

A Lesson on Hepatitis B That Could Save Your Life

CDC recommends Asian Americans get tested for Hepatitis B

  **Hepatitis B is spread through direct contact with infected blood.**

 **Sharing food or utensils will not spread the Hepatitis B virus. It does not spread through air.**

Most people were infected at birth or in early childhood.

Hepatitis B is the leading cause of liver cancer for Asian Americans.

 **Ask your doctor about getting tested for Hepatitis B. Treatments are available that can save your life.**
