# 5 Steps to the Rapid Community Assessment

**Step 1: Prepare for the assessment**

**Step 2: Plan for the assessment**

**Step 3: Collect and analyze data**

→ **Step 4: Identify solutions and report findings**

**Step 5: Evaluate your efforts**

# Objectives

## List 3-5 key Rapid Community Assessment (RCA) objectives for the population/community being served

- Example:
  - Develop body of evidence for County X to draw from in developing an outreach campaign to address disparities
  - Pilot new tools and approaches for conducting adolescent and digital RCA
  - Provide early insight into health concern or threat in County X

# Background

# [Insert Location] at a Glance

**Provide details about statistical data relating to the population and particular groups within it. Consider adding some photos of the location and other descriptors to add some eye-catching visuals to the presentation**

- Example: 60.7 percent of the population have a high school diploma or higher within County X

# Communities of Focus

## **List the specific communities or areas of focus within RCA population**

- Example: Cities of County X – Share City, Grace City, and Smile City

# Methods

# Methods Used

## **Provide a list of qualitative and/or quantitative methods used throughout the RCA**

- Example: 12 community partner interviews, 3 listening sessions, 5 online observations, and windshield tour of the County X

# People and Perspectives Included

**Consider providing icons (if available) and/or lists to show people and perspectives included in RCA.**

# Locations Visited

**Provide photos of various locations visited within the community. Consider inserting a map of the region and mark the places that were visited.**

# Findings

# What's Working Well?

## **Provide a list of “what is working well” within the community regarding the health concern or threat**

- Example: Community leaders are mobilized and have clear requests for services and resources

# What Challenges Exist?

## **Provide a list of the challenges discovered within the community regarding the health concern or threat**

- Example:
  - Difficult to locate young adults
  - Perception of disparities with neighboring communities
  - Lack of transportation

# Recommendations

# Recommendations

CHALLENGE [List challenges below]	RECOMMENDATION [List recommendations for each challenge below]
Ex: Difficult to locate young adults	Ex: Outreach activities targeting young adults
Ex: Perception of disparities with neighboring communities	Ex: Targeted placement of vaccine distribution sites based on social vulnerability
Ex: Lack of transportation	Ex: Provide rides via school buses, ambulances, church vans, and volunteer drivers.

# Lessons Learned

- THIS SECTION IS OPTIONAL

# Lessons Learned

## **Provide a list of examples and lessons gained regarding the RCA**

- Example:
  - Use a mix of different methods (e.g., community partner interviews, group listening sessions, observations)
  - Be open to following unexpected leads

# Next Steps

# Next Steps

**Provide a list of steps that should occur within communities of focus after the RCA is complete**

- Example: Develop operational proposals for implementing solutions in County X

# Acknowledgements

# Acknowledgements

**Provide a list of all community partners and organizations that contributed to the assessment.**
