

CDC Publishing Agreement & Manuscript Cover Sheet

By signing this Cover Sheet, the Author, on behalf of CDC, agrees to the provisions set out below, which **modify and supersede**, solely with respect to CDC, any conflicting provisions that are in the Publisher's standard copyright or publishing agreement (the "Publisher's Agreement"), whether in paper or digital format. If a Publisher's Agreement is attached, execution of this Cover Sheet constitutes an execution of the Publisher's Agreement, subject to the provisions and conditions of this Cover Sheet.

1. **Indemnification.** No Indemnification or "hold harmless" obligation is provided by either party.

2. **Governing Law.** This Agreement shall be construed and interpreted according to U.S. federal law.

3. **Copyright.** Author's contribution to the Work was done as part of the Author's official duties as a CDC employee and is a Work of the United States Government. Therefore, copyright may not be established in the United States. 17 U.S.C. § 105. If Publisher intends to disseminate the Work outside of the U.S., Publisher may secure copyright to the extent authorized under the domestic laws of the relevant country, subject to a paid-up, nonexclusive, irrevocable worldwide license to the United States in such copyrighted work to reproduce, prepare derivative works, distribute copies to the public and perform publicly and display publicly the work, and to permit others to do so.

4. **Endorsement.** Any views expressed in the Work do not necessarily represent the views of the United States Government, and the Author's contribution to the Work is not meant to serve as an official endorsement of any statement to the extent that such statement may conflict with any official position of the United States Government.

5. **No Compensation.** No royalty income or other compensation may be accepted for work done as part of official duties. The Author may accept for the agency a limited number of reprints or copies of the publication.

6. **CDC Representations.** CDC represents to the Publisher that the Author is the sole author of the Author's contribution to the Work and that, to the extent consistent with applicable U.S. law, CDC is the owner of the rights that are the subject of this agreement; that the Work is an original work and has not previously been published in a peer-reviewed journal; that to the best of CDC's knowledge the Work is not a violation of any existing copyright, moral right, database right, or of any right of privacy or other intellectual property, personal, proprietary or statutory right; that where the Author is responsible for obtaining permissions or assisting the Publishers in obtaining permissions for the use of third party material, all relevant permissions and information have been secured; and that the Work contains nothing misleading, obscene, libelous or defamatory or otherwise unlawful. CDC agrees to reasonable instructions or requirements regarding submission procedures or author communications, and reasonable ethics or conflict of interest disclosure requirements unless they conflict with the provisions of this Cover Sheet.

7. **Disclaimer.** CDC and the Author expressly disclaim any obligation in Publisher's Agreement that is not consistent with the Author's official duties or the CDC mission, described at <http://www.cdc.gov/about/>. CDC and the Author do not disclaim obligations to comply with a Publisher's conflict of interest policy so long as, and to the extent that, such policy is consistent with CDC's own conflict of interest policies.

8. **For Peer-Reviewed Papers to be Submitted to PubMed Central and the CDC Repository.** The Author is a U.S. government employee who must comply with the CDC Public Access Policy, and the Author or CDC will deposit, or have deposited, in PubMed Central and the CDC's Repository via the NIH Manuscript Submission System, an electronic version of the final, peer-reviewed manuscript upon acceptance for publication, to be made publicly available without any embargo or delay after the official date of publication or when the publication is first available online, whichever comes first. The Author and CDC agree (notwithstanding Paragraph 3 above) to follow the manuscript deposition procedures (including the relevant embargo period, if any) of the publisher so long as they are consistent with the CDC Public Access Policy.

9. **Modifications.** PubMed Central may tag or modify the work consistent with its customary practices and with the meaning and integrity of the underlying work.

The CDC Director of Science, Dr. Sam Posner, approves this publishing agreement and maintains a single, signed copy of this text for all works published by CDC employees, and contractors and trainees who are working at the CDC. No additional signature from Dr. Sam Posner is needed.
