

Division of Analysis and Epidemiology Activities

NCHS Board of Scientific Counselors

Irma Arispe, PhD, Director

Division of Analysis and Epidemiology

September 14, 2023

DAE and our Role within NCHS

Cross-cutting Research, Analysis, and Dissemination

- Enhance the utility of NCHS data
- Multiple data sources inform policies and programs to improve the Nation's health
 - Apply statistical techniques to integrate, analyze, and report data from multiple and diverse sources
 - Consult and advise on development, analysis, and interpretation of national health statistics
 - Develop data and tools to showcase NCHS data and model its use
- BSC Program Review and Reorganization, 2016
 - Measures Research and Evaluation
 - Data Linkage Methodology and Analysis
 - Population Health Reporting and Dissemination
 - Health Promotion Statistics
