

PROJECT FIRSTLINE IS FOR YOU

PROJECT
FIRSTLINE

CDC's National Training Collaborative
for Healthcare Infection Prevention & Control

CS320316-A

Topic 1: The Concept of Infection Control

[Date of training]

Agenda:

Introduction

Project Firstline and the concept of infection control

Video

Discussion and reflection

Session feedback form and next steps

Learning Objectives:

Articulate at least one (1) primary goal of infection control

Introductions

- Please be prepared to introduce yourself, answering the questions below:
 - Name, title, affiliation
 - What brings you here today?
 - Is there something you're especially hoping to discuss?

Why do we do infection control?

As you watch, consider the following questions:

1. What does Dr. Carlson highlight as the goal of infection control? How closely does it match our own personal reasons for engaging in infection control?
2. What is Project Firstline?
3. What ideas from this video seem most important to you? Why?
4. Dr. Carlson talks about several challenges we face working in healthcare right now. Which of these issues are most important to you?

INSIDE INFECTION CONTROL

WHAT'S THE GOAL OF INFECTION CONTROL?

EPISODE 1

Breakout Session (with group)

Reintroduce yourselves (if needed) and decide who will take notes and be your spokesperson when we reconvene

1. What does Dr. Carlson highlight as the goal of infection control? How closely does it match our own personal reasons for engaging in infection control?
2. What is Project Firstline?
3. What concepts from this video seem most important to you? Why?
4. Dr. Carlson talks about several challenges we face working in healthcare right now. Which of these issues are most important to you?

Let's Reconvene

1. What does Dr. Carlson highlight as the goal of infection control? How closely does it match our own personal reasons for engaging in infection control?
2. What is Project Firstline?
3. What concepts from this video seem most important to you? Why?
4. Dr. Carlson raises several challenges related to working in healthcare right now. Which of these issues are most important to you?

Upcoming Session Topics

Coming Up Next:

- The Basic Science of Viruses
- How Respiratory Droplets Spread COVID-19
- How Viruses Spread from Surfaces to People
- How COVID-19 Spreads: A Review

Broader Themes and Topics:

- Infection Control: The Basics
- Source Control
- PPE: Basics
- PPE: Donning and Doffing
- Hand Hygiene
- Crisis Standards of Care
- Triage
- Standard and Transmission-Based Precautions
- Microbiology Basics
- Recognizing Risk

Questions Covered

- SARS-CoV-2 is a virus. What's a virus?
- How do viruses make you sick?
- How does a virus like SARS-CoV-2 get from one person to another: what is a respiratory droplet?
- What happens when we breathe in these droplets?
- What happens when these droplets get in our eyes?
- Exposure does not always mean infection: why?
- What makes us feel sick?

...and many more

What's one action you can take to support infection control in the workplace?

- Is it something you can do for yourself? Does it build on something you already do?
- Is it something you can do for others?
- Is it thanking some else for something that makes your job easier?

Key Messages

- The goal of everything we do in infection control, for any disease, is to keep people from getting sick.
- The goal of Project Firstline is to make sure you have the infection control knowledge that you need and deserve to keep yourself, your patients, your colleagues, and your family safe.
