

**Who is this man and what did he accomplish?**

The theme of this month's issue of EID is zoonotic diseases. Consistent with this theme, here is a photograph of a physician who greatly advanced medicine and public health through his investigations of diseases of animals. He and his colleagues were the first to show that insects can transmit disease.

**Who is he?**

- A) Sir David Bruce**
- B) Robert Koch**
- C) Sir William Osler**
- D) Sir Ronald Ross**
- E) Theobald Smith**

**Decide first. Then turn the page.**
