

# Congo

## Global School Personnel Survey (GSPS)

### FACT SHEET . . . . .

The Congo GSPS includes data on prevalence of cigarette and other tobacco use as well as information on attitudes on school policy toward tobacco use, access to teaching materials and training, and attitudes toward tobacco use. These factors are components Congo could include in a comprehensive tobacco control program.

The Congo GSPS was a school-based survey of school personnel from the schools that participated in the 2006 Congo GYTS.

The GYTS was conducted in schools having students in CM2, 6ème, 5ème, 4ème and 3ème. For the GYTS, a two-stage cluster sample design was used to produce representative data for all of Congo. At the first stage, schools were selected with probability proportional to enrollment size. At the second stage, classes were randomly selected and all students in selected classes were eligible to participate. The school response rate was 100.0%. For the GSPS, 50.9% of the school personnel completed the survey, for a total of 451 teachers & administrators.

#### Prevalence of Tobacco Use among School Personnel

- 34.4% ever smoked cigarettes (Admin = 59.2%, Teachers = 31.6%)
- 9.4% currently use any tobacco product (Admin = 5.6%, Teachers = 9.9%)
- 5.4% currently smoke cigarettes (Admin = 5.5%, Teachers = 5.4%)
- 4.7% currently use other tobacco products (Admin = 0.6%, Teachers = 5.3%)
- 0.9% smoked on school property in the past year (Admin = 1.3%, Teachers = 0.9%)

#### School Policies Prohibiting Tobacco Use

- 96.7% agree schools should have policy prohibiting tobacco use among students
- 88.9% report school has policy prohibiting tobacco use among students
- 93.8% agree schools should have a policy prohibiting tobacco use among personnel
- 83.1% report school has a policy prohibiting tobacco use among personnel
- 81.9% report school enforces policies on tobacco use for students and personnel

#### Access to Teaching Materials and Training

- 52.3% schools include tobacco use prevention in school curriculum
- 80.5% think teachers need specific training to help students avoid tobacco use
- 26.3% teachers have access to teaching materials on tobacco use
- 18.4% teachers had ever received training on youth tobacco use prevention
- 12.3% schools use non-classroom programs to teach youth tobacco use prevention

#### Attitudes

- 85.8% think smoking should be banned from public places
- 3.6% think smoke from others is harmful to them
- 65.6% think teacher tobacco use influences youth tobacco use
- 80.1% think tobacco product advertising should be completely banned
- 65.4% think the price of tobacco products should be increased
- 84.9% think the tobacco industry deliberately encourages youth to use tobacco

#### Highlights

- 9.4% of school personnel currently use any tobacco product; 5.4% currently smoke cigarettes and 4.7% currently use other tobacco products.
- Nine in 10 schools have a policy prohibiting tobacco use among students; eight in 10 have one for personnel; eight in 10 schools enforce their policies.
- Half the schools include tobacco use prevention in school curriculum.
- One-quarter of the teachers have access to teaching materials on tobacco use.
- One in 5 teachers has ever received training on youth tobacco use prevention.
- 12.3% of schools use non-classroom programs to teach youth tobacco use prevention.
- Over 4 in 5 think smoking should be banned from public places.
- Three in 5 think teacher tobacco use influences youth tobacco use.
