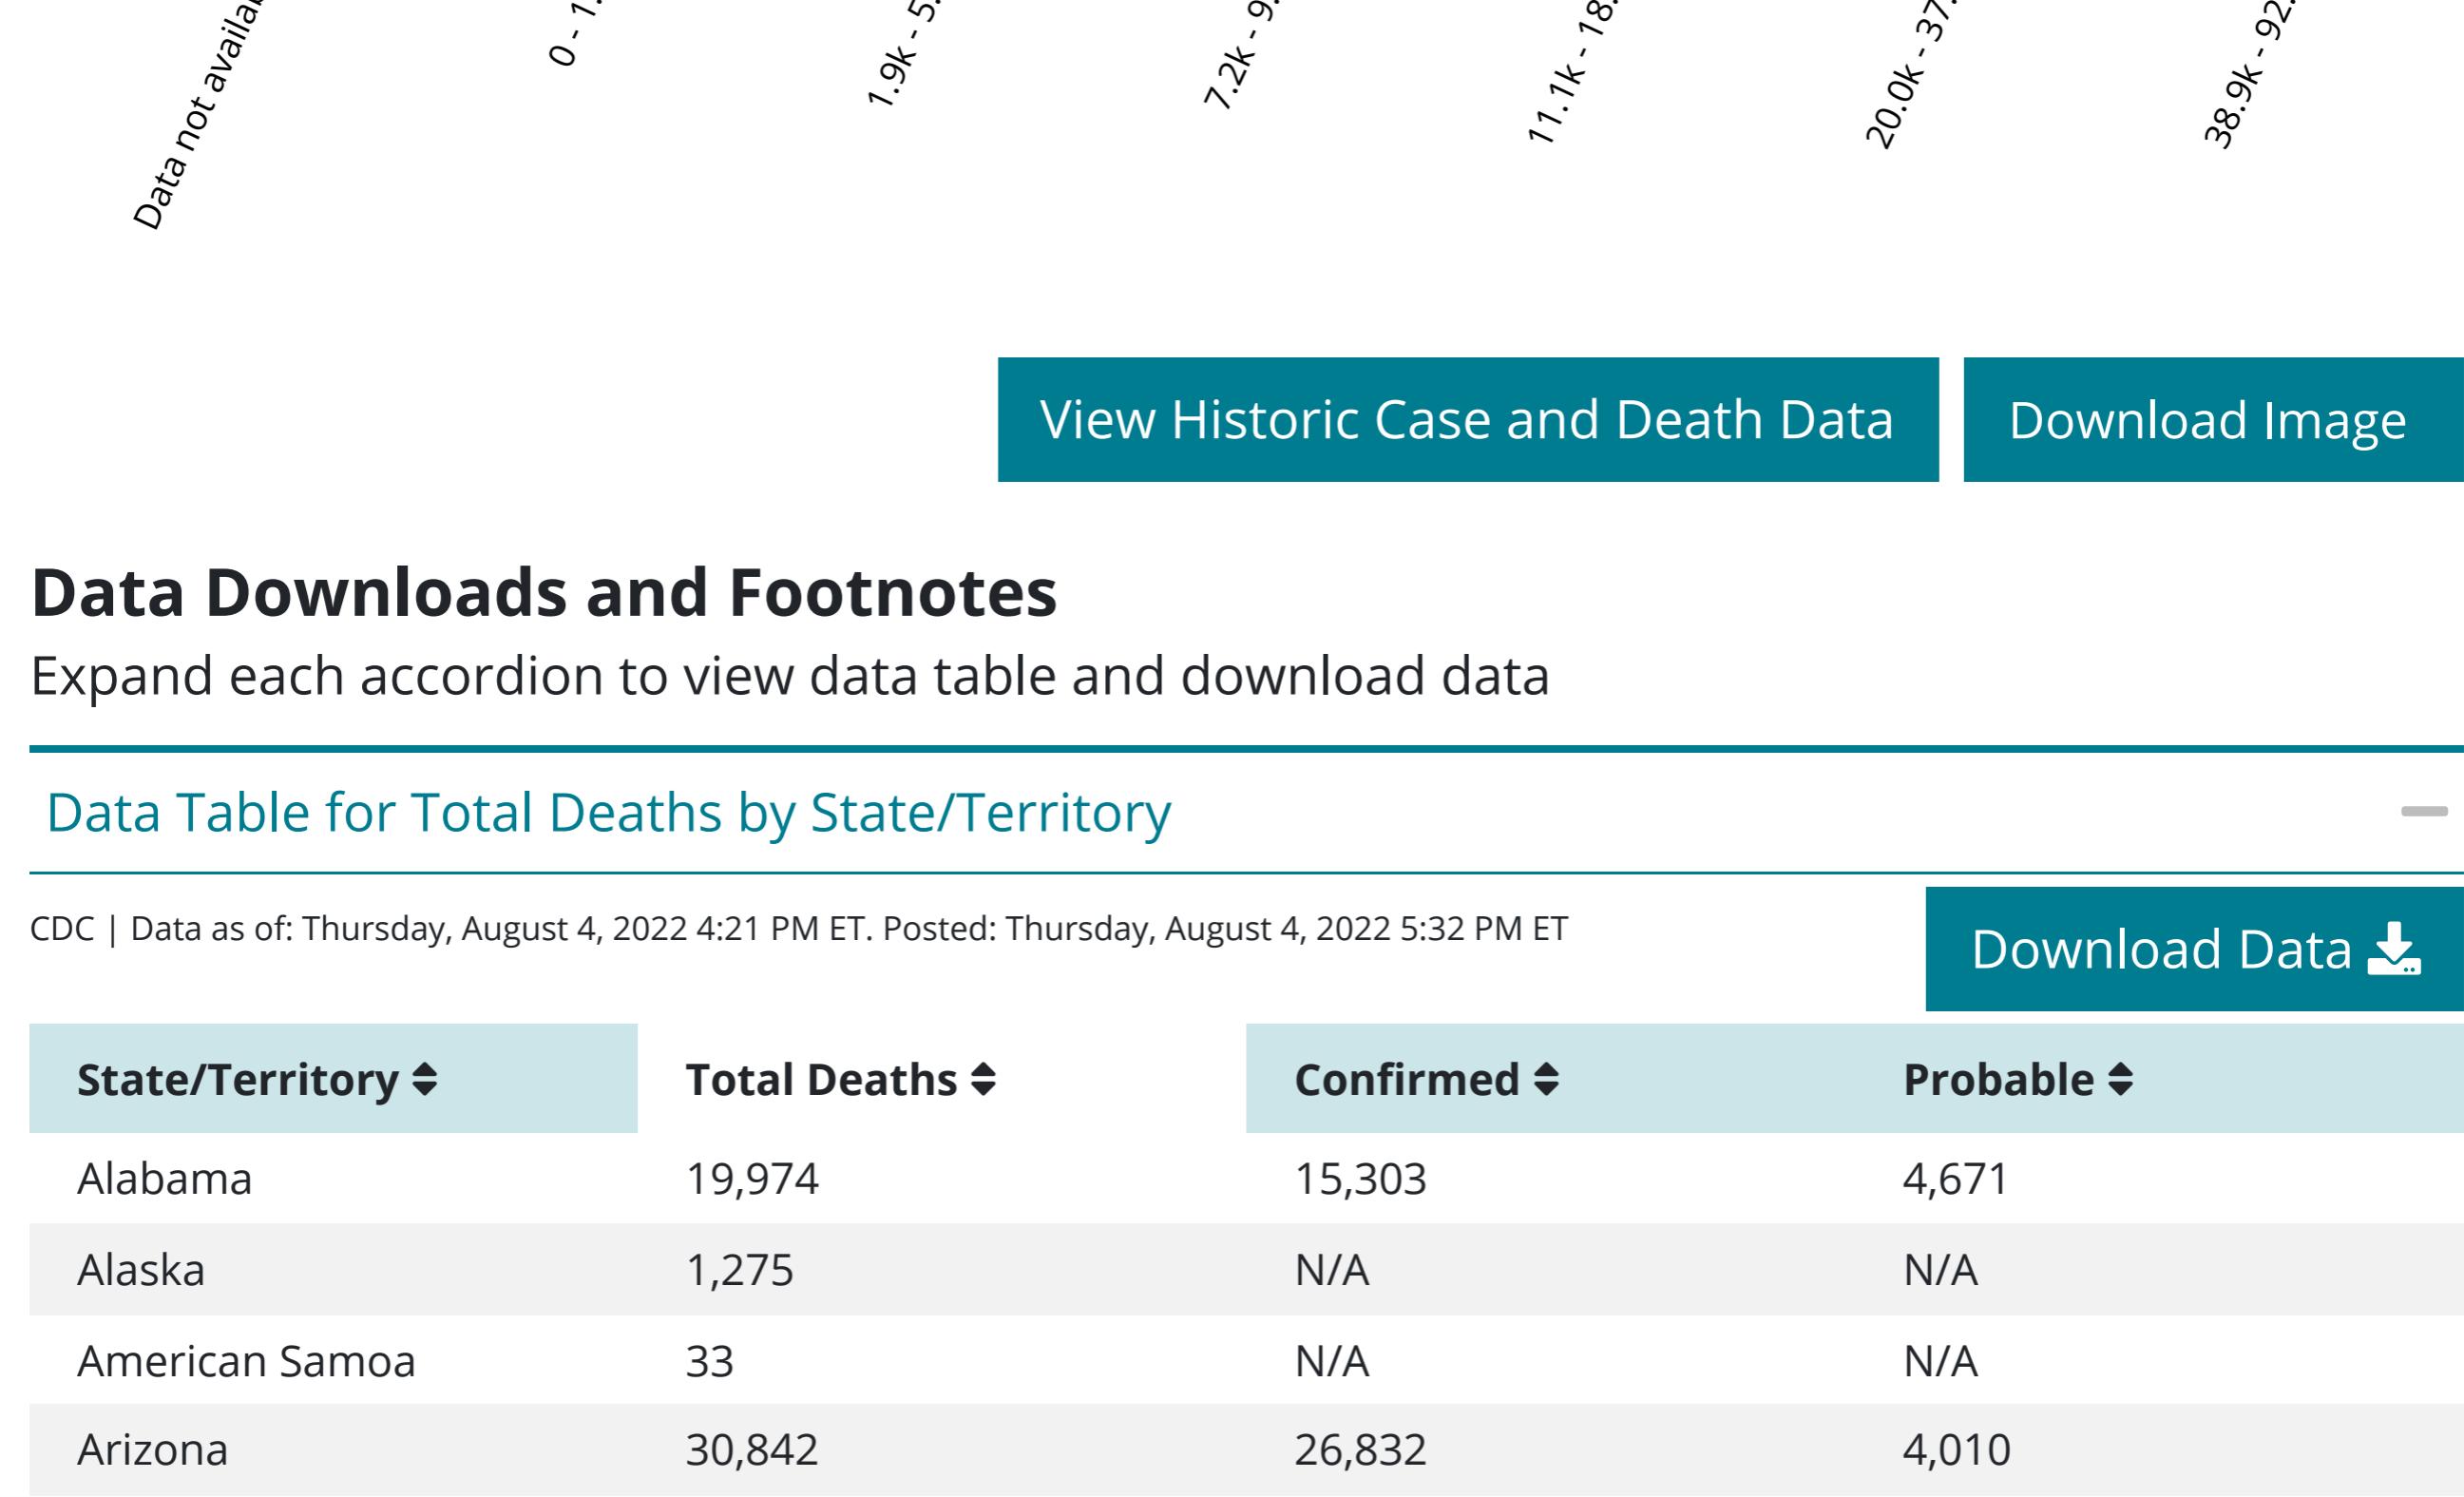

A choropleth map of the Western United States showing the distribution of the 2010 Census population by state. The map uses a color gradient where darker shades represent higher populations. California is the darkest blue, followed by Texas, Florida, and New York. Other states like Montana and Wyoming are the lightest green/yellow.

