

Rapid Testing Support: Distributing Testing Supplies

In January 2022, ELC began working with jurisdictional partners to allocate 5 million rapid, point-of-care tests per month to schools (approximately 1.25 million tests per week). All ELC recipients can submit prioritized requests to CDC on a weekly basis for high-need school districts that can put these tests to use immediately. CDC is allocating available tests each week based on the prioritized lists of school districts from ELC recipients (64 state, local, and territorial health departments), social vulnerability index, and feasibility of immediately implementing testing to address a critical gap and sustain in-person education.

As of February 18, 2022

*There are a number of reasons that allocations might not match requests including duplicate orders, schools not ready to implement testing, and the number of requests exceeding supply for a given week
