

Niger-Niamey

Global School Personnel Survey (GSPS)

FACT SHEET

The Niger-Niamey GSPS includes data on prevalence of cigarette and other tobacco use as well as information on attitudes on school policy toward tobacco use, access to teaching materials and training, and attitudes toward tobacco use. These factors are components Niger-Niamey could include in a comprehensive tobacco control program.

The Niger-Niamey GSPS was a school-based survey of school personnel from the schools that participated in the 2001 Niger-Niamey GYTS.

The GYTS was conducted in schools having students in 6eme, 5eme and 4eme. For the GYTS, a two-stage cluster sample design was used to produce representative data for all of Niger-Niamey. At the first stage, schools were selected with probability proportional to enrollment size. At the second stage, classes were randomly selected and all students in selected classes were eligible to participate. The school response rate was 96.0%. For the GSPS, 100.0% of the school personnel completed the survey, for a total of 576 teachers and administrators.

Prevalence of Tobacco Use among School Personnel

35.0% ever smoked cigarettes (Admin = 27.8%, Teachers = 37.5%)
 16.0% currently use any tobacco product (Admin = 11.4%, Teachers = 17.7%)
 15.2% currently smoke cigarettes (Admin = 10.4%, Teachers = 16.9%)
 12.8% currently use other tobacco products (Admin = 8.2%, Teachers = 14.5%)
 24.3% smoked on school property in the past year (Admin = 21.9%, Teachers = 25.1%)

School Policies Prohibiting Tobacco Use

98.5% agree schools should have policy prohibiting tobacco use among students
 52.4% report school has policy prohibiting tobacco use among students
 81.2% agree schools should have a policy prohibiting tobacco use among personnel
 11.3% report school has a policy prohibiting tobacco use among personnel
 48.4% report school enforces policies on tobacco use for students and personnel

Access to Teaching Materials and Training

95.1% think teachers need specific training to help students avoid tobacco use
 5.8% teachers have access to teaching materials on tobacco use
 6.5% teachers had ever received training on youth tobacco use prevention
 22.2% schools use non-classroom programs to teach youth tobacco use prevention

Attitudes

98.2% think smoke from others is harmful to them
 96.8% think teacher tobacco use influences youth tobacco use
 84.2% think tobacco product advertising should be completely banned
 79.1% think the price of tobacco products should be increased
 80.2% think the tobacco industry deliberately encourages youth to use tobacco

Highlights

- 16.0% of school personnel currently use any tobacco product; 15.2% currently smoke cigarettes and 12.8% currently use other tobacco products.
- Over half the schools have a policy prohibiting tobacco use among students; Four in five have a policy for personnel; Nearly half the schools enforce their policies.
- 5.8% of the teachers have access to teaching materials on tobacco use.
- 6.5% of the teachers have ever received training on youth tobacco use prevention.
- Over one in five schools use non-classroom programs to teach youth tobacco use prevention.
- More than 9 in 10 think teacher tobacco use influences youth tobacco use.
