

# Efforts to Address the CLIA Top 10 Laboratory Deficiencies - Introduction

*Gregg Brandush*

*Division of Clinical Laboratory  
Improvement and Quality*

*November 9, 2023*

## Federal Actions to address recurring deficiencies

- Data Assessment
- Survey consistency
- CDC Partnership
- Lab Director University

# Top Ten Deficiency Initiative

What are some obstacles laboratories encounter that lead to recurring deficient practices each year?

What resources would be most beneficial to the laboratory community to help eliminate deficient practices?

How can information on identifying and addressing the top deficiencies best be communicated to the laboratory community?

How can we increase awareness and engagement of the laboratory community to address issues that lead to common citations?
