* Among persons who received a first dose ≥ 28 days earlier.

[†] Analysis of second dose receipt incorporates 7-day lag to account for reporting delays between vaccine administration and data report to CDC.

[§] Texas did not submit person-level vaccination data; therefore, persons who received ≥ 1 dose in Texas (23,264) were excluded from analysis of second dose receipt.

[¶] Does not include vaccine doses administered and reported by New York City (New York) or Philadelphia (Pennsylvania).
