

Morocco 2010 (Teachers & Administrators)

Global School Personnel Survey (GSPS)

FACT SHEET

The Morocco GSPS includes data on prevalence of cigarette and other tobacco use as well as information on attitudes on school policy toward tobacco use, access to teaching materials and training, and attitudes toward tobacco use. These factors are components Morocco could include in a comprehensive tobacco control program.

The Morocco GSPS was a school-based survey of school personnel from the schools that participated in the 2010 Morocco GYTS.

The GYTS was conducted in schools having students in 7th-9th year Collège and 1st year Lycée. For the GYTS, a two-stage cluster sample design was used to produce representative data for all of Morocco. At the first stage, schools were selected with probability proportional to enrollment size. At the second stage, classes were randomly selected and all students in selected classes were eligible to participate. For the GSPS, a total of 689 school personnel (teachers and administrators) completed the survey.

Prevalence of Tobacco Use

44.6% ever smoked cigarettes (Admin = 55.7%, Teachers = 40.9%)
 23.0% currently use any tobacco product (Admin = 30.7%, Teachers = 20.5%)
 23.0% currently smoke cigarettes (Admin = 28.1%, Teachers = 21.4%)
 2.1% currently use other tobacco products (Admin = 3.3%, Teachers = 1.6%)
 16.3% smoked on school property in the past year (Admin = 20.0%, Teachers = 15.0%)

School Policies Prohibiting Tobacco Use

97.3% agree schools should have policy prohibiting tobacco use among students
 83.7% report school has policy prohibiting tobacco use among students
 91.2% agree schools should have a policy prohibiting tobacco use among personnel
 38.0% report school has a policy prohibiting tobacco use among personnel
 84.1% report school enforces policies on tobacco use for students and personnel

Access to Teaching Materials and Training

67.4% schools include tobacco use prevention in school curriculum
 79.2% think teachers need specific training to help students avoid tobacco use
 30.9% teachers have access to teaching materials on tobacco use
 5.9% teachers had ever received training on youth tobacco use prevention
 26.9% schools use non-classroom programs to teach youth tobacco use prevention

Attitudes

93.0% think smoking should be banned from public places
 97.9% think smoke from others is harmful to them
 91.3% think tobacco product advertising should be completely banned
 79.5% think the price of tobacco products should be increased
 83.9% think the tobacco industry deliberately encourages youth to use tobacco

Highlights

- 23.0% of teachers and administrators currently use any tobacco product; 23.0% currently smoke cigarettes and 2.1% currently use other tobacco products.
