## Medication Adherence Project Pharmacy Name

(3 of 4)

This Medication Adherence Project PHARMACY, known as \_\_\_\_\_, is located in \_\_\_\_\_ County.

Each community pharmacist was tasked with identifying at least 25 patients who have been taking antihypertensive medication for more than a year. Over the course of the project (nine months), the pharmacists would work with the patients individually to increase adherence rates using tools and resources provided (including rack cards, pill boxes, etc.)
