

# Lithuania - Pharmacy Students (3<sup>rd</sup> Year Students Only) Global Health Professions Student Survey (GHPSS)

## FACT SHEET . . . . .

The Lithuania pharmacy students GHPSS includes data on prevalence of cigarette smoking and use of other tobacco products, knowledge and attitudes about tobacco use, exposure to second-hand smoke, desire for smoking cessation, and training received during pharmacy school regarding patient counseling on smoking cessation techniques. This information could be very useful in monitoring and developing Lithuania's comprehensive tobacco control program.

The Lithuania pharmacy students GHPSS was a census of 3<sup>rd</sup> year pharmacy students attending the 1 pharmacy school in Lithuania conducted in 2006. The school response rate was 100% and the student response rate was 25.0%. A total of 25 students participated in the Lithuania pharmacy students GHPSS.
