4. Title and Subtitle Bibliography on Dyeing and Finishing of Textiles		5. Report Date 1981/01/21	
7. Author(s) Anonymous		6.	
9. Performing Organization Name and Address Geomet Technologies, Inc., Rockville, Maryland		8. Performing Organization Rept. No.	
		10. Project/Task/Work Unit No.	
		11. Contract (C) or Grant(G) No. (C) 210-79-0001 (G)	
12. Sponsoring Organization Name and Address		13. Type of Report & Period Covered	
		14.	
15. Supplementary Notes			
16. Abstract (Limit: 200 words) Almost 900 references were provided in this bibliography covering dyeing and finishing of textiles. Some of the topics addressed in these bibliographical listings included threshold limit values for exposure to hazardous substances, fireproofing, antistatic agent exposures, formaldehyde (50000), hypersensitivity to dyes, solvent exposures, lung diseases among workers, waste disposal and management, pigmented contact dermatitis, environmental contamination, ecotoxicology of dyestuffs, carcinoma of the bladder, textile floor coverings, microbiostats on textile materials, sonorous trauma in the industry, polyester dyeing, smoking research, age factors, thermal decomposition of polymers, bleaching of garments, leukemia, azo dyes, oral cancer, metabolism, chronic respiratory disease, and cotton workers.			
17. Document Analysis a. Descriptors			
b. Identifiers/Open-Ended Terms NIOSH-Publication, NIOSH-Contract, Contract-210-79-0001, Textiles-industry, Textile-workers, Industrial-safety-programs, Safety-engineering, Worker-safety, Carcinogenesis, Bladder-cancer, Organic-solvents, Solvent-vapors, Skin-disorders, Dermatitis			
c. COSATI Field/Group

National Technical Information Service
Springfield, VA 22161

*This report was printed specifically for your order
from nearly 3 million titles available in our collection.*

For economy and efficiency, NTIS does not maintain stock of its vast collection of technical reports. Rather, most documents are printed for each order. Documents that are not in electronic format are reproduced from master archival copies and are the best possible reproductions available. If you have any questions concerning this document or any order you have placed with NTIS, please call our Customer Service Department at (703) 487-4660.

About NTIS

NTIS collects scientific, technical, engineering, and business related information — then organizes, maintains, and disseminates that information in a variety of formats — from microfiche to online services. The NTIS collection of nearly 3 million titles includes reports describing research conducted or sponsored by federal agencies and their contractors; statistical and business information; U.S. military publications; audiovisual products; computer software and electronic databases developed by federal agencies; training tools; and technical reports prepared by research organizations worldwide. Approximately 100,000 *new* titles are added and indexed into the NTIS collection annually.

For more information about NTIS products and services, call NTIS at (703) 487-4650 and request the free *NTIS Catalog of Products and Services*, PR-827LPG, or visit the NTIS Web site
<http://www.ntis.gov>.
