TS2Q02A Based on the ages you have given me, I now have some questions about your [FILL: AGE IN MONTHS OR AGE IN YEARS] old.

CONTINUE 1 GO TO S3_INTRO IN NIS CHILD

TIS_S3INELG The child who was selected is [FILL YAGESEL] years old. This survey is about adolescents who are between the ages 13 and 17 years old. The computer will now select another child.

CONTINUE 1

TIS_S3INTRO [IF NUMBTEEN > 1, THEN DISPLAY : "The computer randomly chose the child for the interview who is [FILL SELECTED TEEN AGE IN YEARS] years old [IF MULTIPLE, THEN DISPLAY: "named [FILL NAME FROM T_Y(age)NMx]] years old."] Most of the remaining questions will be about immunizations or shots [IF NUMBTEEN > 1, THEN DISPLAY: "he/she", ELSE DISPLAY: "your [FILL: SELECTED TEEN AGE IN YEARS] old"] may have received.

CONTINUE 1

CP_INTRO (1) IF TIS_S3INELG HAS BEEN READ, GO TO TIS_S3_MDY
(2) ELSE IF NIS INFORMED CONSENT (S3_INTRO) HAS NOT BEEN READ, GO TO TIS_INTRO1

TIS_INTRO1 Before we continue, I'd like you to know that taking part in this survey is voluntary. You may choose not to answer any questions you don't wish to answer, or end the interview at any time with no impact on the benefits you may receive. We are required by Federal laws to develop and follow strict procedures to protect your information and use your answers only for statistical analyses. I can describe these laws if you wish. I'd like to continue now unless you have any questions.

CONTINUE 1 GO TO TIS_S3_MDY
R ASKS FOR DESCRIPTION OF LAW 2

TIS_S3_LAW The Public Health Service Act is Volume 42 of the US Code, Section 242k. The collection of information in this survey is authorized by Section 306 of this Act. Through the National Center for Immunization and Respiratory Diseases, the confidentiality of your responses is assured by Section 308d of this Act. Would you like me to read the Confidential Information Protection provisions to you?

IF RESPONDENT WOULD LIKE TO HEAR PROVISIONS, READ:

The information you provide will be used for statistical purposes only. In accordance with Section 308d of the Public Health Service Act, your responses will be kept confidential and will not be disclosed in identifiable form to anyone other than employees or agents. Every employee who works on this survey, from the National Center for Immunization and Respiratory Diseases and its collaborating contractor, NORC at the University of Chicago, and their agents and contractors, has taken an oath to protect the confidentiality of your information. These employees are subject to disciplinary action, including fines and criminal charges that may result in imprisonment, if he or she willingly discloses ANY identifiable information about you or your household members. Additionally, in compliance with applicable federal law requiring the protection of federal computer networks from cybersecurity risks like hacking, internet attacks, and other security weaknesses, computer network experts working for, or on behalf, of the government, may intercept and review information sent through government networks for cyber threats if the information sent through the government network triggers a cyber threat indicator.

CONTINUE 1

TIS_S3

So I'll know which vaccination questions to ask, please tell me the month, day, and year of birth of [the child who is [FILL: SELECTED TEEN AGE IN YEARS] years old [IF MULTIPLE, THEN DISPLAY: "named [FILL NAME FROM T_Y(age)NMx]"]].

ENTER 77 / 77 / 7777 FOR DON'T KNOW

ENTER 99 / 99 / 9999 FOR REFUSED

IT IS ACCEPTABLE TO ENTER 77/99 FOR ANY PART OF THE DATE. FOR EXAMPLE: 77/12/2012.

MONTH	DAY	YEAR

After TIS_S3 and YAGESEL are computed, skip logic from TISS3MTH, TISS3DAY, TISS3YR can take place:

- (1) IF TISS3YR = 7777 (ANY VALUE FOR DAY AND MONTH), GO TO TISYRDK.
- (2) ELSE IF TISS3YR = 9999 (ANY VALUE FOR DAY AND MONTH), GO TO TISYRREF.
- (3) ELSE GO TO TIS3CONF

TIS3CONF

That would make this child [FILL YAGESEL] years old; is that correct?

