

# Albania - Nursing Students 2011 (3<sup>rd</sup> Year Students Only)

## Global Health Professions Student Survey (GHPSS)

### FACT SHEET . . . . .

The Albania nursing students GHPSS includes data on prevalence of cigarette smoking and use of other tobacco products, knowledge and attitudes about tobacco use, exposure to second-hand smoke, desire for smoking cessation, and training received during nursing school regarding patient counseling on smoking cessation techniques.

This information could be very useful in monitoring and developing Albania's comprehensive tobacco control program. The Albania nursing students GHPSS was a census of third year nursing students attending 10 nursing schools in Albania that was conducted in 2011. A total of 1,026 3<sup>rd</sup> year students participated in the Albania nursing students GHPSS. The overall response rate of all nursing students surveyed was 83.9%.
