

Guinea Bissau - Bissau

Global School Personnel Survey (GSPS)

FACT SHEET

The Guinea Bissau - Bissau GSPS includes data on prevalence of cigarette and other tobacco use as well as information on attitudes on school policy toward tobacco use, access to teaching materials and training, and attitudes toward tobacco use. These factors are components Guinea Bissau - Bissau could include in a comprehensive tobacco control program.

The Guinea Bissau - Bissau GSPS was a school-based survey of school personnel from the schools that participated in the 2008 Guinea Bissau - Bissau GYTS.

The GYTS was conducted in schools having students in grades 5a, 6a, 7a, and 8a. For the GYTS, a two-stage cluster sample design was used to produce representative data for all of Guinea Bissau - Bissau. At the first stage, schools were selected with probability proportional to enrollment size. At the second stage, classes were randomly selected and all students in selected classes were eligible to participate. The school response rate was 92.0%. For the GSPS, 38.4% of the school personnel completed the survey, for a total of 555 teachers & administrators.

Prevalence of Tobacco Use among School Personnel

- 9.9% ever smoked cigarettes (Teachers = 9.0%)
- 8.1% currently use any tobacco product (Teachers = 7.5%)
- 7.7% currently smoke cigarettes (Teachers = 7.0%)
