

FY2020

Centers for Disease Control and Prevention
Fiscal Year 2020 Grants Summary Profile Report for

Arkansas

This profile includes selected CDC grants and cooperative agreements provided to health departments, universities, and other public and private agencies in Arkansas. Refer to the "About the Data" section below for important qualifying statements about the data.

2020 Population Estimate: 3,030,522
Timeframe: 10/01/19 - 09/30/20

Table with 3 columns: CATEGORY, OBLIGATED AMOUNT, PERCENTAGE. Rows include Birth Defects, Chronic Disease Prevention, Cross-Cutting Activities, etc., with a Grand Total row.

Table with 2 columns: CATEGORY & SUB-CATEGORY, OBLIGATED AMOUNT. Rows include Birth Defects (Child Health, Health and Development) and Chronic Disease Prevention (Arthritis, Cancer, Diabetes, etc.).

FY2020

<b>CATEGORY &amp; SUB-CATEGORY</b>	<b>OBLIGATED AMOUNT</b>
School Health	\$364,849
Tobacco	\$154,090
Tobacco - PPHF (No-Year)	\$1,301,787
<b>Cross-Cutting Activities and Program Support</b>	<b>\$97,262,502</b>
Acute Flaccid Myelitis (AFM) - PPHF	\$139,670
Coronavirus Aid, Relief, and Economic Security Act	\$10,143,484
Coronavirus Preparedness and Response Supplemental	\$7,326,160
Disaster Relief Supplemental	\$64,850
Paycheck Protection Program and Health Care Enhancement Act – PHSSEF transfer for COVID	\$78,177,470
Preventive Health and Health Services Block Grant - PPHF (No-Year)	\$1,410,868
<b>Emerging and Zoonotic Infectious Diseases</b>	<b>\$1,775,682</b>
Advanced Molecular Detection (AMD)	\$315,029
Antibiotic Resistance Initiative	\$409,383
Epi and Lab Capacity Program - PPHF (No-Year)	\$539,846
Food Safety	\$152,365
Healthcare Associated Infections (HAIs) - PPHF (No-Year)	\$212,307
Other Emerging Infectious Diseases	\$14,580
Vector-borne Diseases	\$132,172
<b>HIV/AIDS, Viral Hepatitis, STI and TB Prevention</b>	<b>\$6,142,725</b>
Domestic HIV/AIDS Prevention and Research	\$4,208,851
Infectious Disease and Opioids Epidemic	\$244,637
Sexually Transmitted Infections (STIs)	\$945,633
Tuberculosis (TB)	\$590,347
Viral Hepatitis	\$153,257
<b>Immunization and Respiratory Diseases</b>	<b>\$3,026,192</b>
Immunization Program	\$198,422
Immunization Program - PPHF (No-Year)	\$2,519,996
Influenza/Influenza Planning and Response	\$307,774
<b>Injury Prevention and Control</b>	<b>\$3,955,885</b>
Drug Free Communities Support	\$250,000
Intentional Injury	\$425,361
NVDRS	\$263,123
Opioid Overdose Prevention and Surveillance	\$3,017,401
<b>Occupational Safety and Health</b>	<b>\$539,931</b>
National Occupational Research Agenda (NORA)	\$539,931
<b>Public Health Preparedness and Response</b>	<b>\$6,558,883</b>
Public Health Emergency Preparedness Cooperative Agreement	\$6,558,883

FY2020

<b>CATEGORY &amp; SUB-CATEGORY</b>	<b>OBLIGATED AMOUNT</b>
<b>Public Health Scientific Services (PHSS)</b>	<b>\$725,027</b>
Surveillance, Epidemiology, and Informatics	\$725,027
<b>Vaccines for Children</b>	<b>\$36,745,290</b>
Grant Awards	\$915,468
Vaccine Purchases	\$35,829,822
<b>Grand Total</b>	<b>\$169,726,790</b>