A map of the United States showing its territories. Alaska is colored light green, Hawaii is light green, Puerto Rico is teal, and the Virgin Islands are light blue. The continental United States is shown in white.

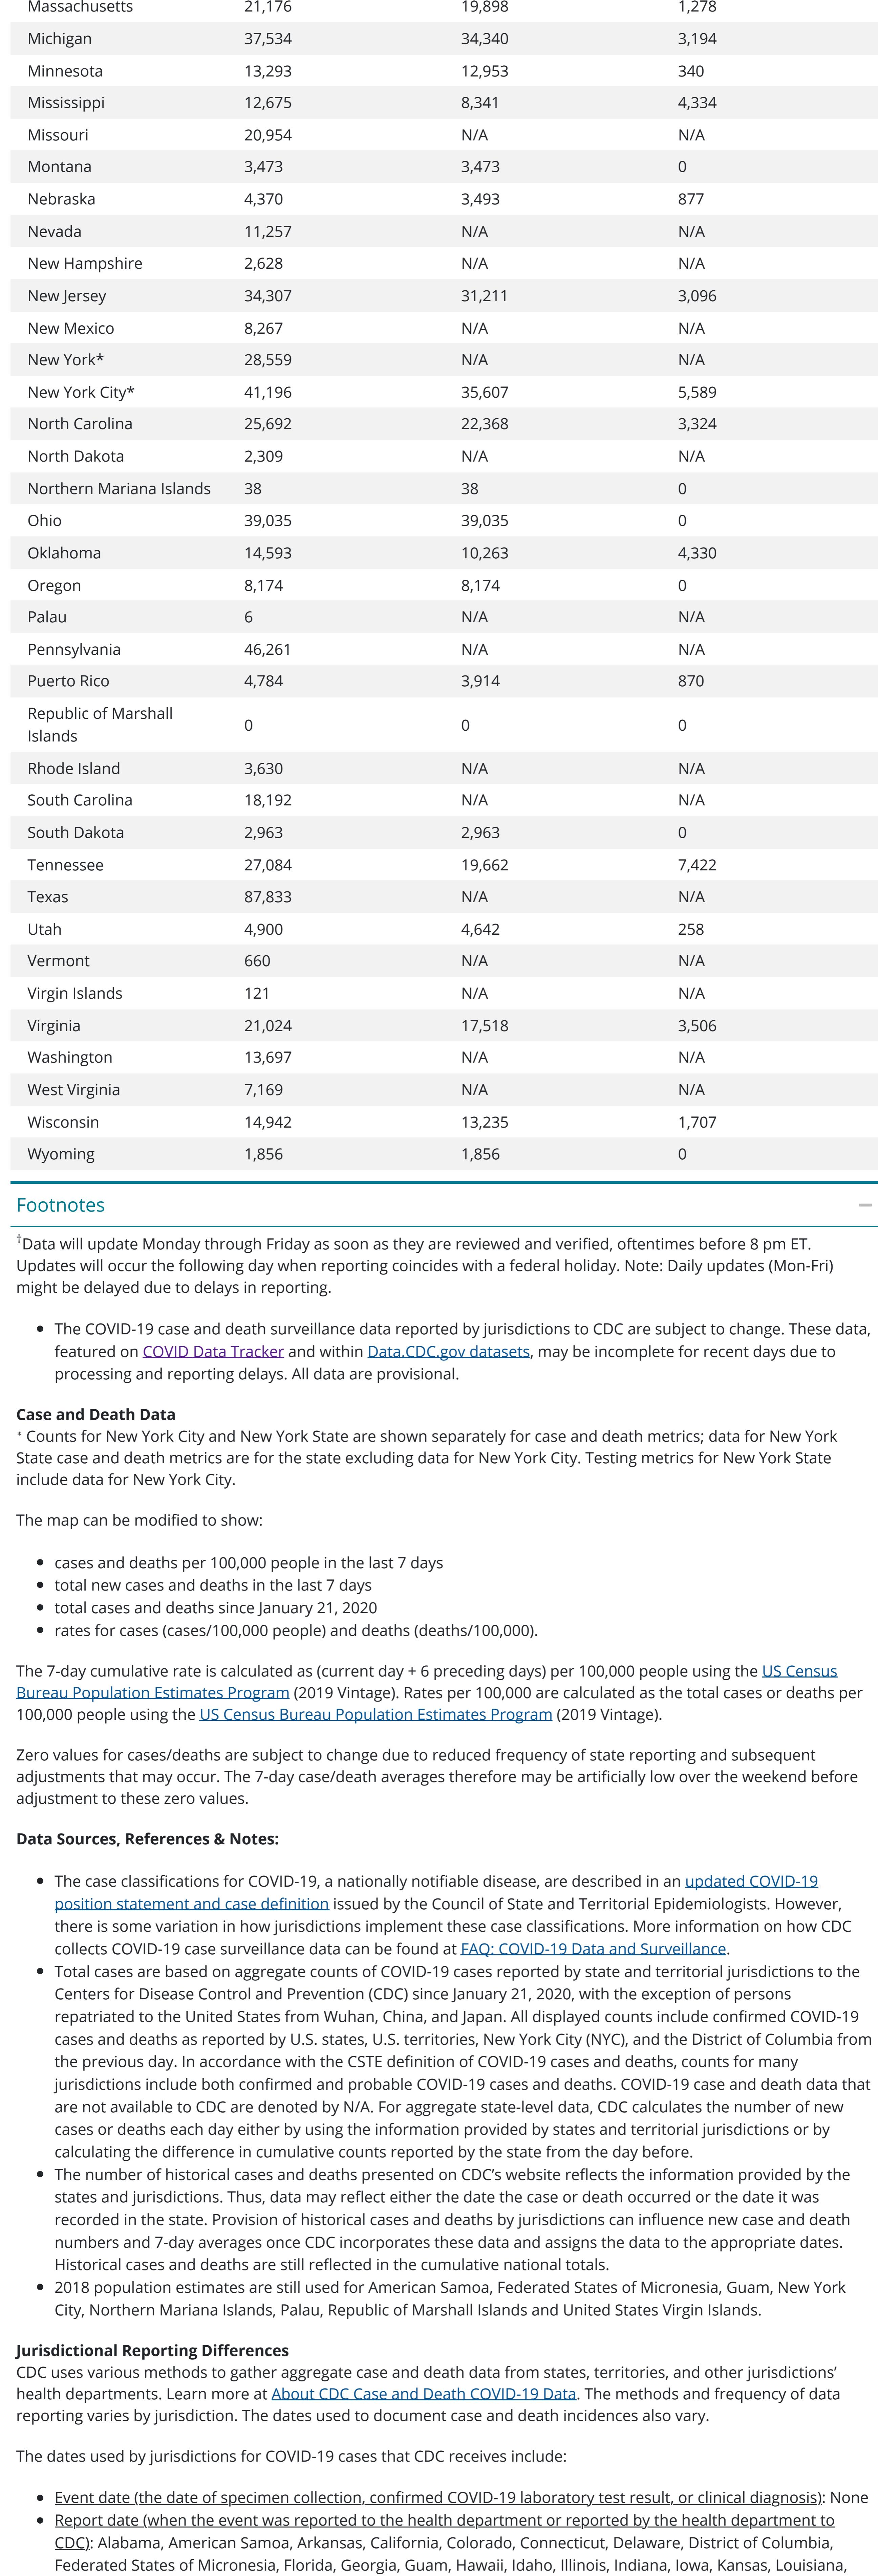

A map of the Federated States of Micronesia (FSM) divided into six administrative states (AS, FSM, GU, MP, PW, and R) outlined in black. The territories are colored as follows: AS (light green), FSM (dark grey), GU (light green), MP (light green), PW (light green), and R (light green). The label 'Territories' is positioned at the top right of the map.
