

Prevalence of Dental Sealants by County, Connecticut 2016-2018

Sealant prevalence (%)

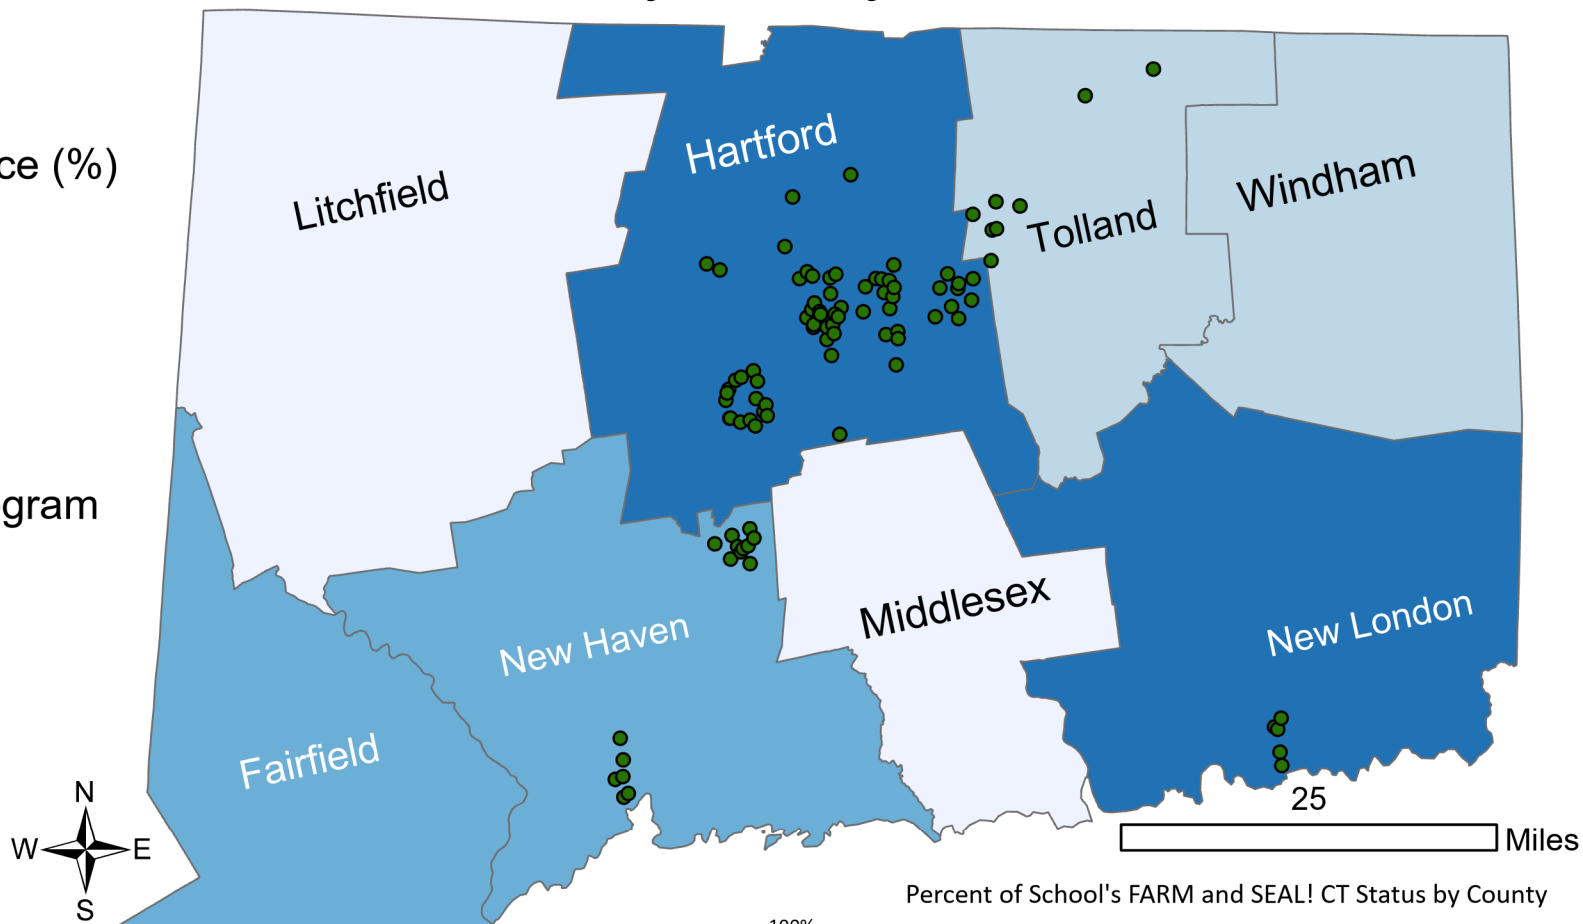

54.5 - 56.1

51.0 - 54.4

46.2 - 50.9

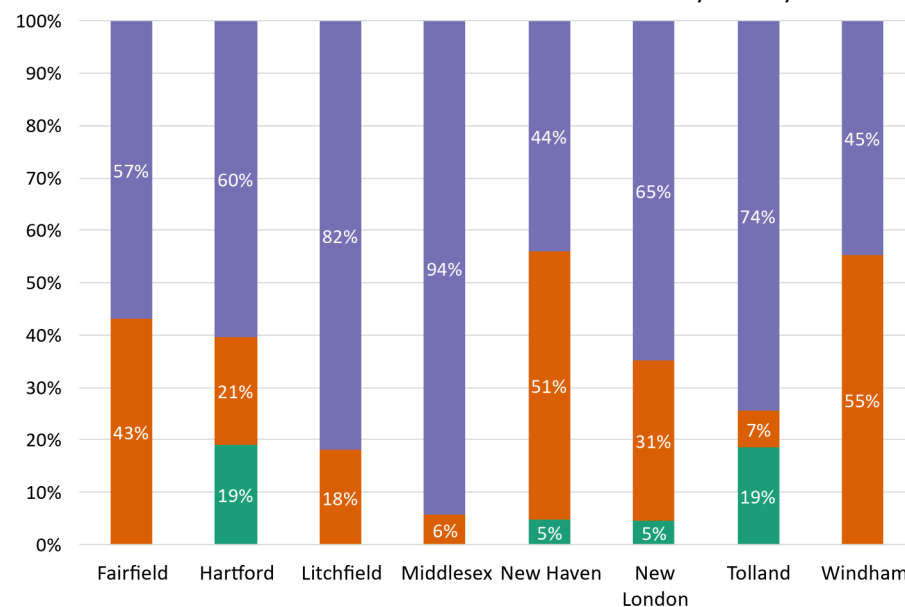

≤ 46.1

● SEAL CT! Program

■ < 50% FARM
■ ≥ 50% FARM
■ SEAL! CT School (≥ 50% FARM)

Percent of School's FARM and SEAL! CT Status by County

Behavioral Risk Factor Surveillance System (2016-2018)

Free and Reduced Meal (FARM) percentages from CT State Department of Education for school year 2018-2019

Sealant prevalence refers to the % of children, age 5-17 yrs old who received at least one sealant.

Due to low numbers, data for Litchfield and Middlesex Counties have been combined, and data for Tolland and Windham Counties have been combined. SEAL CT! Programs are funded by CDC for the 2019-2020 school year.
