

Republic of Moldova

Global School Personnel Survey (GSPS)

FACT SHEET

The Republic of Moldova GSPS includes data on prevalence of cigarette and other tobacco use as well as information on attitudes on school policy toward tobacco use, access to teaching materials and training, and attitudes toward tobacco use. These factors are components Republic of Moldova could include in a comprehensive tobacco control program.

The Republic of Moldova GSPS was a school-based survey of school personnel from the schools that participated in the 2008 Republic of Moldova GYTS.

The GYTS was conducted in schools having students in forms VII-a, VIII-a, and IX-a. For the GYTS, a two-stage cluster sample design was used to produce representative data for all of Republic of Moldova. At the first stage, schools were selected with probability proportional to enrollment size. At the second stage, classes were randomly selected and all students in selected classes were eligible to participate. The school response rate was 98.3%. For the GSPS, 76.6% of the school personnel completed the survey, for a total of 1,741 teachers & administrators.

Prevalence of Tobacco Use among School Personnel

- 22.0% ever smoked cigarettes (Admin = 35.4%, Teachers = 20.6%)
- 8.9% currently use any tobacco product (Admin = 18.0%, Teachers = 8.0%)
- 8.6% currently smoke cigarettes (Admin = 18.0%, Teachers = 7.6%)
- 2.8% currently use other tobacco products (Admin = 4.9%, Teachers = 2.5%)