FAQ:

IF RESPONDENT REFUSED DAY OF BIRTH AND CALCULATION IS OFF BY 1 YEAR:

For everyone who chooses not to give a day of birth, our system assumes the first of the month. If your child is nearing a birthday, this may slightly throw off the computer's calculation of your child's age. Because you have given the month and year of your child's birth, the information we collect will still be accurate. If you would like to give the day of birth, we can add that in the system and it will then give the correct age for your child. But it is not necessary to continue the interview.

YES..... 1

NO..... 2

(1) IF (TIS3CONF=1 AND TEENELIG=1 (i.e. YAGESEL = 13, 14, 15, 16, 17), THEN GO TO TIS_S4

SECTION D

Provider Questions

TIS_D5

[IF SHOT RECORDS PRESENT, THEN DISPLAY:]

To get a complete picture of the vaccinations received by your child, the Centers for Disease Control and Prevention would like to obtain a copy of your child's vaccination records from the doctors or health clinics who provided them. These records contain only the immunizations and dates of the immunizations for your child.

[ELSE DISPLAY:]

Thank you for the valuable information that you've shared with us. We find that it's often difficult to remember specifics about vaccinations. The Centers for Disease Control and Prevention would like to collect the dates and types of vaccinations your child has received from the doctors or health clinics who provided them.

READ IF NECESSARY: Information we collect from you and your health care provider will be used to monitor and report on childhood immunizations. Last year, over 21,000 providers participated in this study. You and your provider's participation will help the CDC prevent many serious childhood diseases.

FAQ HELP:

I've already given you the shot dates/Why do you need to contact my doctor?

-- The doctor's office has information about the exact brands or types of vaccines that were given, and this information is needed to track vaccination rates for each vaccine.

-- In order to standardize the type of information that we receive, it is required that we contact providers directly. We also ask providers a few questions about the characteristics of their practice or clinic, so that we can accept only immunization history forms filled out by health care providers.

That's too personal:

-- I understand your concern. Confidentiality is mandated by law and I can assure you that the Centers for Disease Control and Prevention will only receive the immunization information. We remove all names from the immunization information so that neither you nor the child will be identified as a participant.

-- The National Immunization Survey has been conducted for over 20 years (since 1994). Each year we receive immunization histories from over 20,000 doctors and clinics; in fact, your doctor may have already taken part.

-- Only the information related to the child's immunization history is requested; no other medical information or identifiable information is included.

What will this information be used for?

.-. Information we collect is used to summarize childhood immunization rates in your community and to study vaccine shortages. States use this information to develop health care policies and determine where funding is most needed for federal vaccine programs. With this information, the CDC can also identify where providers are ordering their vaccines and which types are being ordered.

.-. The (IF GUAM DISPLAY: 'Department of Public Health and Social Services and the' ELSE IF PUERTO RICO DISPLAY "Puerto Rico Department of Health and the") Centers for Disease Control and Prevention uses the information we collect to determine if individual states are meeting the vaccination goals set for them by the Childhood Immunization Initiative.

What are you sending to my doctor?

If you'd like to see the form we send to your doctor, I would be happy to send you an email or text you a link to the actual form they receive.

TIS_D6_X [IF PUERTO RICO THEN DISPLAY:]

How many locations have provided vaccinations for your child [named TEEN] whose birth date is [FILL1]?

Please include hospitals, school and workplace clinics, juvenile detention centers, emergency rooms, pharmacies or drug stores, and any other clinics, doctor's offices, or Vaccination Centers that have provided vaccinations for [him/her].

READ IF NECESSARY: Has [FILL FROM TIS_S5: TEEN NAME] received any vaccinations at any Vaccination Centers?

[ELSE DISPLAY:]

How many locations have provided vaccinations for your child named [FILL FROM TIS_S5: TEEN NAME] whose birth date is [FILL1]?

