

Mexico - Mexico City 2011 (Teachers & Administrators)

Global School Personnel Survey (GSPS)

FACT SHEET

The Mexico - Mexico City GSPS includes data on prevalence of cigarette and other tobacco use as well as information on attitudes on school policy toward tobacco use, access to teaching materials and training, and attitudes toward tobacco use. These factors are components Mexico - Mexico City could include in a comprehensive tobacco control program.

The Mexico - Mexico City GSPS was a school-based survey of school personnel from the schools that participated in the 2011 Mexico - Mexico City GYTS.

The GYTS was conducted in schools having students in 1st, 2nd and 3rd of Secondary and 1st of High School. For the GYTS, a two-stage cluster sample design was used to produce representative data for all of Mexico - Mexico City. At the first stage, schools were selected with probability proportional to enrollment size. At the second stage, classes were randomly selected and all students in selected classes were eligible to participate. For the GSPS, a total of 315 school personnel (teachers and administrators) completed the survey. The overall response rate of all school personnel surveyed was 12.3%.

Prevalence of Tobacco Use

- 70.7% ever smoked cigarettes (Admin = 77.4%, Teachers = 66.1%)
- 30.7% currently use any tobacco product (Admin = 35.2%, Teachers = 27.6%)
- 30.3% currently smoke cigarettes (Admin = 34.9%, Teachers = 27.2%)
- 6.8% currently use other tobacco products (Admin = 7.5%, Teachers = 6.4%)
- 12.1% use any tobacco products on school property in the past year (Admin = 13.3%, Teachers = 11.2%)
