Dear Amy,

Furthermore, as long as the earlier JIV figure is original to the article – that is, there is no citation to a different rights holder, the figure is available for use in the new submission (if accepted to JIV or another SAGE journal) under the STM permissions guidelines, described here: <https://www.stm-assoc.org/intellectual-property/permissions/permissions-guidelines/>.

The STM permissions guidelines describe an arrangement between signatories allowing the re-use of limited figures and text excerpts between signatories, and we apply the guidelines to our own authors re-using SAGE works.

Dear Amy,

Further to my email below, please find the details and subsequent steps to be followed for permission on the following links. The links below have detailed and synoptic points to gaining permission and rights for articles or other elements like tables, figures etc.

Hope this is helpful. Thanks for your patience and help.

Dear Candace and Amy,

Thank you for your email. Given that permission related request varies from case to case, I have written to the concerned legal team seeking clarity on the matter. Would request you to please allow me a day or two as I await their response.

Thank you so much for your patience and understanding.

[EXTERNAL]

Hi, Amy. I believe you will have to ask permission from SAGE, the publisher. I am cc'ing one of our production editors, Gaurav Kumar, to find out exactly what you need to do.

Gaurav, thank you for filling in for Ayushi. Would you please confirm that the authors will need permission to use this material from a JIV article and, if so, what the procedure is for gaining permission? Thank you!

Candace

Greetings,

My co-authors and I are preparing a paper to submit to JIV.

We would like to reproduce a figure (with modification to the formatting for resolution purposes) from a paper previously published in JIV that laid a great foundation for our work. The paper is titled: Tankard, M. E., & Iyengar, R. (2018). Economic policies and intimate partner violence prevention: emerging complexities in the literature. *Journal of interpersonal violence*, 33(21), 3367-3387. The figure we are referring to is "Figure 1. Theoretical model linking economic policies to reduced intimate partner violence."

I am reaching out to ask for JIV's permission to include this figure. Alternatively, or in addition, do you recommend that we directly reach Drs. Tankard and Iyengar for their permission?

Thanks for your guidance!

Kind regards,

Amy
