

Nepal - Mahendranagar and Dhangad

Global School Personnel Survey (GSPS)

FACT SHEET

The Nepal - Mahendranagar and Dhangad GSPS includes data on prevalence of cigarette and other tobacco use as well as information on attitudes on school policy toward tobacco use, access to teaching materials and training, and attitudes toward tobacco use. These factors are components Nepal - Mahendranagar and Dhangad could include in a comprehensive tobacco control program.

The Nepal - Mahendranagar and Dhangad GSPS was a school-based survey of school personnel from the schools that participated in the 2003 Nepal - Mahendranagar and Dhangad GYTS.

The GYTS was conducted in schools having students in grades 8, 9, and 10. For the GYTS, a two-stage cluster sample design was used to produce representative data for all of Nepal - Mahendranagar and Dhangad. At the first stage, schools were selected with probability proportional to enrollment size. At the second stage, classes were randomly selected and all students in selected classes were eligible to participate. The school response rate was 100.0%. For the GSPS, 95.5% of the school personnel completed the survey, for a total of 529 teachers and administrators.

Prevalence of Tobacco Use among School Personnel

40.2% ever smoked cigarettes (Admin = 34.9%, Teachers = 40.8%)
 35.8% currently use any tobacco product (Admin = 28.4%, Teachers = 36.6%)
 26.0% currently smoke cigarettes (Admin = 23.5%, Teachers = 26.3%)