Please include hospitals, school and workplace clinics, juvenile detention centers, emergency rooms, pharmacies or drug stores, and any other clinics or doctor's offices that have provided vaccinations for [him/her].

FAQ HELP:

Why contact my doctor? Why give consent?

The information you've provided is very helpful and we appreciate your cooperation; however, to get the most accurate vaccination history of your child, we need to contact your child's healthcare provider. They will be able to confirm the dates and specific types of each vaccination.

.-. The Adolescent Survey is part of the National Immunization Survey. The NIS has been conducted for over 20 years (since 1994). Each year we receive immunization histories from over 20,000 doctors and clinics; in fact, your doctor may have already taken part in this survey.

.-. Information collected helps to identify communities where additional resources may be needed for vaccination programs.

.-. Because vaccinations play an important role in reducing and eliminating childhood and adolescent diseases, we need dependable, up to date statistics (from this study). Public health agencies in your area rely on this information when making decisions and evaluating health care programs in your area.

.-. In 2001 there were shortages of the DTaP and MMR vaccines. Data collected by this survey indicated that certain populations were more affected by these shortages than others. Based on these findings, changes were made to ensure a more even distribution of vaccines during future shortages.

.-. The (IF GUAM DISPLAY: 'Department of Public Health and Social Services and the' ELSE IF PUERTO RICO DISPLAY "Puerto Rico Department of Health and the") Centers for Disease Control and Prevention uses the information we collect to determine if individual states are meeting the vaccination goals set for them by the Childhood Immunization Initiative.

Why can't I just get the information from my doctor and send it to you?

.-. In order to standardize the type of information that we receive, it is required that we contact providers directly. We also ask providers a few questions about their practice or clinic, so we can accept only vaccination history forms filled out by health care professionals.

What are you sending to my doctor?

If you'd like to see the form we send to your doctor, I would be happy to send you an email or text you a link to the actual form they receive.

TIS_D6R

Vaccination information from doctors and clinics is often the most up-to-date and comprehensive. So, in order to obtain the most complete information possible about children's vaccinations, we need to collect the vaccination histories from both the parents or guardians of the children and the doctors and clinics that provide the immunizations.

All information about your child and your child's health care provider is held in strict confidence and used for study purposes only. Any names of children, as well as any names of doctors or clinics, will not be used in reporting the study results. We will never release any information that may identify you or your child.

DO NOT EXIT TO THE UE AT THIS QUESTION TO ENTER A REFUSAL OF THE NAME

DO NOT TYPE REF, REFUSE, REFUSED, REFUSAL, ETC AT THIS QUESTION

FAQ HELP:

I'm not comfortable with that/I don't want to give you my child's name.

I understand your concern. The only reason we request your child's name is so that doctor can locate the child's vaccination records. Confidentiality is mandated by law and I can assure you that the Centers for Disease Control and Prevention will only receive the immunization information. We remove all names from the immunization information so that neither you nor the child will be identified as a participant.

Why do you need the child's name?

In order to locate the vaccination information for the child, the medical practice or clinic needs the child's name. This is the only reason we are asking for the child's name.

-- Confidentiality is mandated by law and I can assure you that the Centers for Disease Control and Prevention will only receive the immunization information. We remove all names from the immunization information so that neither you nor the child will be identified as a participant.

--The U.S. Public Health Service Act requires that identifying information (such as names) cannot be associated with the information you and your doctor provide. Once information is gathered, names are separated from the data and are not used again.

--If you would feel more comfortable, I could enter just the child's first initial and the full last name.

What are you sending to my doctor?

If you'd like to see the form we send to your doctor, I would be happy to send you an email or text you a link to the actual form they receive.

 Why do you need my name?
 Before they can fill out the form, medical practices and clinics need the name of the person
 authorizing the release of the information. This is the only reason we are asking for your name.
 -- Confidentiality is mandated by law and I can assure you that the Centers for Disease Control
 and Prevention will only receive the immunization information. We remove all names from the
 immunization information so that neither you nor the child will be identified as a participant.
 --The U.S. Public Health Service Act requires that identifying information (such as names)
 cannot be associated with the information you and your doctor provide. Once information is
 gathered, names are separated from the data and are not used again.
 What are you sending to my doctor?
 If you'd like to see the form we send to your doctor, I would be happy to send you an email or
 text you a link to the actual form they receive.

