

# Saudi Arabi - Riyadh Global School Personnel Survey (GSPS) FACT SHEET . . . . .

The Saudi Arabi - Riyadh GSPS includes data on prevalence of cigarette and other tobacco use as well as information on attitudes on school policy toward tobacco use, access to teaching materials and training, and attitudes toward tobacco use. These factors are components Saudi Arabi - Riyadh could include in a comprehensive tobacco control program.

The Saudi Arabi - Riyadh GSPS was a school-based survey of school personnel from the schools that participated in the 2002 Saudi Arabi - Riyadh GYTS.

The GYTS was conducted in schools having male students in First, Second, & Third Intermediate. For the GYTS, a two-stage cluster sample design was used to produce representative data for all of Saudi Arabi - Riyadh. At the first stage, schools were selected with probability proportional to enrollment size. At the second stage, classes were randomly selected and all students in selected classes were eligible to participate. The school response rate was 100.0%. For the GSPS, 97.2% of the school personnel completed the survey, for a total of 461 teachers and administrators.

## Prevalence of Tobacco Use among School Personnel

- 41.2% ever smoked cigarettes (Admin = 52.4%, Teachers = 39.4%)
- 24.1% currently use any tobacco product (Admin = 38.7%, Teachers = 21.5%)
- 19.3% currently smoke cigarettes (Admin = 39.9%, Teachers = 15.7%)
