

# COVID Data Tracker

Maps, charts, and data provided by CDC, updates Mondays and Fridays by 8 p.m. ET

COVID-19  
Home  
>

Effective May 1, 2024, hospitals are no longer required to report COVID-19 hospital admissions, hospital capacity, or hospital occupancy data to HHS through CDC's National Healthcare Safety Network (NHSN). CDC encourages ongoing, voluntary reporting of hospitalization data. Data voluntarily reported to NHSN after May 1, 2024, will be available starting May 10, 2024, at [COVID Data Tracker Hospitalizations](#).

The source of hospital information on the COVID Data Tracker home page will change from the National Healthcare Safety Network (NHSN) to COVID-NET. Instead of displaying national counts of new hospital admissions, it will show COVID-19 hospitalization rates per 100,000 people. More information on COVID-Net is available on [COVID-NET Laboratory-confirmed COVID-19 Hospitalizations](#).

## COVID-19 Update for the United States

### Early Indicators

#### Test Positivity >

% Test Positivity

3.1%

(April 28 to May 4, 2024)

Trend in % Test Positivity

**+0.1%** in most recent week

#### Emergency Department Visits >

% Diagnosed as COVID-19

0.3%

(April 28 to May 4, 2024)

Trend in % Emergency Department Visits

**-7.6%** in most recent week

### Severity Indicators

#### Hospitalizations >

Hospitalization Rate per 100,000 population

1.1

(April 14 to April 20, 2024)

Trend in Hospitalization Rate

**-26.7%** from Apr 14 to Apr 20

#### Deaths >

% of All Deaths in U.S. Due to COVID-19

0.7%

(April 28 to May 4, 2024)

Trend in % COVID-19 Deaths

**No change** in most recent week

These early indicators represent a portion of national COVID-19 tests and emergency department visits. [Wastewater](#) information also provides early indicators of spread.
