

# FY 2022 Public Health Crisis Response

## Notice of Funding Opportunity (NOFO) Fast Facts

CDC has published its fiscal year 2022 (FY 2022) Public Health Crisis Response NOFO, which is designed to enhance the nation's ability to rapidly respond to public health emergencies. This NOFO increases the speed at which CDC can award funds to state, local, tribal, and territorial public health agencies in the event of a public health emergency through the establishment of an "approved but unfunded" (ABU) list of response funding recipients. CDC activates this mechanism when it determines that a public health emergency has occurred or is imminent and funding is available.

### **Application Deadline: Monday, February 14, 2022**

Applicants are encouraged to use documents from previous emergency response funding applications, such as COVID-19 funding awarded through CDC's Public Health Crisis Response Cooperative Agreement in 2020, to fulfill application requirements.

### **Expected Number of Awards: 113**

**Eligible Applicants:** 50 states; eight U.S. territories and freely associated states; 50 localities; and federally recognized tribal governments that meet the NOFO requirements. See page 3.

### **Estimated Approval Date: Monday, February 21, 2022**

Recipients will be approved but unfunded until a crisis occurs, and funding is available.

**NOFO and Application Package Location:** [www.grants.gov](http://www.grants.gov).

## FY 2022 NOFO Changes

### **Eligibility Requirements**

To reach more jurisdictions directly, CDC has expanded responsiveness criteria for local governments. Local government organizations or their bona fide agents must:

- Serve a county population of 2 million or more or serve a city population of 400,000 or more. Populations for county and city jurisdictions are based on 2019 U.S. Census data.

There are no changes in the eligibility requirements for tribal governments or their bona fide agents, which:

- Must be federally recognized and:
- Serve a population of 50,000 or more.

The funding announcement will be open and continuous and remain on [www.grants.gov](http://www.grants.gov) for new local and tribal applicants to accommodate population changes over the five-year NOFO period of performance.

Control and Prevention  
Center for Preparedness and Response

### Strengthen Incident Management for Early Crisis Response

To strengthen emergency operations coordination, CDC encourages applicants to identify health equity officers or teams to ensure diversity, equity, and inclusion considerations are included in response plans.

## Application Submission

### Fiscal Year 2022 Public Health Crisis Response NOFO Application Components

- Detailed budget narrative\*
- Project abstract\*
- Project narrative\*
  - Including work plan
- Incident Management System structure for public health emergency response\*
- CDC assurances and certification
- SF-424 application for federal assistance
- SF-424A budget
- Indirect cost rate agreement
- Administrative capability letter\*\*
- Report on programmatic, budgetary, and commitment overlap
- Organizational chart for public health department or program

\*Applicants are encouraged to use documents from previous emergency response funding applications, such as COVID-19 funding awarded through CDC's Public Health Crisis Response Cooperative Agreement in 2020.

\*\* Letter signed by the public health director on departmental letterhead attesting to the existing capacity and capability for rapid procurement, hiring, and contracting, existing incident management structure for the department's public health emergency management program, organizational chart reflecting public health department's structure and placement of the emergency management program.

# Applicants Meeting Population Criteria Based on 2019 U.S. Census Data

## 50 States

### Local Health Departments Serving a County or City with a Population of Greater Than 2 Million

#### Arizona

Maricopa County Department of Public Health

#### California

County of Riverside Department of Public Health

County of San Diego Health and Human Services Agency (COSD HHSA)
