

Supplemental Figure 2. Kaplan Meier probabilities for initiating COVID-19 vaccination based on dates of eligibility by eligible age cohort, District of Columbia, February 6 – April 16, 2022. Panel A shows probabilities for the first COVID-19 dose, and Panel B shows probabilities for the second COVID-19 dose in the primary series for the Pfizer and Moderna vaccines.

<sup>1</sup>Availability of COVID-19 vaccinations based on DC Health's eligibility criteria are as follows: January 11, 2021 for 65+ years old; January 25, 2021 for preK-12 education staff; February 25, 2021 for 16-64 years old with qualifying medical conditions; April 19, 2021 for 16+ years old; May 13, 2021 for 12+ years old, and November 3, 2021 for 5+ years old.

<sup>2</sup>The second COVID-19 dose should have been administered at least 21 days and 28 days after the first dose for the Pfizer and Moderna vaccines, respectively.
