

CDC's Bridge Access Program

[Vaccines Home](#) > [Programs](#)

What You Need to Know

CDC's Bridge Access Program provides no-cost COVID-19 vaccines to adults without health insurance and adults whose insurance does not cover all COVID-19 vaccine costs. No-cost COVID-19 vaccines through this program will be available until December 31, 2024. Use these resources to [promote the program](#) and [expand equitable access](#) for COVID-19 vaccinations.

Updated COVID-19 Vaccines Available for Adults at No Cost

Updated COVID-19 vaccines are available to most adults living in the U.S. at no cost through their private health insurance, Medicare, and Medicaid plans. However, there are 25-30 million adults without health insurance and additional adults whose insurance does not cover all COVID-19 vaccine costs. CDC's [Bridge Access Program](#) provides no-cost COVID-19 vaccines for these adults.

No-Cost COVID-19 Vaccines for Adults Without Health Insurance

Adults 18 years and older without health insurance and adults whose health insurance does not cover all COVID-19 vaccine costs can get updated COVID-19 vaccines at no cost through the Bridge Access Program.

Get No-Cost COVID-19 Vaccines Near You

You can get no-cost COVID-19 vaccines at healthcare providers, federally supported health centers, and retail pharmacy chains participating in the Bridge Access Program. Visit [vaccines.gov](#) to find providers that offer no-cost COVID-19 vaccines through the Bridge Access Program. Providers participating in the Bridge Access Program are contractually obligated to add vaccine availability to [vaccines.gov](#). We expect reported availability to increase in the coming days.