## Centers for Disease Control and Prevention Fiscal Year 2020 Grants Detail Profile Report for Arkansas

FY2020

### Data Included

- The grants and cooperative agreements data in this report include funding obligated and awarded (i.e., obligated funds) in fiscal year 2020 (FY20; 10/1/19 to 9/30/20) from CDC's domestic appropriations.
- In addition to including the value of cooperative agreements for immunization programs, the data also includes the value of vaccines purchased and provided through the Vaccines for Children program.
- Because the data includes funds obligated in FY20, it may include funding authorized through legislation passed in previous years, but only the amount actually obligated in FY20.
- The funding data is categorized by CDC budget line (i.e., by the CDC appropriation account used to make the investment), primarily as shown in CDC's [FY20 Operating Plan](#). Additional funding categories and subcategories also were included to capture FY20 COVID-19 supplemental funding, whether directly appropriated to CDC or through funding transfers from the Department of Health and Human Services (HHS), and funds transferred from HHS for the Drug Free Communities Support program.

### Data Excluded

- This data does not include any CDC expenditures, such as contracts, personnel, direct assistance, or other CDC operational and administrative costs.
- The following grants and cooperative agreements data were outside the scope of this profile and were excluded: funding of International activities, Reimbursable Agreements (funds from other federal agencies to support their missions), Cooperative Research and Development Agreements, Royalties, User Fees and Intra-Departmental Delegation of Authority funds (e.g., fund transfers to CDC from HHS; as noted in the "Data Included" section, there were two exceptions: funding transferred from HHS to CDC for the COVID-19 response and the Drug Free Communities Support program were included), Gifts and Donations, Global Health funds, and Buildings and Facilities funds.

*Therefore, the funding profiles data do not reflect CDC's total appropriations.*

### Data Sources

- Funding data is from the CDC Office of Financial Resources (for grants and cooperative agreement data) and the CDC National Center for Immunization and Respiratory Diseases (for Vaccines for Children vaccine purchase data)
- Population estimates for the United States, the District of Columbia, and Puerto Rico are from the 2010 U.S. Census, updated with 2020 estimates: [Annual Estimates of the Resident Population for the United States, Regions, States, the District of Columbia, and Puerto Rico: April 1, 2010 to July 1, 2020](#)
- Population estimates for all other U.S. territories and freely associated states are for July 2021 from [The World Factbook](#) (accessed 5/27/2021)

## Centers for Disease Control and Prevention Fiscal Year 2020 Grants Detail Profile Report for Arkansas

FY2020

### Data Interpretation and Use

- These data are useful as a snapshot of CDC grant and cooperative agreement funding provided to grantees within states, DC, and U.S. territories and freely associated states by CDC budget line. However, caution should be used in interpreting variations across years or jurisdictions. Several reasons for variations are (1) the amounts, purpose, and focus of funding provided by Congress each year can vary, and (2) changes in national and/or CDC/ATSDR priorities and strategies due to factors such as urgent and emerging health threats and changes in population health status and needs. In terms of funding opportunities, (1) not all eligible entities apply for every program opportunity, (2) most federal funding is awarded via a competitive or merit-based process and not all eligible entities that apply are funded for every program, and (3) some funding is allocated according to a pre-set formula (such as per capita allocation or a need-based funding allocation), which is sometimes specified in law.
- Users of this site and data should be aware of various factors that make comparisons of data between jurisdictions and by per capita difficult to interpret and may lead to inaccurate conclusions in the absence of more in-depth study. Some of those factors include the following:
  - CDC has many different grant types with varying application eligibility and award criteria such as population disease burden, per capita formula-based, competitive based on proposal merit, non-competitive, etc.
  - Awards made to an entity will typically reflect the geographic location of the entity's official business or billing address such as a State capitol for a State government award. The awards therefore will not reflect the actual geographic application of the funds by the grantee in carrying out the purpose of the grant.
  - CDC makes awards to various national associations that carry out national public health programs that have nationwide impact; however, the awards will be reflected in the geographic jurisdiction of the association's main office.
  - In addition, there may be variation across years for where a program/activity resides in CDC's organizational and budget structure. Funding sources linked to a particular program/activity may also vary year-to-year. Therefore, it is possible for a multi-year project to fall into one category or sub-category one year and into another the next. In addition, funding categories may be added or deleted as CDC's budget changes year to year (e.g., funding categories are deleted because their shorter-term funding sources expire). This makes 1:1 comparisons of one year's set of projects to another year's set of projects under each category or sub-category a challenge.
