

# Syrian Arab Republic - Nursing Students (3<sup>rd</sup> Year Students Only) Global Health Professions Student Survey (GHPSS)

## FACT SHEET . . . . .

The Syrian Arab Republic nursing students GHPSS includes data on prevalence of cigarette smoking and use of other tobacco products, knowledge and attitudes about tobacco use, exposure to second-hand smoke, desire for smoking cessation, and training received during nursing school regarding patient counseling on smoking cessation techniques. This information could be very useful in monitoring and developing Syrian Arab Republic's comprehensive tobacco control program.

The Syrian Arab Republic nursing students GHPSS was a census of 3<sup>rd</sup> year nursing students attending the 18 nursing schools in Syrian Arab Republic conducted in 2006. The school response rate was 100% and the student response rate was 94.7%. A total of 989 students participated in the Syrian Arab Republic nursing students GHPSS.