TIS_D6C The vaccination records collected from the provider(s) will be kept in strict confidence.

TIS_D7_ID Capture Interviewer ID upon entering question D7

TIS_D7 Do we have your permission to contact the provider(s) named in this interview, give the provider(s) basic information that identifies your child, and request that information relevant to your child's immunization history be sent to the (IF GUAM DISPLAY: 'Department of Public Health and Social Services and the' ELSE IF PUERTO RICO DISPLAY "Puerto Rico Department of Health and the") Centers for Disease Control and Prevention or its contractors for study purposes only?

FAQ HELP:

What am I consenting to? What is going to happen if I say 'yes' to this?

With your permission, we'll send a letter of consent and an immunization history form to your health care provider. The form shows the names of vaccinations (like a shot card), and they will fill in the specific type and date for each immunization.

-- We don't collect any additional medical information about your child. We are asking for your consent to collect only the immunization history.

-- Once your child's doctor returns the form to us, we remove all names before reporting the information to the Centers for Disease Control and Prevention. When the data are used by CDC and other researchers, they have no way of knowing you or your child participated in the survey.

-- In order to collect complete data, we need information from both you and your doctor. The success of this survey depends on the voluntary cooperation of thousands of concerned households (like yours).

-- Your household represents many others in your area because of the scientific process to randomly select telephone numbers. We hope that you will choose to participate because your household cannot be replaced.

Why contact my doctor? Why give consent?

The information you've provided is very helpful and we appreciate your cooperation; however, to get the most accurate vaccination history of your child, we need to contact your child's healthcare provider. They will be able to confirm the dates and specific types of each vaccination.

-- The National Immunization Survey, which the Adolescent Survey is part of, has been conducted for about 20 years (since 1994). Each year we receive immunization histories from over 20,000 doctors and clinics; in fact, your doctor may have already taken part in this survey.

-- Information collected helps to identify communities where additional resources may be needed for vaccination programs.

-- Because vaccinations play an important role in reducing and eliminating childhood and adolescent diseases, we need dependable, up to date statistics (from this study). Public health agencies in your area rely on this information when making decisions and evaluating health care programs in your area.

I'm not comfortable with that:

I understand your concern (sir/ma'am). Let me explain what happens. With your permission, we'll send a letter of consent and an immunization history form to your health care provider. The form shows the names of vaccinations (like a shot card), and they will fill in the specific type and date for each immunization. Once your child's doctor returns the form, we remove all names from the immunization information we collect. When the data are used by CDC and other researchers, they have no way of knowing you or your child participated in the survey.

-- We don't collect any additional medical information about your child. We are asking for your consent to collect only the immunization history.

I don't want you to contact my doctor:

In order to collect complete data, we need information from both you and your doctor. The success of this survey depends on the voluntary cooperation of thousands of concerned households (like yours).

-- Your household represents many others in your area because of the scientific process to randomly select telephone numbers. We hope that you will choose to participate because your household cannot be replaced.

What are you sending to my doctor?

(SUGGESTED TEXT IF THE RESPONDENT HAS A QUESTION)

What is a registry?

Immunization registries are confidential, population-based, computerized information systems that attempt to collect vaccination data about all children in a geographic area.

Why do you need to contact a registry?

Vaccination information from doctors and clinics sometimes is not complete or available. So, in order to get the most complete information possible about children's vaccinations, we also need to contact local registries to collect vaccination information.

TIS_DCG I would like to confirm that I have the correct information for you and the children in this household.

[INTERVIEWER: CONFIRM ALL NAMES AND SPELLINGS WITH THE RESPONDENT. IF LAST NAMES ARE THE SAME, MAKE SURE THEY HAVE THE SAME SPELLING]
