ABOUT ACBCYW

ACBCYW Goal

To provide advice and guidance regarding research, development, implementation and evaluation of evidence-based activities to prevent breast cancer and promote early detection and support of young women diagnosed with breast cancer.

Overview of Several ACBCYW 2015 Recommendations

Education and outreach initiatives targeting

- young women at high risk
- the public
- providers, researchers, members of the healthcare system

Overview of Several ACBCYW 2015 Recommendations

To promote awareness among young women about the

- likelihood of being diagnosed
- race-specific cancer risk
- subtle signs and symptoms
- importance of understanding their risk profile
- adopting healthy lifestyle practices

Overview of Several ACBCYW 2015 Recommendations

To provide resources and promote research in areas poorly understood or underfunded with regard to breast cancer risk in young women, including

- socioeconomic factors
- environmental factors
- risk among sexual and gender minority populations

Overview of Several ACBCYW 2015 Recommendations

Utilize advances in healthcare and electronic medical record systems that can both reach women and providers need to be developed

- Audiences: PCP physicians, students in health profession schools, nurse practitioners, physician assistants
- Strategies: organizational meetings, licensing and accreditation bodies, health professional school's curriculum, advocacy organizations' trainings, insurance providers, health plan medical directors

Overview of Several ACBCYW 2015 Recommendations

- Further research is critical and remains to be conducted to measure effectiveness of outreach to medical providers.
- Further support should be considered for groups currently conducting activities targeting healthcare providers.

ACBCYW Website

The screenshot displays the ACBCYW website interface. At the top left is the CDC logo with the text "Centers for Disease Control and Prevention" and "CDC 24/7: Saving Lives. Protecting People™". To the right is a search bar and a link to "A-Z Index". Below this is a teal header bar with the text "Breast Cancer". Underneath the header is a breadcrumb trail: "CDC > Cancer Home > Breast Cancer > Breast Cancer in Young Women". On the right side of the header are social media icons for Facebook, Twitter, LinkedIn, Email, and YouTube. The main content area is divided into a left sidebar and a main panel. The sidebar contains a "Breast Cancer" section with a home icon, and a "Breast Cancer in Young Women" section with a minus icon. Under the latter are links for "Bring Your Brave Campaign", "Advisory Committee on Breast Cancer in Young Women" (highlighted), "Members", "Meetings", "Meeting Registration", and "Statistics". The main panel features the title "Advisory Committee on Breast Cancer in Young Women" followed by a paragraph about the committee's establishment under the EARLY Act. Below this is another paragraph about the committee's mission. Further down are links for "charter" (with a PDF icon), "members", and "meetings". The section "Contact Information" follows, with a paragraph providing contact details for CDC-INFO. At the bottom of the main panel is a link to "CDC-INFO's information request form".

Advisory Committee on Breast Cancer in Young Women

CDC has convened an Advisory Committee on Breast Cancer in Young Women (ACBCYW), a federal advisory committee established by the Education and Awareness Requires Learning Young (EARLY) Act, section 10413 of the Patient Protection and Affordable Care Act (Public Law 111-148). The EARLY Act authorizes CDC to develop initiatives to increase knowledge of breast health and breast cancer among women, particularly among those under the age of 40 and those at heightened risk for developing the disease.

The ACBCYW helps CDC develop evidence-based approaches to advance understanding and awareness of breast cancer among young women through prevention research, public and health professional education and awareness activities, and emerging prevention strategies.

For more information, please review the advisory committee [charter](#) [PDF-103KB], the list of [members](#), and information about [meetings](#).

Contact Information

For information about breast cancer, call CDC-INFO at 1-800-CDC-INFO (1-800-232-4636); TTY: 1-888-232-6348, or use CDC-INFO's [information request form](#).
