

# Mexico - Hermosillo 2011 (Teachers & Administrators)

## Global School Personnel Survey (GSPS)

### FACT SHEET . . . . .

The Mexico - Hermosillo GSPS includes data on prevalence of cigarette and other tobacco use as well as information on attitudes on school policy toward tobacco use, access to teaching materials and training, and attitudes toward tobacco use. These factors are components Mexico - Hermosillo could include in a comprehensive tobacco control program.

The Mexico - Hermosillo GSPS was a school-based survey of school personnel from the schools that participated in the 2011 Mexico - Hermosillo GYTS.

The GYTS was conducted in schools having students in 1st, 2nd and 3rd of Secondary and 1st of High School. For the GYTS, a two-stage cluster sample design was used to produce representative data for all of Mexico - Hermosillo. At the first stage, schools were selected with probability proportional to enrollment size. At the second stage, classes were randomly selected and all students in selected classes were eligible to participate. For the GSPS, a total of 343 school personnel (teachers and administrators) completed the survey. The overall response rate of all school personnel surveyed was 30.5%.
