

MPOX

Mpox Vaccines - Do you need one?

Get the vaccine if you

- ✓ Are a gay, bisexual, or other same-gender loving man who has sex with men or are transgender, gender non-binary, or gender-diverse.
- ✓ Have had sexual or intimate contact with someone who may have mpox. Get vaccinated as soon as possible after exposure, regardless of your sexual or gender identity.

AND if you, in the last 6 months, have had or expect to have

- ✓ One or more sexually transmitted infections
- ✓ A weakened immune system because of another illness, like HIV
- ✓ Sexual or intimate contact with a person who is at risk of mpox
- ✓ Anonymous sexual or intimate contact, or more than one sexual partner

Get both doses unless

- ✗ You had a severe allergic reaction (such as anaphylaxis) after getting your first dose of the JYNNEOS vaccine.

Two doses provide the best protection

DOSE 1

4 WEEKS

DOSE 2

2 WEEKS

Max protection

If you don't want the vaccine given in your forearm, you can get it in your upper back or shoulder instead.
