

Oman

Global School Personnel Survey (GSPS)

FACT SHEET

The Oman GSPS includes data on prevalence of cigarette and other tobacco use as well as information on attitudes on school policy toward tobacco use, access to teaching materials and training, and attitudes toward tobacco use. These factors are components Oman could include in a comprehensive tobacco control program.

The Oman GSPS was a school-based survey of school personnel from the schools that participated in the 2002 Oman GYTS.

The GYTS was conducted in schools having students in grades 8, 9, and 10. For the GYTS, a two-stage cluster sample design was used to produce representative data for all of Oman. At the first stage, schools were selected with probability proportional to enrollment size. At the second stage, classes were randomly selected and all students in selected classes were eligible to participate. The school response rate was 100.0%. For the GSPS, 100.0% of the school personnel completed the survey, for a total of 1,397 teachers and administrators.

Prevalence of Tobacco Use among School Personnel

18.1% ever smoked cigarettes (Admin = 15.3%, Teachers = 18.2%)
 5.4% currently use any tobacco product (Admin = 5.5%, Teachers = 5.4%)
 5.0% currently smoke cigarettes (Admin = 5.1%, Teachers = 5.0%)
 0.8% currently use other tobacco products (Admin = 1.2%, Teachers = 0.8%)
 4.4% smoked on school property in the past year (Admin = 5.0%, Teachers = 4.4%)

School Policies Prohibiting Tobacco Use

99.3% agree schools should have policy prohibiting tobacco use among students
 48.6% report school has policy prohibiting tobacco use among students
 96.8% agree schools should have a policy prohibiting tobacco use among personnel
 46.5% report school has a policy prohibiting tobacco use among personnel
 99.6% report school enforces policies on tobacco use for students and personnel

Access to Teaching Materials and Training

92.4% think teachers need specific training to help students avoid tobacco use
 30.8% teachers have access to teaching materials on tobacco use
 7.4% teachers had ever received training on youth tobacco use prevention
 47.1% schools use non-classroom programs to teach youth tobacco use prevention

Attitudes

99.1% think smoke from others is harmful to them
 99.2% think teacher tobacco use influences youth tobacco use
 98.3% think tobacco product advertising should be completely banned
 87.6% think the price of tobacco products should be increased
 94.8% think the tobacco industry deliberately encourages youth to use tobacco

Highlights

- 5.4% of school personnel currently use any tobacco product; 5.0% currently smoke cigarettes and less than 1% currently use other tobacco products.
- Nearly half of the schools have a policy prohibiting tobacco use among students and personnel; Nearly all schools enforce their policies.
- Three in 10 teachers have access to teaching materials on tobacco use.
- 7.4% of teachers have ever received training on youth tobacco use prevention.
- Nearly half of the schools use non-classroom programs to teach youth tobacco use prevention.
- Almost all think teacher tobacco use influences youth tobacco use.
