## CDC Launches Website to Help Consumers Find Free COVID-19 Testing Sites

The Increasing Community Access to Testing (ICATT) program provides no-cost testing sites to communities greatly affected by the pandemic. ICATT sites operate as a partnership between the federal government, state and local jurisdictions, and a federal testing contractor.

The ICATT program provides testing resources for people who are experiencing [symptoms](#) related to COVID-19 or [have been exposed](#) to someone with COVID-19. People without health insurance do not have to pay for COVID-19 testing at ICATT locations. The tests are billed to third-party payers, such as Medicare, Medicaid, and private health insurers, to increase program sustainability.

For more information about the CDC Testing Locator website, visit [testinglocator.cdc.gov](https://testinglocator.cdc.gov). For more information about the ICATT program, visit [cdc.gov/icatt](https://cdc.gov/icatt).
